

Compound Semiconductor Optoelectronics Research at the Australian National University

H.H. Tan, M. Buda, L. Fu, J. Woong-Leung, Q. Gao, Y. Kim, P. Lever, K. Stewart, V. Coleman, P. Gareso, S. Mokkapati, M. Fraser, S. Barik, G. Jolley, M. Lysevych, I. McKerracher, H. Joyce, L. Bougaen, P. Kuffner, M. O'Connor, M.F. Aggett and C. Jagadish*

Department of Electronic Materials Engineering, Research School of Physical Sciences and Engineering, The Australian National University, Canberra, ACT 0200, Australia. *Email: c.jagadish@ieee.org

The group at the Australian National University (ANU) engages in multi-disciplinary research in the field of semiconductor optoelectronics and nanotechnology. The group is led by Professor C. Jagadish and consists of 2 research fellows, 2 post-doctoral fellows, 10 PhD students and a technician. In addition to this, usually there are several researchers and students who spend 3-12 months in the group working on a variety of projects. Although not limited to it, the group's main focus is on compound semiconductors. Listed below is a synopsis of the projects currently undertaken:

Growth of Nanostructures

The synthesis and study of materials having at least two dimensions with nanometer scale size (i.e. so called 1D materials) such as nanotubes and nanowires has attracted intense interest due to their potential applications in electronics and photonics. Semiconductor nanowires have drawn considerable interest due to the potential of using conventional processes such as doping, junction formation, growth of heterostructures and superlattices during growth of nanowires. We are growing these nanowires by the so-called vapour-liquid-solid process in the Metalorganic Chemical Vapour Deposition (MOCVD) reactor. In addition we are also using ordered alumina porous membranes to create nano scale ordered gold patterns as nucleation sites for the growth of nanowires that could be used for fabrication of 3-D photonic crystals. On a separate but parallel study, we are investigating the growth of inverted opal III-V structures by MOCVD where the starting template of regularly stacked silica spheres are being infiltrated by III-V materials.

Growth of Novel Materials

Novel (In,Ga)SbN compound semiconductors are of great interest for a wide range of device applications in the mid- to long-wavelength infrared spectral region. Due to the huge negative bandgap bowing effect from N, the emission/absorption wavelength of InGaSb and InSb can

respectively be extended to mid- and long-wavelength infrared spectral range by adding a few percent of N. The wavelength can be fine-tuned by controlling the N content. This project aims to develop such a novel (In,Ga)SbN material system for a new generation of mid- to long-wavelength infrared optoelectronic devices using MOCVD that could lead to the development of advanced applications in thermal imaging, environmental monitoring, biological and chemical sensing, disease diagnosis and treatments.

Quantum Dot Optoelectronics Devices

Self-assembled semiconductor quantum dots (QDs) grown in the Stranski-Krastanow growth mode have found application in a multitude of optoelectronic devices such as lasers, modulators and photodetectors. Improved characteristics are predicted for these devices due to the unique electrical and optical properties provided by the quantum dots as a result of their 3-dimensional carrier confinement and delta function like density of states.

Research in the areas of QD lasers involves the growth of In(Ga)As(N) QDs laser structures on GaAs or InP substrates and investigating the properties of the devices such as gain saturation, the built-in electric field and the strain effects arising from the QDs.

The concept of using the intersubband absorption of infrared radiation has led to the development of quantum well infrared photodetectors (QWIPs) in the past decades. Quantum dot infrared photodetectors (QDIPs) are expected to show improved performance over their quantum well counterpart in detecting infrared signal due to the localized states in quantum dots and they respond to normal incidence photoexcitation. We fabricate and characterize QDIP devices grown by MOCVD and also investigate the various schemes that can be used to improve device performance and tunability (such as dots-in-a-well structure and intermixing).

Integrated Optoelectronic Devices

Semiconductor Optoelectronics Proceedings

Hongru Du

Semiconductor Optoelectronics Proceedings:

Yeah, reviewing a book **Semiconductor Optoelectronics Proceedings** could increase your close associates listings. This is just one of the solutions for you to be successful. As understood, execution does not suggest that you have wonderful points.

Comprehending as with ease as bargain even more than other will come up with the money for each success. neighboring to, the broadcast as skillfully as perspicacity of this Semiconductor Optoelectronics Proceedings can be taken as with ease as picked to act.

Semiconductor Optoelectronics Proceedings Introduction

Semiconductor Optoelectronics Proceedings Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Semiconductor Optoelectronics Proceedings Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Semiconductor Optoelectronics Proceedings : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Semiconductor Optoelectronics Proceedings : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Semiconductor Optoelectronics Proceedings Offers a diverse range of free eBooks across various genres. Semiconductor Optoelectronics Proceedings Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Semiconductor Optoelectronics Proceedings Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Semiconductor Optoelectronics Proceedings, especially related to Semiconductor Optoelectronics Proceedings, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Semiconductor Optoelectronics Proceedings, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Semiconductor Optoelectronics Proceedings books or magazines might include. Look for these in online stores or libraries. Remember that while Semiconductor Optoelectronics Proceedings, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Semiconductor Optoelectronics Proceedings eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Semiconductor Optoelectronics Proceedings full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Semiconductor Optoelectronics Proceedings eBooks, including some popular titles.

FAQs About Semiconductor Optoelectronics Proceedings Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Semiconductor Optoelectronics Proceedings is one of the best book in our library for free trial. We provide copy of Semiconductor Optoelectronics Proceedings in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Semiconductor Optoelectronics Proceedings. Where to download Semiconductor Optoelectronics Proceedings online for free? Are you looking for Semiconductor Optoelectronics Proceedings PDF? This is definitely going to save you time and cash in something you should think about.
