

# ALEXANDRA TRAINING HOME. FOR DOMESTIC SERVANTS.

IN

It was pointed out at a recent meeting of the Union that there were plenty of girls in Victoria ready to become domestic servants under certain conditions. Of course the aspiring servants will be allowed to choose their own conditions, but their prospective mistresses think one essential condition is their complete conversion. The conversion is to be brought about by passing them through a training institution.

OUT

"I don't want to prevent the girls sticking out for suitable conditions," says Mary Ann. "That's all right; washing is sent out," replies the mistress. "I can't iron." "Ironing is sent out." "I can't scrub." "We have a woman in." "I can't look after children." "Oh," chips in the master, "we have two, but we can kill them."

ON WEDNESDAY.

MISTRESS.—Oh, there you are, Mary Ann. I want you particularly. You know it is my day at home?  
MAID.—I'm very sorry, but you'll have to change it, ma'am. Wednesday is my day at home.

THE LADY OF THE HOUSE.—Have you seen my husband? Ah, there you are, John. I want you to come with me. You can't have him, THE SERVANT.—Well, you can't have him, ma'am. It's the servants' picnic to-day, and I want him to carry this basket.

MISTRESS.—Why, Susan, those are my things you have on?  
SERVANT.—Yes, mum. I engaged to be a servant under suitable conditions, and the privilege of wearing your clothes is one of them.

MISTRESS.—What, not satisfied, Jane?  
MAID.—Yes, ma'am, but you don't do it well enough for me.

Bois,2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois s thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois s 1903 masterpiece *The Souls of Black Folk* The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois s everyday intellectual and scholarly reference These essays commence at the moment of Du Bois s return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois s first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply refracting dimensions They close with Du Bois s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois s thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker A seminal contribution to the history of modern thought Compiled and edited by the world s preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler s brilliant original and quite riveting introduction If you are coming to Du Bois for the first time of the 500th time this book is a must read Robin D G Kelley author of *Freedom Dreams The Black Radical Imagination* *Globalising Housework* Laura Humphreys,2021-04-26 This book shows how international influences profoundly shaped the English home of Victorian and Edwardian London homes which in turn influenced Britain s and Britons place on the world stage The period between 1850 and 1914 was one of fundamental global change when London homes were subject to new expanding influences that shaped how residents cleaned ate and cared for family It was also the golden age of domesticity when the making and maintaining of home expressed people s experience of society class race and politics Focusing on the everyday toil of housework the chapters in this volume show the English home as profoundly global conglomeration of people technology and things It examines a broad spectrum of sources from patents to ice cream makers and explores domestic

histories through original readings and critiques of printed sources material culture and visual ephemera *The Problem of Party Government* Richard Rose,2015-12-22 **The structure of government and the challenge of climate change**

Great Britain: Parliament: House of Commons: Environmental Audit Committee,2007-10-29 The Committee's report finds that over the past decade the Government has failed to rise fully to the domestic challenge of climate change and its likely failure to reach its domestic target on reducing carbon dioxide emissions will have a damaging impact on the UK's international leadership role in reaching a post Kyoto agreement Although the Government has introduced some new arrangements for co-ordinating climate change policy more effectively across Whitehall the scale of the challenge and the complexity involved in radically restructuring the economy to bring about the needed emission reduction targets requires further changes There is a need for a strategic review of Government action to ensure that the leadership and responsibility for the development and delivery of climate change mitigation and adaptation policies is clear as well as a new long term policy framework to ensure that policies introduced today do not undermine our ability to reduce emissions in the future The Committee also recommends that a new and authoritative body be established within the Cabinet Office to drive forward policy and to diminish the potential for a conflict of objectives between departments Scientific Methodology in

Nineteenth Century Britain Charles H. Pence,2025-09-25 This collection of primary sources examines scientific methodology in Britain during the long nineteenth century The nineteenth century played host to the development for the first time of statistical and probabilistic methods across the biological human and social sciences A new kind of quantified statistical social science came into being Such innovations were quickly marshaled for use in the life sciences from evolution to agriculture to eugenics This title will be of great interest to students of the history of philosophy and the history of science

it increasingly hard to tell the difference between hypocrisy and more obviously attractive qualities like modesty self control and tact
