**The Columbia Guide to Central African Literature in English Since 1945** Adrian A. Roscoe,2008 Columbia s guides to postwar African literature paint a unique portrait of the continent s rich and diverse literary traditions This volume examines the rapid rise and growth of modern literature in the three postcolonial nations of Zimbabwe Malawi and Zambia It tracks the multiple political and economic pressures that have shaped Central African writing since the end of World War II and reveals its authors heroic efforts to keep their literary traditions alive in the face of extreme poverty and AIDS Adrian Roscoe begins with a list of key political events Since writers were composing within both colonial and postcolonial contexts he pays particular attention to the nature of British colonialism especially theories regarding its provenance and motivation

Roscoe discusses such historical figures as David Livingstone Cecil Rhodes and Sir Harry Johnston as well as modern power players including Robert Mugabe Kenneth Kaunda and Kamuzu Banda He also addresses efforts to create a literary historical record from an African perspective an account that challenges white historiographies in which the colonized was neither agent nor informer A comprehensive alphabetical guide profiles both established and emerging authors and further illustrates issues raised in the introduction Roscoe then concludes with a detailed bibliography recommending additional reading and sources At the close of World War II the people of Central Africa found themselves mired in imperial fatigue and broken promises of freedom This fueled a desire for liberation and a major surge in literary production and in this illuminating guide Roscoe details the campaigns for social justice and political integrity for education and economic empowerment and for gender equity participatory democracy rural development and environmental care that characterized this exciting period of development

**Jimmy Carter in Africa** Nancy Mitchell, 2023-05-25

By a wide margin the best book about Carter s presidency that s yet appeared Christian Science Monitor In the mid 1970s the Cold War had frozen into a nuclear stalemate in Europe and retreated from the headlines in Asia As Gerald Ford and Jimmy Carter fought for the presidency in late 1976 the superpower struggle overseas seemed to take a backseat to more contentious domestic issues of race relations and rising unemployment There was one continent however where the Cold War was on the point of flaring hot Africa Jimmy Carter in Africa opens just after Henry Kissinger s failed 1975 plot in Angola as Carter launches his presidential campaign The Civil Rights Act was only a decade old and issues of racial justice remained contentious Racism at home undermined Americans efforts to win hearts and minds abroad and provided potent propaganda to the Kremlin As President Carter confronted Africa the essence of American foreign policy stopping Soviet expansion slammed up against the most explosive and raw aspect of American domestic politics racism Drawing on candid interviews with Carter as well as key U S

and foreign diplomats and on a dazzling array of international archival sources Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself In the face of two major tests in Rhodesia and the Horn of Africa Carter grappled with questions of Cold War competition domestic politics personal loyalty and decision making style Mitchell reveals an administration not beset by weakness and indecision as is too commonly assumed but rather constrained by Cold War dynamics and by the president's own temperament as he wrestled with a divided public and his own human failings Jimmy Carter in Africa presents a stark portrait of how deeply Cold War politics and racial justice were intertwined An impressive historical work in every respect Choice Her writing flows and she places Carter's Africa policy within the larger context of US foreign policy and politics International Journal

#### **The Last British Liberals in Africa** Dickson

Mungazi,1999-05-30 A study of the clash of two traditions British liberalism and African nationalism and an examination of how Michael Blundell in Kenya and Garfield Todd in Zimbabwe used their liberal backgrounds to further the future of their adopted countries despite threats and detention Both Blundell and Todd believed that political leaders had a responsibility to serve the needs of the people as a condition of national development By the time each came to power European colonization had had a profoundly negative effect on the lives of Africans Blundell and Todd sought to correct this by putting their positive views of Africans into practice While colonial governments designed strategies for controlling Africans to serve political and economic interests at home in Europe Africans themselves established their own effective strategy not only to ensure their survival in the colonial setting but also to initiate a process for the restoration of their sense of self Michael Blundell and Garfield Todd with their liberal beliefs served as excellent allies in this period of a rising African consciousness Using sources obtained in Kenya and Zimbabwe over the past 15 years this work examines democratic traditions that have survived tumultuous times in recent years
