decade in which the focus on HIV and AIDS has been on specific social groups a shift in professional perceptions has resulted  
in a change in the images of women and HIV AIDS Last Served recognizes and analyzes the trend toward more openly  
acknowledging and planning for women in the pandemic Rather than enumerating the effects on women of confused or  
conflicting policies and representation the book details why and how this situation occurred The author suggests that new  
visibility of women cannot in itself quickly or easily change the underlying assumptions which made women simultaneously  
radiant figures of sexual purity and a magnet for blame during the pandemic s first decade Last Served makes clear how the  
different ways of posing and answering questions about women and HIV are grounded in already existing ways of thinking  
about gender and how these underlying preconceptions sometimes create situations whereby attempts to address the  
practical needs of women often result in reinforcement or introduction of new forms of male domination Combining detailed  
analysis with practical suggestions Last Served provides insights into the current debates about women and AIDS and  
suggests future directions for work to overcome discrimination faulty planning and misrepresentation      **Prisoners'**

**Controlling the Dangerous Classes** Randall G. Shelden, Pavel V. Vasiliev, 2017-12-19 Throughout history the powerful have created laws developed agencies to enforce those laws and established institutions to punish lawbreakers Maintaining the social order to their advantage resulted in the systematic repression of disadvantaged groups the dangerous classes The third edition retains a historical approach to exploring patterns of social control and through current examples demonstrates how those strategies continue today The authors trace the roots of race class and gender bias in how laws are written interpreted and applied The management of dangerous classes is not a recent phenomenon there is a long history of keeping those who derive the least advantage from the status quo and therefore pose the greatest threat under control There was and is one system of justice for the privileged and a very different system for the less privileged The criminal justice system from the law to daily operations of the police courts and corrections generally comes down hardest on those with the least amount of power and influence and is the most lenient with those with the most power and influence The book raises critical questions What is a crime What is law Whose interests are served by the law and the criminal justice system What patterns are repeated generation after generation How does the criminal justice system relate to larger issues such as social inequality social class race and gender Contemplation of these topics contributes to informed public dialogue and careful deliberation about the present state and the future of criminal justice
