Nber Macroeconomics Annual 1990:

NBER macroeconomics annual ,1990 **NBER Macroeconomics Annual 1992** Olivier Blanchard, Stanley Fischer, 1992 This is the seventh in a series of annuals from the National Bureau of Economic Research that are designed to stimulate research on problems in applied economics to bring frontier theoretical developments to a wider audience and to accelerate the interaction between analytical and empirical research in macroeconomics Contents What Shall We Do Today Goals and Signposts in the Operation of Monetary Policy Ben S Bernanke and Frederic S Mishkin A Tale of Two Cities Factor Accumulation and Technical Change in Hong Kong and Singapore Alwyn Young International Trade and the Wage Structure Steven J Davis Imperfect Information and Macroeconomic Analysis Joseph E Stiglitz and Bruce Greenwald Asset Pricing Lessons for Macroeconomics Lars P Hansen and John H Cochrane Postmortem on the Debt Crisis Daniel Cohen **NBER Macroeconomics Annual 2015** Martin Eichenbaum, Jonathan A. Parker, 2016-06-22 This year the NBER Macroeconomics Annual celebrates its thirtieth volume The first two papers examine China's macroeconomic development Trends and Cycles in China's Macroeconomy by Chun Chang Kaiji Chen Daniel F Waggoner and Tao Zha outlines the key characteristics of growth and business cycles in China Demystifying the Chinese Housing Boom by Hanming Fang Quanlin Gu Wei Xiong and Li An Zhou constructs a new house price index showing that Chinese house prices have grown by ten percent per year over the past decade The third paper External and Public Debt Crises by Cristina Arellano Andrew Atkeson and Mark Wright asks why there appear to be large differences across countries and subnational jurisdictions in the effect of rising public debts on economic outcomes The fourth Networks and the Macroeconomy An Empirical Exploration by Daron Acemoglu Ufuk Akcigit and William Kerr explains how the network structure of the US economy propagates the effect of gross output productivity shocks across upstream and downstream sectors The fifth and sixth papers investigate the usefulness of surveys of household's beliefs for understanding economic phenomena Expectations and Investment by Nicola Gennaioli Yueran Ma and Andrei Shleifer demonstrates that a chief financial officer's expectations of a firm's future earnings growth is related to both the planned and actual future investment of that firm Declining Desire to Work and Downward Trends in Unemployment and Participation by Regis Barnichon and Andrew Figura shows that an increasing number of prime age Americans who are not in the labor force report no desire to work and that this decline accelerated during the second half of the 1990s The European Monetary Union Nicola Acocella, 2020-08-27 The European Union is at a crossroads This book analyzes the historical roots of the EU's monetary and financial institutions in order to better understand its struggle to maintain an economic and monetary union as well as the ongoing problems facing the Euro The institutions of the EU are based on the operation of free markets a common monetary policy and the European Central Bank These founding policies have created many of the imbalances at the root of the ongoing European recession Reemerging threats of populism and localism are poised to further disintegrate the European construction and may spark fierce opposition between countries Acocella

engages with these risks suggesting detailed actions for reform within the EU and its institutions that may steer it away from further conflict allowing it to better serve its member states and citizens Profits, Wages and Productivity in the Business Cycle Mitsuhiro Iyoda, 2012-12-06 The purpose of this book is to explain the changes in specific macroeconomic variables such as the relative share of labour the profit rate and the real wage rate in advanced capitalist economies in relation to the influence of the business cycle in income distribution To explain these changes the author examines three types of theory Kaldorian theory the Real Business Cycle theory and the new Keynesian theory with a specific focus on Kaldor's approach

Development Strategy and Management of the Market Economy Edmond Malinvaud, 1997 These companion volumes examine the highly topical issue of the adequacy of markets as an instrument of economic and social development In this era of transition and experimentation in economic management by governments a group of prominent international economists was brought together to distill their thinking on the changing role of government in the development process The first volume discusses the broad questions the second volume breaks down the analysis into more detailed topics The

