Less Incomplete Sandie Gustus,2011-05-27 Based on an advanced new scientific approach to studying the consciousness/soul/spirit as proposed by renowned Brazilian consciousness researcher Dr. Waldo Vieira, this book provides a comprehensive understanding of the reality of the human condition beyond the physical body, offering readers a profound opportunity to increase their self-awareness, self-confidence, balance, and maturity, and to take control of their experience of life. In this book, consciology and projectology, the two new sciences proposed by Vieira, are explained in layman's terms. Consciology is the science that studies the consciousness, investigating all of its attributes, properties, characteristics, bodies, lives, and phenomena. The book examines three attributes of the consciousness that it is multidimensional, multiexistential, i.e., it reincarnates and that it evolves. Projectology is the study of the projection of the consciousness or out-of-body experience, commonly known as OBE.
