Hassett, Hugh Lacey, 1991 This collection presents a representative sample of the writings of three of the six Jesuits who were slain in El Salvador on November 16 1989 Although little known in the United States these men were significant scholars who possessed an original conception of the university They affirmed in difficult circumstances the pursuit and teaching of truth as a collaborative collegial process that transcends international boundaries      **The Handbook Of Microfinance** Beatriz Armendariz, Marc Labie, 2011-04-28 The Handbook of Microfinance showcases an expansive collection of works from leading academics and field practitioners In an attempt to understand the enormous gap between the limited number of clients that are currently benefiting from microfinance services and the huge number of potential clients that are not the selected contributions in this comprehensive handbook have one common thread the prevailing mismatch between demand by clients of microfinance institutions and potential clients selecting themselves out for their demand for a wider array of financial products which is not being met The scope of the book is wide and explores successes and failures main challenges and debates methodologies for impact evaluation via random trials leading trends in Asia versus Latin America main efforts in Africa the importance of value chains in Central America ethical and gender issues savings microinsurance governance commercialization trends and the potential advantages and disadvantages of it This exhaustive Handbook also features main lessons from informal finance and 19th century credit cooperatives addressing the above mentioned mismatch      **Inspired to Serve** Mark H. ### **The Victimization of Public School Teachers in America**

Emmanuel Edouard, PhD,2024-08-09 The assault on public school teachers integrity livelihood and professionalism started in 1983 with the publication of A Nation at Risk Based on the results of our education system performance they were indirectly accused of failing our children Still it peaked in 2004 when Rod Paige then George W Bush s secretary of education called the country s leading teachers union a terrorist organization Teachers felt dehumanized then In 2009 Barack Obama blamed them for letting our grades slip our schools crumble our teacher quality fall short and other nations outpace us Teachers felt let down again In 2017 President Donald Trump lamented how beautiful students had been deprived of all knowledge by our nation s cash guzzling public school system Teachers felt humiliated and rejected Currently in states like Florida public school teachers are besieged by politically motivated laws and unrealistic demands from parents politicians and noneducation experts They have lost their freedom to teach as they see fit to meet the needs of their students Teachers feel more disrespected devalued unappreciated and under attack than ever The bad news is that a recent NEA survey revealed that 55 percent of currently employed teachers are seriously considering leaving their jobs If that rate of resignations continues to grow the question is Will there be a public school system in America in the future

### **Urban Poverty in the Global South** Diana Mitlin,David Satterthwaite,2013 This is

compounded by the lack of voice and influence that low income groups have in these official spheres      *Mission, Ministry, Order* David Noel Power, 2008-06-01 What is the mission of the church What are the ministries that further its mission How should the traditional orders of bishop overseer priest presbyter and deacon be reconsidered in the light of 21st century challenges and ecumenical unity These big questions involve a constellation of neuralgic issues both within the Roman Catholic Church and between it and its sister churches both East and West women priests women bishops married priests lay ministries the unaccountability of bishops to their flocks The rapid decline of priests in the US has led to an enormous number of lay people in leadership positions but they can't preside at the Eucharist the heart and soul of Catholic identity and practice and their roles are nebulous undefined and severely constrained Catholic women are voting with their feet over the church's failure to ordain women Lay theologians men and women now outnumber priest theologians but have little standing in the church outside of academia Far reaching agreements on theological issues have been made between Roman Catholicism and Anglicanism and Lutheranism but the practical consequences e.g. shared Eucharists are nil It is against this background that David Power the doyen of sacramental theologians in North America has written a magisterial work on the mission ministry and order of the church that is historically comprehensive theologically progressive ecumenically and globally focused and practical in its prescriptions      *Commerce*, 1912      *Gender and Judging* Ulrike Schultz, Gisela Shaw, 2014-07-18 Does gender make a difference to the way the judiciary works and should work Or is gender blindness a built in prerequisite of judicial objectivity If gender does make a difference how might this be defined These are the key questions posed in this collection of essays by some 30 authors from the following countries Argentina Cambodia Canada England France Germany India Israel Italy Ivory Coast Japan Kenya the Netherlands the Philippines South Africa Switzerland Syria and the United States The contributions draw on various theoretical approaches including gender feminist and sociological theories The book's pressing topicality is underlined by the fact that well into the modern era male opposition to women's admission to and progress within the judicial profession has been largely based on the argument that their very gender programmes women to show empathy partiality and gendered prejudice in short essential qualities running directly counter to the need for judicial objectivity It took until the last century for women to begin to break down such seemingly insurmountable barriers And even now there are a number of countries where even this first step is still waiting to happen In all of them there remains a more or less pronounced glass ceiling to women's judicial careers      **Private Action and the Public Good** Walter W. Powell, Elisabeth S. Clemens, 1998-03-30 Governments around the world are turning over more of their services to private or charitable organizations as politicians and pundits celebrate participation in civic activities But can nonprofits provide more and higher quality services than governments or for profit businesses Will nonprofits really increase social connectedness and civic engagement This book a sequel to Walter W Powell's widely acclaimed *The Nonprofit Sector A Research Handbook* brings together an original collection of writings that explores the nature of the public good

and how private nonprofit organizations relate to it The contributors to this book eminent sociologists political scientists management scholars historians and economists examine the nonprofit sector through a variety of theoretical and methodological lenses They consider the tensions between the provision of public goods and the interests of members and donors in nonprofit organizations They contrast religious and secular nonprofits as well as private and nonprofit provision of child care mental health services and health care And they explore the growing role of nonprofits in the United States France Germany and Eastern Europe the contribution of nonprofits to economic development and the forms and strategies of private action

**Poverty Capital** Ananya Roy, 2010-04-23 Winner of the 2011 Paul Davidoff award This is a book about poverty but it does not study the poor and the powerless instead it studies those who manage poverty It sheds light on how powerful institutions control capital or circuits of profit and investment as well as truth or authoritative knowledge about poverty Such dominant practices are challenged by alternative paradigms of development and the book details these as well Using the case of microfinance the book participates in a set of fierce debates about development from the role of markets to the secrets of successful pro poor institutions Based on many years of research in Washington D C Bangladesh and the Middle East Poverty Capital also grows out of the author's undergraduate teaching to thousands of students on the subject of global poverty and inequality
