## **Roots From Outward Bound To Expeditionary Learning:**

**Roots** Emily Cousins, 2000 this anthology explores Expeditionary Learning's roots in the educational philosophy of Kurt Hahn. The founder of Outward Bound, Hahn started two schools and numerous educational initiatives. Through storytelling, scholarship, and first person accounts, this book describes Hahn's schools, his views on service, challenge, adventure, and the belief that students have more in them than they realize. *Creating Experiential Learning Opportunities for Language Learners* Melanie Bloom, Carolyn Gascoigne, 2017-03-08 While much research has been done on experiential learning opportunities in study abroad settings, there are fewer publications devoted to experiential learning in the domestic context. This volume aims to fill that gap by providing a collection of chapters highlighting research-based innovations in experiential learning in domestic settings. The book focuses on three experiential learning contexts: community engagement experiences, professional engagement experiences, and other unique experiential contexts such as language camps and houses. The collection focuses on the US context, but the research projects and curricular innovations described here can serve as models for educators working in other local contexts and will encourage interested practitioners to explore experiential learning opportunities in their local areas. It will also provide the reader with a better understanding of this growing field of inquiry and should appeal to graduate students and researchers who are interested in experiential language learning. *Leadership Lessons from Comprehensive School Reform* Joseph Murphy, Amanda Datnow, 2003 *Leadership Lessons From Comprehensive School Reform* addresses a topic that has received far too little attention in the comprehensive school reform movement: the role of school and district leaders in the reform process. This volume shows how much we've learned about how leaders shape comprehensive reform and how the reform process must shape leadership. Robert Slavin, Co-Director, Center for Research on the Education of Students Placed at Risk, Johns Hopkins University. This volume provides the most thorough, balanced, and informative source available on comprehensive school reform. In addition to insights regarding implementation of many of the most prominent CSR models, the book is a primer on distributed leadership, providing perspectives on the interplay of principals, teacher leaders, central office administrators, and model developers engaged in school and district reform. James Lytle, Superintendent, Trenton New Jersey Public Schools. This book offers well-grounded insights about the leadership practices of educators involved in the implementation of Comprehensive School Reform models. Leaders and leadership scholars will find it a rewarding read. I recommend it highly. Kenneth Leithwood, Ontario Institute for Studies in Education, Ontario, Canada. Discover what we've learned about educational leadership from comprehensive school reforms: models straight from the experts and insiders. Comprehensive School Reform (CSR) is proving to be one of the most promising avenues for improving student achievement. The authors have found that leadership is frequently acknowledged to be a prime factor in the successful implementation of comprehensive school reform. Murphy and Datnow have gathered together a group of CSR insiders and researchers to examine the issue of leadership in CSR for the first time. Contributors
