The Personalist Ralph Tyler Flewelling,1929 Monthly Bulletin St. Louis Public Library,1929 Teachers bulletin vol 4 issued as part of v 23 no 9 **Monthly Bulletin. New Series** St. Louis Public Library,1929 **The Bodleian Quarterly Record** ,1926 *The Philosophical Review* Jacob Gould Schurman,James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham,1928 An international journal of general philosophy Dictionary of Twentieth-Century British Philosophers Stuart Brown,Hugh Terence Bredin,2005-08-01 No Marketing Blurb *Church Quarterly Review* ,1928 **American Ecclesiastical Review** Herman Joseph Heuser,1928 *The Quest* ,1928 *The Transcendence of God* Edward Farley,2017-06-28 In the varying perspectives of theological thought the contrasting ideas of transcendence and immanence must inevitably be looked at together To whatever extent they are held to be mutually compatible or mutually exclusive neither can be considered without at least some cognizance being taken of the other Nevertheless in the swinging of the pendulum from era to era first one and then the other theme receives the greater weight of attention Thus nineteenth century liberalism placed more emphasis on immanence whereas the twentieth century revolt against liberalism has concentrated on transcendence In this book the author studies the transcendent aspect of God as developed by five contemporary theologians Two of the men whose work Dr Farley examines Reinhold Niebuhr and Paul Tillich are thoroughly familiar The other three Karl Heim Charles Hartshorne and Henry Nelson Wieman have received less attention in recent studies The five represent widely divergent traditions but all of them agree in opposing immanentism Moreover they all deal with the tension between the philosophical and the Biblical affirmations of God s transcendence and attempt to show in their respective ways how these types of beyondness are related *Psychoanalytic Studies of the Work of Adam Smith* Sule Ozler,Paul Gabrinetti,2017-07-14 Psychoanalytic Studies of the Work of Adam Smith blends the rich intellectual heritage of the hermeneutic tradition with the methods and concepts of psychoanalysis in order to examine the seminal works of Adam Smith This is the first book on Smith to analyse the works of the groundbreaking moral theorist and founding father of economics from a psychoanalytic perspective whilst also examining the human capacities and skills that are necessary to put Smith s ideas into practice Starting with a detailed discussion of the psychological difficulties that afflicted Smith zler and Gabrinetti examine the influence that Smith s life had on the ideas that are found in his major works The authors explore the sympathetic process in Smith s *The Theory of Moral Sentiments* TMS from an intersubjectivist perspective and use ideas from developmental psychology to argue that sympathy leads to morality This book contains a thorough analysis of the defences that are used to create Smith s moral system in the TMS and explores how Smith s ideas were precursors to concepts later developed by Freud The authors show that Smith s attitude to women was at best ambivalent and consider the reciprocal interaction between markets and morality from an evolutionary psychology perspective Covering an impressive range of topics this book will appeal to academics and postgraduate students with an interest in psychoanalysis moral

God, Freud and Religion Dianna T. Kenny, 2015-03-05 Choice Essential Read Did God create man or did man create God In this book Dianna Kenny examines religious belief through a variety of perspectives psychoanalytic cognitive neuropsychological sociological historical and psychiatric to provide a coherent account of why people might believe in God She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences Freud argued that religion is so compelling because it solves the problems of our existence It explains the origin of the universe offers solace and protection from evil and provides a blueprint about how we should live our lives with just rewards for the righteous and due punishments for sinners and transgressors Science on the other hand offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race Is religion a form of wish fulfilment a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology Can there be morality without faith Are science and religion radically incompatible What are the roots of fundamentalism and terror theology These are some of the questions addressed in God, Freud and Religion a book that will be of interest to psychoanalysts psychologists and psychotherapists students of psychology psychoanalysis philosophy and theology and all those with an interest in religion and human behaviour Dianna Kenny is Professor of Psychology at the University of Sydney Australia She is the author of over 200 publications including six books

Postcolonial Resistance and Asian Theology Simon Shui-Man Kwan, 2013-11-07 Presenting a fundamental re thinking of Asian theology this book focuses on theological indigenization in Asia in light of the postcolonial theory of resistance advanced by Homi K Bhabha among others Two types of anti colonialist resistance within

Asian theologies are identified and interrogated The first is nationalistic in kind operating from a theological language that is binaristic and oppositional The second is illustrated by that which was mounted by the three Chinese Christian thinkers whose indigenous theologies are analysed in this book as case studies This second kind postcolonial in its character is characterized by collaboration rather than antagonistic binarism In spite of much dissimilarity between these two kinds of resistance the book argues that they are similarly anti colonialist and both can be equally valid in resisting colonial forces Given that the binarism and antagonism imbedded in the Asian theological movement are historically contingent and that the sole reliance on this resistance has made the movement self ensnaring the book suggests that the Asian theological movement widen its choice of colonial resistant strategies Drawing attention to the otherwise subtle politics of the Asian theological indigenization discourse this book addresses the relationship between postcolonialism and Asia contextual theology and is of interest to students and scholars of Asian Religion and Philosophy

God of the Living Robert Lawson Slater,1939

Freud and the Imaginative World Harry Trosman,2013-05-13 The current resurgence of interest in the scientific origins of psychoanalysis has overshadowed the artistic and literary models to which Freud had recourse time and again in the development and presentation of his theories It is this neglected aesthetic wellspring of psychoanalysis to which Harry Trosman calls attention in *Freud and the Imaginative World* Trosman enriches our understanding of psychoanalysis by demonstrating how Freud s cultural and humanistic commitments guided his pursuit of a science of mind Toward this end he undertakes a number of challenging tasks to situate Freud in the formative culture of his time to adumbrate the human concerns that informed his work in the natural sciences and to delineate the multiple modes of influence that fostered his creativity The second part of the book moves from the cultural sources of Freud s creativity to the psychoanalytic contribution to our understanding of art and literature Here Trosman focuses on the consumer of art and literature tracing psychoanalytic perspectives on aesthetic responsiveness from Freud to the present Trosman s critical review of the da Vinci and Hamlet literature illustrates the limitations as well as the explanatory potential of the two principal genres of applied psychoanalytic work and leads naturally to the reflective estimation of psychoanalysis and creativity that concludes the work Throughout Trosman is a well informed and engaging guide both to the imaginative Freud and to the abundant literature on psychoanalysis and the arts He documents Freud s continuing indebtedness to the literary models that nourished his theorizing and gave shape to his narrative clinical expositions even as he takes pains to show how psychoanalysis has in many ways outgrown Freud s own reductive explanations of aesthetic phenomena A skillfully crafted overview *Freud and the Imaginative World* is an exemplary introduction to a crucial aspect of the Freudian legacy

The Making of American Liberal Theology Gary J. Dorrien,2003-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism

atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom *The Church Quarterly Review*, 1926 **Beliefs that Matter** William Adams Brown, 1928
