

The background of the book cover is a dark, textured greenish-blue. A white bird, possibly a heron or egret, is depicted with its wings fully spread, showing detailed feather structure. The bird's head is turned back, and its long neck is visible. The overall mood is contemplative and artistic.

DAVID ABRAM

"Revolutionary. . . This book ponders the violent disconnection of the body from the natural world and what this means about how we live and die in it."

Sensuous Perception:

The Spell of the Sensuous David Abram, 1997-02-25 Winner of the International Lannan Literary Award for Nonfiction Animal tracks word magic the speech of stones the power of letters and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us This major work of ecological philosophy startles the senses out of habitual ways of perception For a thousand generations human beings viewed themselves as part of the wider community of nature and they carried on active relationships not only with other people with other animals plants and natural objects including mountains rivers winds and weather patterns that we have only lately come to think of as inanimate How then did humans come to sever their ancient reciprocity with the natural world What will it take for us to recover a sustaining relation with the breathing earth In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau Ponty Balinese shamanism Apache storytelling and his own experience as an accomplished sleight of hand of magician to reveal the subtle dependence of human cognition on the natural environment He explores the character of perception and excavates the sensual foundations of language which even at its most abstract echoes the calls and cries of the earth On every page of this lyrical work Abram weaves his arguments with a passion a precision and an intellectual daring that recall such writers as Loren Eiseley Annie Dillard and Barry Lopez

The Maha-Bodhi, 1923

The Moral Imagination John Paul Lederach, 2010 John Paul Lederach's work in the field of conciliation and mediation is internationally recognized He has provided consultation training and direct mediation in a range of situations from the Miskito Sandinista conflict in Nicaragua to Somalia Northern Ireland Tajikistan and the Philippines His influential 1997 book *Building Peace* has become a classic in the discipline In this book Lederach poses the question How do we transcend the cycles of violence that bewitch our human community while still living in them Peacebuilding in his view is both a learned skill and an art Finding this art he says requires a worldview shift Conflict professionals must envision their work as a creative act an exercise of what Lederach terms the moral imagination This imagination must however emerge from and speak to the hard realities of human affairs The peacebuilder must have one foot in what is and one foot beyond what exists The book is organized around four guiding stories that point to the moral imagination but are incomplete Lederach seeks to understand what happened in these individual cases and how they are relevant to large scale change His purpose is not to propose a grand new theory Instead he wishes to stay close to the messiness of real processes and change and to recognize the serendipitous nature of the discoveries and insights that emerge along the way overwhelmed the equally important creative process Like most professional peacemakers Lederach sees his work as a religious vocation Lederach meditates on his own calling and on the spirituality that moves ordinary people to reject violence and seek reconciliation Drawing on his twenty five years of experience in the field he explores the evolution of his understanding of peacebuilding and points the way toward the future of the art <http://www.loc.gov/catdir>

Calcutta Review, 1921 **Questions of Phenomenology** Françoise Dastur, 2017-06-01 Fran oise Dastur is well respected in France and Europe for her mastery of phenomenology as a movement and her clear and cogent explications of phenomenology in movement These qualities are on display in this remarkable volume Dastur guides the reader through a series of phenomenological questions language and logic self and other temporality and history finitude and mortality that also call phenomenology itself into question testing its limits and pushing it in new directions Like Merleau Ponty Dastur sees phenomenology not as a doctrine a catalogue of concepts and catchphrases authored by a single thinker but as a movement in which several thinkers participate each inflecting the movement in unique ways In this regard Dastur is both one of the clearest guides to phenomenology and one of its ablest practitioners *The Development of Modern Logic* Leila Haaparanta, 2009-06-18 This edited volume presents a comprehensive history of modern logic from the Middle Ages through the end of the twentieth century In addition to a history of symbolic logic the contributors also examine developments in the philosophy of logic and philosophical logic in modern times The book begins with chapters on late medieval developments and logic and philosophy of logic from Humanism to Kant The following chapters focus on the emergence of symbolic logic with special emphasis on the relations between logic and mathematics on the one hand and on logic and philosophy on the other This discussion is completed by a chapter on the themes of judgment and inference from 1837 1936 The volume contains a section on the development of mathematical logic from 1900 1935 followed by a section on main trends in mathematical logic after the 1930s The volume goes on to discuss modal logic from Kant till the late twentieth century and logic and semantics in the twentieth century the philosophy of alternative logics the philosophical aspects of inductive logic the relations between logic and linguistics in the twentieth century the relationship between logic and artificial intelligence and ends with a presentation of the main schools of Indian logic The *Development of Modern Logic* includes many prominent philosophers from around the world who work in the philosophy and history of mathematics and logic who not only survey developments in a given period or area but also seek to make new contributions to contemporary research in the field It is the first volume to discuss the field with this breadth of coverage and depth and will appeal to scholars and students of logic and its philosophy *Indian Logic* Dr Jonardon Ganeri, 2013-02-01 The articles in this volume are all landmarks in the evolution of modern studies in Indian logic The book traces the development of modern studies in Indian logic from their beginnings right up to the latest work **The Epochal Nature of Process in Whitehead's Metaphysics** F. Bradford Wallack, 1980-01-01 While my book attempts to reflect the full range of scholarly debate I have also attempted to make it useful to anyone interested in Whitehead To this end I have introduced the Whiteheadian terms one by one explaining each in the light of my interpretation and I have used examples wherever possible I try to show that Whitehead intended his philosophy have a place in our lives by reshaping our common conceptions and that he did not intend it to be relegated to purely abstract or esoteric application F Bradford Wallack The twentieth century has seen the greatest innovations in

philosophical cosmology since Newton and Descartes and Alfred North Whitehead was the first and greatest of the philosophers to work out these innovations in systematic ways In a book that will be controversial in the philosophical community F Bradford Wallack argues that interpretations widely accepted by Whiteheadians need revaluation because these interpretations are based on materialist and substantialist assumptions that Whitehead sought to replace Specifically she proposes a thorough revision of accepted interpretations of Whitehead s concept of the actual entity Wallack then elucidates Whitehead s ideas in order of their increasing dependence upon other basic Whiteheadian terms to complete the study of Whiteheadian time and to clarify its purpose within the cosmology of Process and Reality Whitehead s philosophy then emerges as more intelligible and cohesive than is generally believed Indian Thought ,1912 The Ethics of Husserl's Phenomenology Joaquim Siles i Borràs,2010-02-11 The Ethics of Husserl s Phenomenology aims to relocate the question of ethics at the very heart of Husserl s phenomenology This is based on the idea that Husserl s phenomenology is an epistemological inquiry ultimately motivated by an ethical demand that pervades his writing from the publication of Logical Investigations 1900 1901 up to The Crisis of European Sciences and Transcendental Phenomenology 1935 Joaquim Siles Borr s traces the ethical concepts apparent throughout Husserl s main body of work and argues that Husserl s phenomenology of consciousness experience and meaning is ultimately motivated by an ethical demand by means of which Husserl aims to re define philosophy and re found science with the aim of making philosophy and science capable of dealing with the most pressing questions concerning the meaningfulness of human existence **Çlokavārttika** Kumārila Bhaṭṭa,1909
