**Serious Pursuits** Asa Briggs, 1991-06 *The Collected Essays of Asa Briggs: Serious pursuits: communication and education* Asa Briggs, 1985 Understanding Education and Economics Jessie Bustillos Morales, Sandra Abegglen, 2020-03-04 *Understanding Education and Economics* explores the multiple ways in which the field of education and schooling has become closely aligned with economic imperatives and interests and the impact of this on learning and teaching. In particular, the increasing influence of economic arguments, economic ideologies, and government involvement in education have made apparent that there is a need to reflect and talk about economic influences and trends in education. Drawing on the expertise of educationalists around the world, the book articulates key debates and theoretical perspectives which can give both students and staff across several courses within the study of education a framework for discussing and analysing how economics defines and shapes the nature and purposes of education. The chapters offer discussions and reflections on key issues including the historical developments that led to the creation of a formal education system in England and Wales, the ways in which neoliberalism underpins education, including the coercion of education to serve economic needs, the economics of the university as an institution, Addressing philosophical, sociological, historical, psychological, and social issues in education, and encouraging readers to pose questions about the nature of education. This book is a valuable resource for students and staff alike and will allow them to broaden perspectives on what education could be for and what it should be for. Churches and Education Morwenna Ludlow, Charlotte Methuen, Andrew Spicer, 2019-07-04 Brings together the work of a wide range of scholars to explore the history of churches and education.

**Radiophilia** Carolyn Birdsall, 2023-08-24 A century ago the emergence of radio along with organized systems of broadcasting sparked a global fascination with the wonder of sound transmission and reception. The thrilling experience of tuning in to the live sounds of this new medium prompted strong affective responses in its listeners. This book introduces a new concept of radiophilia defined as the attachment to or even a love of radio. Treating radiophilia as a dynamic cultural phenomenon, it unpacks the various pleasures associated with radio and its sounds, the desire to discover and learn new things via radio, and efforts to record, re-experience, and share radio. Surveying 100 years of radio from early wireless through to digital audio formats like podcasting, the book engages in debates about fandom, audience participation, listening experience, material culture, and how media relate to affect and emotions. **Joining the Modern World** Gungwu Wang, 2000 For the past century all kinds of Chinese people seemed to have tried to be modern. At the same time the standards of modernity have been set elsewhere and they seem always to be higher than what has been achieved. That makes most Chinese work harder, but some may well wonder if standards rise so that China will always get a poor report card at the end of each year. The ongoing drama of Chinese people seeking to be modern has been enacted in different parts of the world. There are interesting differences among these Chinese depending on where they have been living. The general trend, however,

is unmistakable The striving for betterment is supported by a strong capacity to adapt and change and this is reflected in the way the Chinese seize new opportunities when they occur The essays here describe some of these efforts both inside and outside China and form a small mosaic of Chinese practising the art of modernising The Age of Asa M. Moscow Prime Time Kristin Roth-Ey,2011-05-15 When Nikita Khrushchev visited Hollywood in 1959 only to be scandalized by a group of scantily clad actresses his message was blunt Soviet culture would soon consign the mass culture of the West epitomized by Hollywood to the dustbin of history In Moscow Prime Time a portrait of the Soviet broadcasting and film industries and of everyday Soviet consumers from the end of World War II through the 1970s Kristin Roth Ey shows

us how and why Khrushchev's ambitious vision ultimately failed to materialize. The USSR surged full force into the modern media age after World War II building cultural infrastructures and audiences that were among the world's largest. Soviet people were enthusiastic radio listeners, TV watchers and moviegoers and the great bulk of what they were consuming was not the dissident culture that made headlines in the West but orthodox made in the USSR content. This then was Soviet culture's real prime time and a major achievement for a regime that had long touted easy everyday access to a socialist cultural experience as a birthright. Yet Soviet success also brought complex and unintended consequences. Emphasizing such factors as the rise of the single family household and of a more sophisticated consumer culture, the long reach and seductive influence of foreign media and the workings of professional pride and raw ambition in the media industries, Roth Ey shows a Soviet media empire transformed from within in the postwar era. The result she finds was something dynamic and volatile: a new Soviet culture with its center of gravity shifted from the lecture hall to the living room and a new brand of cultural experience at once personal, immediate and eclectic: a new Soviet culture increasingly similar in fact to that of its self-defined enemy, the mass culture of the West. By the 1970s the Soviet media empire stretching far beyond its founders' wildest dreams was busily undermining the very promise of a unique Soviet culture and visibly losing the cultural cold war.

**Moscow Prime Time** is the first book to untangle the paradoxes of Soviet success and failure in the postwar media age. Literature, Print Culture, and Media Technologies, 1880-1900 Richard Menke, 2019-10-17 Connects British and American literature to a changing media landscape in an era of innovation.

**Radio's Legacy in Popular Culture** Martin Cooper, 2022-01-27 Examining work by novelists, filmmakers, TV producers and songwriters, this book uncovers the manner in which the radio and the act of listening has been written about for the past 100 years. Ever since the first public wireless broadcasts, people have been writing about the radio, often negatively, sometimes full of praise but always with an eye and an ear to explain and offer an opinion about what they think they have heard. Novelists including Graham Greene, Agatha Christie, Evelyn Waugh and James Joyce wrote about characters listening to this new medium with mixtures of delight, frustration and despair. Clint Eastwood frightened moviegoers half to death in *Play Misty for Me* but Lou Reed's *Rock* the act of listening as a cultural expression focusing on fiction, films and songs about radio. Martin Cooper, a broadcaster and academic, uses these movies, TV shows, songs, novels and more to tell a story of listening to the radio as created by these contemporary writers, filmmakers and musicians.
