Pace, Condé Benoist Pallen, Thomas Joseph Shahan, John Joseph Wynne, Andrew Alphonsus MacErlean, 1907 The Cyclic Mass James Cook, 2019-01-22 England in the fifteenth century was the cradle of much that would have a profound impact on European music for the next several hundred years Perhaps the greatest such development was the cyclic cantus firmus Mass and scholarly attention has therefore often been drawn to identifying potentially English examples within the many anonymous Mass cycles that survive in continental sources Nonetheless to understand English music in this period is to understand it within a changing nexus of two way cultural exchange with the continent and the genre of the Mass cycle is

very much at the forefront of this. Indeed the question of what is English cannot truly be answered without also answering the question of what is continental. This book seeks initially to answer both of these questions. Perhaps more importantly it argues that a number of the works that have induced the most scholarly debate are best seen through the lens of intensive and long term cultural exchange and that the great binary divide of provenance can in many cases productively be broken down. A great many of these works though often written on the continent can it seems only be understood in relation to English practice a practice which has had and will continue to have major importance in the ongoing history of European Art Music.

Visions of Liturgy and Music for a New Century Lucien Deiss, 1996 In a manner that reflects his broad historical and musical knowledge of the Church's liturgy Father Deiss takes us step by step through the Eucharistic celebration of the Mass paying attention not only to the liturgy's repertoire of music and song but also to its participants as well the roles of the priest the choir the music director the organist the cantor even the singing congregation. He discusses every musical aspect and offers suggestions for improvement and sound creative ideas about what the future may hold for Christian liturgy as we enter the twenty first century.

Ethiopian Christian Liturgical Chant: An Anthology, Part 1 Kay Kaufman Shelemay, Peter Jeffery, 1993-01-01 This three volume anthology introduces the Ethiopian Christian musical tradition to performers music scholars and liturgists while addressing general problems of notation and oral tradition. Ethiopian Christian chant has been passed down both in an indigenous notational system and through oral transmission. This edition presents a selection of liturgical portions from the annual cycle in facsimiles of notated sources and in transcriptions from modern performances. Supplementing the edition is a complete dictionary of notational signs with equivalents in modern notation and a set of charts tracing the notational history of each liturgical portion through a sample of Ethiopian manuscripts.

Sparks, 1963 *The Musical Times and Singing-class Circular*, 1873 *The St. Gregory Hymnal and Catholic Choir Book* Nicola Aloisius Montani, 1920 *Music and Meaning in Old Hispanic Lenten Chants* Emma Hornby, Rebecca Maloy, 2013 Although Old Hispanic liturgical chant has long been considered one of the most important medieval chant traditions its musical notation shows only where the melodies rise and fall not precise intervals or pitches and this lack of pitch readable notation has prevented scholars from fully engaging with the surviving sources. Focussing on three genres of chant sung during the Old Hispanic Lent the threni psalmi and Easter Vigil canticles this book takes a holistic view of the texts and melodies setting them in the context of their liturgical and intellectual surroundings.
