Irish Poetry:

Politics, History, Negotiation S. Matthews,1997-04-12 The award of the 1995 Nobel Prize for Literature to Seamus Heaney recognized not only the aesthetic achievement of his work but also its political urgency Here Steven Matthews presents a genealogy of Irish poetry which centres upon Heaney s recent preoccupation with the relations between poetry politics and history Writing from the perspective of Irish critical responses to the poetry he discusses a wide range of work from John Hewitt through Heaney himself to Paul Muldoon All of these poets have been inspired directly or indirectly by the situation in the North of Ireland Placing the poems in their historical context the author also analyses how these poets have reacted to the influence of W B Yeats This important book offers a new approach to Irish poetry linking it for the first time to the crucial political and historical events which lie at its centre

International Modernism and the Avant-Garde, 2016-12-08 Brill's Companion to the Reception of Classics in International Modernism and the Avant Garde examines how the writers and artists who lived from roughly the last quarter of the nineteenth century to the middle of the twentieth sought to build a new world from the ashes of one marked by two world wars global economic depression the rise of nationalism and the collapse of empires By surveying the modernist appropriation of Ancient Greece and Rome the fourteen chapters in this volume demonstrate how the Classics as foundational texts of the old order were nevertheless adapted to suit the stylistic innovation and formal experimentation that characterized modernist and avant garde literature and art *Modernism, Imperialism and the Historical Sense* Paul Stasi, 2012-07-30 This book provides a re-reading of canonical modernism connecting it to imperialism without conflating it with imperialist practices The Poem in the Story Harold Scheub, 2002-12-05 Fact and fiction meet at the boundaries the betwixt and between where transformations occur This is the area of ambiguity where fiction and fact become endowed with meaning and this is the area where ambiguity irony and metaphor join forces that Harold Scheub exposes in all its nuanced and evocative complexity in The Poem in the Story In a career devoted to exploring the art of the African storyteller Scheub has conducted some of the most interesting and provocative investigations into nonverbal aspects of storytelling the complex relationship between artist and audience and most dramatically the role played by poetry in storytelling This book is his most daring effort yet an unconventional work that searches out what makes a story artistically engaging and emotionally evocative the metaphorical center that Scheub calls the poem in the story Drawing on extensive fieldwork in southern Africa and decades of experience as a researcher and teacher Scheub develops an original approach a blend of field notes diary entries photographs and texts of stories and poems that guides readers into a new way of viewing even experiencing meaning in a story Though this work is largely focused on African storytelling its universal applications emerge when Scheub brings the work of storytellers as different as Shakespeare and Faulkner into the discussion A Historical Study of Early Modern Chinese Fictions (1890—1920) Pingyuan Chen, 2021-01-28 This book contains a classic guide to historical study of early modern Chinese fiction from the late Qing Dynasty till early republican China It does not merely study the new fiction writing in China which was strongly influenced by the western fiction but also draws a comparison between classical Chinese fiction and the early modern Chinese fiction This book is an excellent reference in the study of early modern Chinese literature since it conveys a point of view to the readers with abundant and solid historical materials At the heart of the book it is the matter of a specific value in trans-cultural studies between the western world and China **Misogynous Economies** Laura C. Mandell, 2014-10-17 The eighteenth century saw the birth of the concept of literature as business literature critiqued and

promoted capitalism and books themselves became highly marketable canonical objects During this period misogynous representations of women often served to advance capitalist desires and to redirect feelings of antagonism toward the emerging capitalist order Misogynous Economies proposes that oppression of women may not have been the primary goal of these misogynistic depictions Using psychoanalytic concepts developed by Julia Kristeva Mandell argues that passionate feelings about the alienating socioeconomic changes brought on by capitalism were displaced onto representations that inspired hatred of women and disgust with the female body Such displacements also played a role in canon formation The accepted literary canon resulted not simply from choices made by eighteenth century critics but also as Mandell argues from editorial and production practices designed to stimulate readers desires to identify with male poets Mandell considers a range of authors from Dryden and Pope to Anna Letitia Barbauld throughout the eighteenth century She also reconsiders Augustan satire offering a radically new view that its misogyny is an attempt to resist the commodification of literature Mandell shows how misogyny was put to use in public discourse by a culture confronting modernization and resisting alienation **The Millicent Library Bulletin** Millicent Library,1901 **Classical Literature** Richard Jenkyns,2015-01-29

