Röntgen Centennial Xrays Today In Natural And Life Sciences:

Röntgen Centennial A. Haase, Gottfried Landwehr, Eberhard Umbach, 1997 To honour W C Röntgen and review the entire area of X ray development in the various fields of natural technical and life sciences his successors at the Physikalisches Institut of the Universität Würzburg organized a conference named Röntgen Centennial It took place at the new Physikalisches Institut not far from the historical site shortly before the actual 100th anniversary of the discovery Over forty renowned scientists were invited as representative speakers in the various subfields of X ray activities They reviewed the development gave examples and described the present status Most of them provided survey articles which are gathered in this book Since most X ray related activities are somehow represented an almost complete overview of the entire field is provided This book thus represents the enormous breadth of X ray activities and allows one to recognize the potential and quality of today's X ray research
