Plato Prehistorian Mary Settegast,1990 In his Timaeus and Critias dialogues Plato wrote of two ancient civilizations that flourished more than 9000 years before his time Socrates accepted the account as true and modern archaeological techniques may yet prove him right In a synthesis of classical and archaeological scholarship Mary Settegast takes us from the cave paintings of Lascaux to the shrines of Catal Huyuk demonstrating correspondences both to Plato s tale and to the mystery religions of antiquity She then traces the mid seventh millennium impulse that revitalized the spiritual life of Catal Huyuk and spread agriculture from Iran to the Greek peninsula at precisely the time given by Aristotle for the legendary Persian prophet Zarathustra for whom cultivation of the earth was a religious imperative Plato Prehistorian Mary Settegast,2022-10-04 In his Timaeus and Critias dialogues Plato wrote of two ancient civilizations that flourished more than 9 000 years before his time Socrates accepted the account as true and modern archaeological techniques may yet prove him right In Plato Prehistorian Mary Settegast takes us from the cave paintings of Lascaux to the shrines of atalh y k demonstrating correspondences both to Plato s tale and to the mystery religions of antiquity She then traces the mid seventh millennium impulse that revitalized the spiritual life of atalh y k and spread agriculture from Iran to the Greek Peninsula at precisely the time given by Aristotle for the legendary Persian prophet Zarathustra for whom the cultivation of the earth was a religious imperative This new edition of Mary Settegast s ground breaking synthesis of classical and archaeological scholarship features an appendix by Alistair Coombs on the recent excavations at G bekli Tepe in southeastern Turkey which have upended the conventional view of the rise of civilization **Catastrophobia** Barbara Hand Clow,2001-05-01 Bestselling author Barbara Hand Clow examines legendary cataclysms and shows how we are about to overcome the collective fear they have instilled in us The long awaited follow up that continues the revelations begun in The Pleiadian Agenda which has sold more than 60 000 copies Explains why contrary to many prophets of doom we are actually on the cusp of an era of incredible creative growth The recent discovery of the remains of ancient villages buried beneath the Black Sea is the latest instance of mounting evidence that many of the mythic catastrophes of history the fall of Atlantis the Biblical Flood were actual events In **Catastrophobia** Barbara Hand Clow shows that a series of cataclysmic disasters caused by a massive disturbance in the Earth s crust 11 500 years ago rocked the world and left humanity s collective psyche permanently scarred We are a wounded species and this unprocessed fear passed from generation to generation is responsible for our constant expectations of apocalypse from Y2K to the famed end of the Mayan calendar in 2012 **Catastrophobia** reveals the insidious global forces that have used these collective fears to control humanity for thousands of years But we are in the midst of a tremendous shift in the Earth s 26 000 year precessional cycle and there is every indication that the changes in consciousness over the last 30 years are the beginnings of a collective healing from these deep fears heralding a new age where we will see that the era of cataclysms is ending and a time of extraordinary creative activity is at

Spiritual Technology of Ancient Egypt Edward F. Malkowski,2007-10-03 How ancient Egyptians understood quantum theory Investigates the history of how modern religion and the Age of Science were inspired by the sacred science of the ancients Examines how quantum theory explains that the cosmos arises from consciousness Reveals the unanimity between Schwaller de Lubicz s sacred science and the science of a cosmos governed by quantum mechanics Since the dawn of the Age of Science humankind has been engaged in a methodical quest to understand the cosmos With the development of quantum mechanics the notion that everything is solid matter is being replaced with the idea that information or thought may be the true source of physical reality Such scientific inquiry has led to a growing interest in the brain s unique and mysterious ability to create perception possibly through quantum interactions Consciousness is now being considered as much a fundamental part of reality as the three dimensions we are so familiar with Although this direction in scientific thought is seen as a new approach the secret wisdom of the ancients presented just such a view thousands of years ago Building on Ren A Schwaller de Lubicz s systematic study of Luxor s Temple of Amun Mut Khonsu during the 1940s and 50s

Edward Malkowski shows that the ancient Egyptians worldview was not based on superstition or the invention of myth but was the result of direct observation using critical faculties attuned to the quantum manifestation of the universe This understanding of reality as a product of human consciousness provided the inspiration for the sacred science of the ancients precisely the philosophy modern science is embracing today In the philosophical tradition of Schwaller de Lubicz The Spiritual Technology of Ancient Egypt investigates the technical and religious legacy of ancient Egypt to reveal its congruence with today s New Science
