There has probably never been anything like it in UFO history but the UFO fever that gripped the small British town of Warminster for about a decade is now largely forgotten. It was one of the largest UFO flaps ever to occur. Thousands of witnesses reported seeing the Warminster Thing. The hilltops around the town attracted a loyal band of followers all waiting for the magic sighting, the landing, the contact. The authors were themselves among the skywatchers and spent nights on Cradle Hill, the center of the phenomenon, watching and waiting for UFOs but also watching and listening to the witnesses and ufologists. IN ALIEN HEAT introduces the Warminster phenomenon to a new generation of readers. It contains a short history of the phenomenon, places it in its social and historical context and examines the possible mechanisms that initiated and sustained this remarkable UFO flap.

An Introduction to the Psychology of Paranormal Belief and Experience Tony Jinks, 2011-11-08

When someone admits to a strange experience such as witnessing an unidentified flying object, having telepathic hunches or seeing angels or ghosts, listeners usually explain it away as mistaken perception, intoxication, ignorance or even mental illness. Though these unsympathetic psychology-based explanations remain the most popular responses to claims of the supernatural, those who use them often have little understanding of what such dismissive solutions actually entail. This study offers a balanced and accessible analysis of various explanations for the paranormal. By providing insight into how these theories are applied or misapplied to inquiry into the paranormal, it clarifies the relationship between the field of psychology and the supernatural.