Any list of the six greatest European poets would include Virgil Aeschylus and Homer A recent history of philosophy named Aristotle and Plato as two of the world s four greatest philosophers The greatest historian of all is likely to be Thucydides Why was Ancient Greek and Roman literature so great Sweeping across a thousand years acclaimed professor Richard Jenkyns provides a lucid and lively introduction to the foundation of all Western literature As Jenkyns shows us the Greeks were masters of invention they pioneered nearly all the major literary forms including epic poetry tragedy comedy and history The Romans like us already felt in the shadow of Greek literature and as Jenkyn puts it they first invented imitation In short engaging chapters Jenkyns illuminates the most enduring and influential works of the classical world from the Homeric epics to the golden age of Latin poetry and explores their unparalleled and continuing influence on Western literature

Contact II. ,1982 **Historical Collections of Ohio ...** Henry Howe,1902 Words Well Put Graham Sanders,2020-10-26 Many poems in the Chinese tradition come to us embedded in narratives purporting to tell the circumstances of their composition and performance Poetic competence is demonstrated in these narratives through a person s ability to influence the attitudes and behavior of others with poetic discourse Such competence can be apprehended only in the context of a narrative which sets forth a representation of the conditions of a poem s production performance and reception These narratives are not so much faithful historical records as ideal accounts of the operation of poetry Such stories both fulfill and deny wishes for poetry and for the self it is these wishes that merit our careful attention As traced in Words Well Put the vision of poetic competence evolved for over a millennium from calculated performances of inherited words to sincere passionate outbursts to displays of verbal wit combining calculation with the appearance of spontaneity By the seventh century calculation passion and wit had converged to produce a multivalent concept of competence as a

repertoire of competencies to use as the occasion demanded This book tells the story of the development of poetic competence to uncover the complexity of the concept and to identify the sources and exemplars of that complexity *The Cambridge History of Italian Literature* Peter Brand,Lino Pertile,1999-08-28 Italy possesses one of the richest and most influential literatures of Europe stretching back to the thirteenth century This substantial history of Italian literature provides a comprehensive survey of Italian writing since its earliest origins Leading scholars describe and assess the work of writers who have contributed to the Italian literary tradition including Dante Petrarch and Boccaccio the Renaissance humanists Machiavelli Ariosto and Tasso pioneers and practitioners of commedia dell arte and opera and the contemporary novelists Calvino and Eco The Cambridge History of Italian Literature sets out to be accessible to the general reader as well as to students and scholars translations are provided along with a map chronological chart and substantial bibliographies

International Congress,1995 The rich and varied nature of twentieth century Anglo Irish and Irish poetry is reflected in the essays presented in Politics and the Rhetoric of Poetry Perspectives on Modern Anglo Irish Poetry The linguistic and theoretical observations formulated in close readings of apparently non political texts disclose implied political positions and suggest to what extent rhetoric and the nature of language are at the root of such questions as how should we read contemporary poetry How can poems play a part in the resolution of the political and historic conflict Nuala

N Dhomhnaill's versions of The T in Brendan Kennelly's Cromwell Paul Muldoon's Madoc and Ciaran Carson's Belfast Confetti are analysed in detail as is the relationship between rhetoric and politics in Seamus Heaney and Derek Mahon. Earlier twentieth century poets such as Thomas Kinsella John Hewitt Patrick Kavanagh John Montague Louis MacNeice and Padraic Colum are also examined. The contingent nature of language is recognized by many of these poets and the seventeen essays bring out the political charge hidden in the poetry. This includes the deliberate choice of the poetic form the internal dialogue or the complexity of voices in the poem and a particular preoccupation with endings. These essays demonstrate Yeats's contention that Deliberation can be so intensified that it becomes synonymous with inspiration. The Bible cyclopædia: or, Illustrations of the civil and natural history of the sacred writings [ed. by W. Goodhugh, completed by W.C. Taylor]. William Goodhugh, William Cooke Taylor, 1843
