of an observed decline in the effectiveness of the centers the committee recommended a restructuring the MRSEC program to allow more efficient use and leveraging of resources The new program should fully invest in centers of excellence as well as in stand alone teams of researchers to allow tighter focus on key strengths of the program In its report the committee outlines one potential vision for how this might be accomplished in a revenue neutral fashion *Elementary and Secondary Education for Science and Engineering* ,1988 **Oversight and Evaluation of the Resource Centers for Science and Engineering Program** National Science Foundation (U.S.).
