Shadows of Being Marko Uršič, 2019-01-15 This book is a study of the phenomena of shadows meant in a broader sense as symbolic forms The shadow is a less real surface replica of some more real form From the Platonic point of view empirical objects are shadows of ideas while from the modern natural point of view shadows are seen and conceived primarily as weaker replicas of bodies which give evidence of their material reality In the first three essays here several topics from the Ancient Egypt and Greece to modern arts and sciences are considered while in the fourth essay the contemporary virtual reality cyber technology and the internet as our parallel shadow world are discussed from the philosophical point of view The main and innovative point of this book is the connection between the

that we are committing ourselves to The words rush past their meaning blurred by familiarity If we could only slow them down and hear them properly they would have the power to change worlds That is what The Creed in Slow Motion aims to do This is a book for people who like to think things through from first principles It will not tell you what to believe It is for you to engage your mind and discover that for yourself And for unbelievers to learn what exactly they disbelieve and why In forty short chapters with clarity and wit The Creed in Slow Motion draws examples from real life stories history and even science to uncover the core claims of Christianity By turns it is deep heartening startling revolutionary and even by the world s standards outrageous *Treasures of the Mongol Empire* Pasquale De Marco,2025-03-16

An A-Z of Counselling Theory and Practice William Stewart, 2005 The broad perspective multidisciplinary approach of the second edition makes it invaluable in the counselling context at any level It is comprehensive enough for full time counsellors and students but it is also a resource for health care professionals for whom counselling is an intrinsic component of their practice *Ibn Al-Arabi's Fusus Al-Hikam* Binyamin Abrahamov, 2015-03-24 Ibn al Arabi's *Fusus al Hikam* is a translation of one of the most important works written on Islamic Mysticism Muhyi al Din Ibn al Arabi 1165 1240 is deemed the greatest mystic of Islam and his mystical philosophy has attracted the attention of both Muslims and non Muslims from his time to the present day Believing that the world is the self manifestation of God he claimed that all religions are equal and that the perfect human being is he who knows all the religious phenomena in the world *Fusus al hikam* examines the singular characteristics of twenty seven prophets of Islam and constitutes the best summary of Ibn al Arabi's thought The translation of these twenty seven chapters is preceded by an introduction that explains the main ideas of Ibn al Arabi and is accompanied by explanatory notes to the text Providing an easily accessible translation of one of the greatest mystics of Islam Ibn al Arabi *Fusus al Hikam* is essential reading for students scholars and researchers of Islamic Philosophy Mysticism and Islamic Mysticism in particular Figura and Fulfillment Tibor Fabiny, 2016-01-04 An enlarged edition of *The Lion and The Lamb* *Figuralism and Fulfillment in the Bible* Art and Literature Beginning with Northrop Frye's discussion of biblical typology the understanding of the Old Testament as a source of anticipation of the New Testament Tibor Fabiny develops his hermeneutical discussion using the insights of reader response criticism in a wholly original way His approach to biblical typology is both comprehensive and interdisciplinary using material from literature and the visual arts in the Christian tradition He moves from a discussion of the Bible to examples of typology in medieval art and literature and finally to the drama of Shakespeare and T S Elliot in *Murder in the Cathedral* *The Wiggly World of Organization* Chris Rodgers, 2021-05-17 The well ordered fully aligned view of organization and management practice with its unfailingly positive results bears little relationship to the world that managers and others experience every day This straight line do this and you'll get that idealization is far removed from the wiggly reality Despite this the former continues to dominate the ways in which

management is spoken about and judged in formal organizational arenas and wider society This creates unrealistic expectations of what managers from CEO to the front line can sensibly achieve independently of the actions of others Crucially too it distorts the ways in which they and others account formally for their actions And so the fantasy continues Against this background the book offers a radically different way of thinking about and engaging with the irreducible complexity of organization and management practice Using straightforward language throughout it sets out to help managers and others to become consciously aware of what they already know deep down about how organization works and what they and everyone else are actually doing in practice It then offers a practical approach to everyday practice that takes complexity seriously Armed with these new insights readers will be better placed to apply their innate understanding and practical judgement to the demands that they and others face day to day Whether these arise from their roles as managers other practitioners policy makers regulatory authorities or participants more generally
