**Village Among Nations** Royden Loewen, 2013-12-06 Between the 1920s and the 1940s 10 000 traditionalist Mennonites emigrated from western Canada to isolated rural sections of Northern Mexico and the Paraguayan Chaco over the course of the twentieth century they became increasingly scattered through secondary migrations to East Paraguay British Honduras Bolivia and elsewhere in Latin America Despite this dispersion these Canadian descendant Mennonites who now number around 250 000 developed a rich transnational culture over the years resisting allegiance to any one nation and cultivating a strong sense of common peoplehood based on a history of migration nonviolence and distinct language and dress Village among Nations recuperates a missing chapter of Canadian history the story of these Mennonites who emigrated from Canada for cultural reasons but then in later generations returned in large numbers for economic and social security Royden Loewen analyzes a wide variety of texts by men and women letters memoirs reflections on family debates on land settlement exchanges with curious outsiders and deliberations on issues of citizenship They relate the untold experience of this uniquely transnational ethno religious community

**The Practice of Folklore** Simon J. Bronner, 2019-08-01 Winner of the 2020 Chicago Folklore Prize CHOICE Outstanding Academic Title for 2020 Despite predictions that commercial mass culture would displace customs of the past traditions firmly abound often characterized as folklore In The Practice of Folklore Essays toward a Theory of Tradition author Simon J Bronner works with theories of cultural practice to explain the social and psychological need for tradition in everyday life Bronner proposes a distinctive praxic perspective that will answer the pressing philosophical as well as psychological question of why people enjoy repeating themselves The significance of the keyword practice he asserts is the embodiment of a tension between repetition and variation in human behavior Thinking with practice particularly in a digital world forces redefinitions of folklore and a reorientation toward interpreting everyday life More than performance or enactment in social theory practice connects localized culture with the vernacular idea that this is the way we do things around here Practice refers to the way those things are analyzed as part of rather than apart from theory thus inviting the study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental Building on previous studies of tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies

Demonstrating the application of this theory in folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogieman connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing Turning his analysis to the analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition

**Diaspora in the Countryside** Royden Loewen, 2006-01-01 From the 1930s to the 1980s the North American countryside faced a profound cultural transformation in which a once unified rural society became fragmented and dispersed Families wishing to remain on the farm were required to accept new levels of automation while others unwilling or unable to make the change migrated to nearby towns or regional cities The cultural reformulation that resulted saw the emergence of a genuine rural diaspora The growing cultural and physical separation was especially true for close knit ethno religious communities Mennonites in particular Forced into regional cities the kaleidoscopic urban culture further fragmented the Mennonites into disparate social entities In *Diaspora in the Countryside* the phenomena of rural fragmentation is examined by comparing and contrasting two closely related but distinctive Dutch Russian Mennonite communities located in different parts of the continent Kansas and Manitoba respectively By systematically comparing these communities two distinctive responses to the mid twentieth century Great Disjuncture are made apparent Royden Loewen also contrasts the cultural changes of these farm families to the cultures their kin adopted in nearby towns and cities Loewen charts not only the dispersion of two rural communities but follows their former residents as they reformulate their lives in new settings

*Desert Patriarchy* Janet Bennion, 2004-05 On the high desert plateau of northern Mexico outsiders have taken refuge from the secular world Here three Anglo communities of Mormons and Mennonites have ordered their lives around male supremacy rigid religious duty and a rejection of modern technology and culture In so doing they have successfully adapted to this harsh desert environment Janet Bennion has lived and worked among these people and in this book she introduces a new paradigm desert patriarchy to explain their way of life This perspective sheds light not only on these particular communities but also on the role of the desert environment in the development and maintenance of fundamentalist ideology in other parts of the United States and around the globe Making new connections between the arid environment opposition to technology and gender ideology Bennion shows that it is the interplay of the desert and the unique social traditions and gender dynamics embedded in Anglo patriarchal fundamentalism that accounts for the successful longevity of the Mexican colonies Her model defines the process by which male supremacy female autonomous networking and religious fundamentalism all facilitate successful adaptation to the environment More than a theoretical analysis *Desert Patriarchy* provides an intimate glimpse into the daily

lives of these people showing how they have taken refuge in the desert to escape religious persecution the forced secular education of their children and economic and political marginalization It particularly sheds light on the ironic autonomy of women within a patriarchal system showing how fundamentalist women in Chihuahua are finding numerous creative ways to access power and satisfaction in a society structured to subordinate and even degrade them Desert Patriarchy richly expands the literature on nontraditional religious movements as it enhances our understanding of how environment can shape society It offers unique insights into women's status in patriarchal communities and provides a new way of looking at similar communities worldwide
