Separate People:

Separate Peoples, One Land Cynthia Cumfer, 2012-09-01 Exploring the mental worlds of the major groups interacting in a borderland setting Cynthia Cumfer offers a broad multiracial intellectual and cultural history of the Tennessee frontier in the Revolutionary and early national periods leading up to the era of rapid westward expansion and Cherokee removal Attentive to the complexities of race gender class and spirituality Cumfer offers a rare glimpse into the cultural logic of Native American African American and Euro American men and women as contact with one another powerfully transformed their ideas about themselves and the territory they came to share The Tennessee frontier shaped both Cherokee and white assumptions about diplomacy and nationhood After contact both groups moved away from local and personal notions about polity to embrace nationhood Excluded from the nationalization process slaves revived and modified African and American premises about patronage and community while free blacks fashioned an African American doctrine of freedom that was both communal and individual Paying particular attention to the influence of older European concepts of civilization Cumfer shows how Tennesseans along with other Americans and Europeans modified European assumptions to contribute to a discourse about civilization one both dynamic and destructive which has profoundly shaped world history Safe People Henry Cloud, John Townsend, 1996-10-22 Henry Cloud and John Townsend provide a series of learning programs that encourage knowing the Biblical basis for establishing relationships The Will of the People Albert Weale, 2019-03-05 Democracies today are in the grip of a myth the myth of the will of the people Populist movements use the idea to challenge elected representatives Politicians content to invoke the will of the people fail in their duty to make responsible and accountable decisions And public contest over political choices is stifled by fears that opposing the will of the people will be perceived as elitist In this book Albert Weale dissects the idea of the will of the people showing that it relies on a mythical view of participatory democracy As soon as a choice between more than two simple alternatives is involved there is often no clear answer to the question of what a majority favours Moreover because governments have to interpret the results of referendums the will of the people becomes a means for strengthening executive control the exact opposite of what appealing to the people s will seemed to imply Weale argues that it s time to dispense with the myth of the will of the people A flourishing democracy requires an open society in which choices can be challenged parliaments strengthened and populist leaders called to account **Coalitions Across the Class Divide** Fred Rose, 2000 Too often struggles for jobs and economic justice have been divided from social goals such as peace or protecting the environment How do we create an economy where both the process and product of work serve life sustaining goals Coalitions across the Class Divide argues that the seeds of this new society are being sown by those who learn to bridge working and middle class movements and cultures A new generation of activists is seizing a historic opportunity to organize coalitions across the labor peace environmental and other movements that have previously worked in isolation or at odds Fred Rose brings the challenges and potential of

coalition organizing to life through an in depth look at cases of conflict and cooperation From the timber wars in the Pacific Northwest to military conversion coalitions emerging with the end of the Cold War these cases teach practical lessons about the processes and pitfalls of organizing across movements and classes *De Bow's Review* James Dunwoody Brownson De Bow,1860 *De Bow's Review and Industrial Resources, Statistics, Etc* James Dunwoody Brownson De Bow,R. G. Barnwell,Edwin Q. Bell,1860 To Rule Jerusalem Roger Friedland,Richard Hecht,1996-03-29 To Rule Jerusalem is a historical and ethnographic account of the twentieth century struggle for Jerusalem The volume examines how Jerusalem is doubly divided On the one hand conflict exists between Israelis and Palestinians each of whom ground their national identities in the city On the other conflict exists within each nation between Zionism and Judaism on one side and between Palestinian nationalism and Islam on the other Based on hundreds of interviews this book evokes the ways in which these conflicts are experienced and managed in the life of the city
