Services For Urban Poor Section:

Basic Services for Urban Poor Archana Ghosh, S. Sami Ahmad, Shipra Maitra, 1995 **Public Services and the Urban Poor in Mumbai: A Report Card** Suresh Balakrishnan, 1998 Inclusion and Exclusion of the Urban Poor in Dhaka Rasheda Khan, 2023-10-13

Inclusion and Exclusion of the Urban Poor in Dhaka explores how the inhabitants of poor neighborhoods in Dhaka Bangladesh gain inclusion in the city at the face of exclusion. The book considers how the people of poor neighborhoods encounter the exclusionary behavior of city development and how their inclusionary attempts have influenced the urban design. The book is presented in two parts: first it explains how people in poor neighborhoods face exclusion because of the imbalance of power and politics. Second, it demonstrates how the existing exclusion of urban poor is affecting their strategies to gain access to urban services through people's power and politics. Focusing on the transdisciplinary field of urban anthropology, the chapters uncover the urban forces, policies, and actions that facilitate urban politics. It also investigates the people who live in poor neighborhoods who, in the face of exclusion, have included themselves in urban development planning and design by employing diverse strategies against those forces in the urban politics, e.g., accepting dominance, bargaining, or having control over their lives. This book will recontextualize an ethnographic inquiry into the exclusion and inclusion of the people within city development design plans and innovations in applications of anthropological theory and methodology. This book will encourage the reader to understand the politics of state's development projects and plans and furthermore instigate the city government planners and policymakers to focus on the people's political power and agency that enables them to achieve inclusion. It will therefore be of interest to researchers and students of urban planning and development, urban geography, and urban anthropology, as well as planning professionals and policymakers.