Econometrics of Panel Data László Mátyás, Patrick Sevestre, 2013-12-01 The aim of this volume is to provide a general overview of the econometrics of panel data both from a theoretical and from an applied viewpoint Since the pioneering papers by Edwin Kuh 1959 Yair Mundlak 1961 Irving Hoch 1962 and Pietro Balestra and Marc Nerlove 1966 the pooling of cross sections and time series data has become an increasingly popular way of quantifying economic relationships Each series provides information lacking in the other so a combination of both leads to more accurate and reliable results than would be achievable by one type of series alone Over the last 30 years much work has been done investigation of the properties of the applied estimators and test statistics analysis of dynamic models and the effects of eventual measurement errors etc These are just some of the problems addressed by this work In addition some specific difficulties associated with the use of panel data such as attrition heterogeneity selectivity bias pseudo panels etc have also been explored The first objective of this book which takes up Parts I and II is to give as complete and up to date a presentation of these theoretical developments as possible Part I is concerned with classical linear models and their extensions Part II deals with nonlinear models and related issues logit and probit models latent variable models duration and count data models incomplete panels and selectivity bias point processes and simulation techniques **Unemployment in Ireland** Julio A. Santaella, 1995-01-01

This paper examines the problem of unemployment in Ireland A brief description of the main distinctive features of the structure of Irish unemployment is presented Based on up to date literature the possible causes behind unemployment are reviewed Empirical studies that have quantified the contributions of different determinants to the increase in Irish unemployment are also surveyed The paper concludes with some policy suggestions *Global Economic Prospects, June 2019* World Bank Group, 2019-06-04 Global Economic Prospects is a World Bank Group Flagship Report Published semiannually the report includes analysis of topical policy challenges faced by developing countries through in depth

research in the January edition and shorter analytical pieces in the June edition

Global Waves of Debt M. Ayhan Kose, Peter Nagle, Franziska Ohnsorge, Naotaka Sugawara, 2021-03-04 The global economy has experienced four waves of rapid debt accumulation over the past 50 years The first three debt waves ended with financial crises in many emerging market and developing economies During the current wave which started in 2010 the increase in debt in these economies has already been larger faster and broader based than in the previous three waves Current low interest rates mitigate some of the risks associated with high debt However emerging market and developing economies are also confronted by weak growth prospects mounting vulnerabilities and elevated global risks A menu of policy options is available to reduce the likelihood that the current debt wave will end in crisis and if crises do take place will alleviate their impact

How Do National Policies Affect Long-run Growth?, 1992 **Austerity** Alberto Alesina, Carlo Favero, Francesco Giavazzi, 2020-12 A revealing look at austerity measures that succeed and those that don't Fiscal austerity is hugely controversial Opponents argue that it can trigger downward growth spirals and become self-defeating Supporters argue that budget deficits have to be tackled aggressively at all times and at all costs Bringing needed clarity to one of today's most challenging economic issues three leading policy experts cut through the political noise to demonstrate that there is not one type of austerity but many Austerity assesses the relative effectiveness of tax increases and spending cuts at reducing debt shows that austerity is not necessarily the kiss of death for political careers as is often believed and charts a sensible approach based on data analysis rather than ideology

Sustainability of External Imbalances Angélique Herzberg, 2014-08-28 Since the mid 1990s sustainability of large and persistent current account positions have been attracting much attention from policy makers and economists alike Alongside global imbalances sustainability of imbalances within the euro area which started widening shortly after the introduction of the euro raised much concern While there exists a large body of theoretical and empirical literature on sustainability of external imbalances a systematic survey has been lacking so far Angélique Herzberg fills this gap by examining a broad range of established sustainability measures concerning their applicability to the various global and intra euro imbalances of the recent past Furthermore the author examines the existence of feedback effects from an economy's net international investment position to its trade balance
