Wordsworth's Fun Matthew Bevis, 2019-08-20 The next day Wordsworth arrived from Bristol at Coleridge's cottage William Hazlitt recalled He answered in some degree to his friend's description of him but was more quaint and Don Quixote like there was a convulsive inclination to laughter about the mouth Hazlitt presents a Wordsworth who differs from the one we know and as Matthew Bevis argues in his radical new reading of the poet this Wordsworth owed his quixotic creativity to a profound feeling for comedy Wordsworth's *Fun* explores the writer's debts to the ludic and the ludicrous in classical tradition his reworkings of Ariosto Erasmus and Cervantes his engagement with forms of English poetic humor and his love of comic prose Combining close reading with cultural analysis Bevis travels many untrodden ways studying Wordsworth's interest in laughing gas pantomime the figure of the fool and the value of play Intrepid immersive and entertaining Wordsworth's *Fun* sheds fresh light on how one poet's strange humor helped to shape modern literary experiment Rigor of Beauty Ian D. Copestake, 2004 William Carlos Williams is widely acknowledged to be among the most important American poets of the twentieth century This collection includes sixteen new essays from many of the world's leading authorities on Williams and is published to commemorate the fortieth anniversary of his death in 1963 The volume contains fresh assessments of the nature and extent of Williams's profound and enduring impact on contemporary American poetic traditions while providing a platform for appraising the neglected achievement of Williams as a writer of fiction and short stories In doing so these and other essays highlight the nature and importance of Williams's relationship to working class life in twentieth century America Additionally the volume groups together studies focusing on the enduring legacy of Williams's long poem *Paterson* and essays which revise Williams's perceived neglect of African American and Native American culture and history *Time and the Warm Body* David Burrows, 2007-06-30 This study deals with time and with music and the link between the two is the suggestion that music is a modeling of the way we construct time Time the now duration succession and order of succession the past the future is seen as a resource for managing systemic disequilibrium and as the evolutionary elaboration of the now As organic dynamical systems humans maintain themselves by means of self regulatory

actions nows and these nows are proposed as feeding off a pre temporal interindividually accessed energy in nature an ongoing cosmic proto present Speech is a way out of sensory immediacy and a way into a complex shared world where coordination and planning take place away from the distractions of the present as given by the senses Music is presented as one of a group of behaviors comprising the arts and games that evolved in parallel with language to compensate for its abstractness Language tends to the complexly abstract and music favors the complex sensorially concrete like speech music operates on a synthetic plane but provides synthetic occasions for sensory immediacy at a level of complexity to match that of language

Lyric as Comedy Calista McRae, 2020-10-15 A poet walks into a bar In *Lyric as Comedy* Calista McRae explores the unexpected comic opportunities within recent American poems about deeply personal often embarrassing experiences Lyric poems she finds can be surprising sites of a shifting unruly comedy as seen in the work of John Berryman Robert Lowell A R Ammons Terrance Hayes Morgan Parker Natalie Shapero and Monica Youn *Lyric as Comedy* draws out the ways in which key American poets have struggled with persistent expectations about what expressive poetry can and should do McRae reveals how the modern lyric rather than bestowing order on the poet s thoughts and emotions can center on impropriety and confusion formal breakage and linguistic unruliness and self observation and self staging The close readings in *Lyric as Comedy* also provide new insight into the theory and aesthetics of comedy taking in the indirect glancing comic affordances of poetry In doing so McRae captures varieties of humor that do not align with traditional terms centering abjection and pleasure as facets of contemporary lyric practice

Light as Experience and Imagination from Medieval to Modern Times David S. Herrstrom, 2022-11-21 In *Light as Experience and Imagination from Medieval to Modern Times* David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual s relationship with light rather than the investigation of light s essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light s character No individual experience of light being truer than any other

One Kind of Everything Dan Chiasson, 2010-10-19 Taking on one of the most crucial issues in American poetry of the last fifty years celebrated poet Dan Chiasson explores what is lost or gained when real life experiences are made part of the subject matter and source material for poetry *One Kind of Everything* elucidates the uses of autobiographical fact and constructions of personhood in Ame

Scigaj,2021-12-15 Focusing on the work of A R Ammons Wendell Berry W S Merwin and Gary Snyder author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base so a sustainable poetry does not restrict interest to language Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking But critics trained in poststructuralist language theory often fail to explore the substance of ecopoetry Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry marked by its concern with balancing the interests of human beings with the needs of nature Just as science learned that the earth was not the center of the universe ecopoetry insists on the recognition that humans are not at the center of the natural world Time in Time J.
