Congressional Communication in the Digital Age Jocelyn Evans,Jessica M. Hayden,2017-07-06 Communication defines political representation At the core of the representational relationship lies the interaction between principal and agent the quality of this relationship is predicated upon the accessibility of effective channels of communication between the constituent and representative Over the past decade congressional websites have become the primary way constituents communicate with their members and a prominent place for members to communicate with constituents Yet as we move toward the third decade of the 21st century little work has systematically analyzed this forum as a distinct representational space In this book Jocelyn Evans and Jessica Hayden offer a fresh timely and mixed methods approach for understanding how the emergence of virtual offices has changed the representational relationship between constituents and members of Congress Utilizing strong theoretical foundations a broad historical perspective elite interviews and rich original datasets Evans and Hayden present evidence that virtual offices operate as a distinct representational space and they demonstrate that their use has resulted in unprecedented and ill understood changes in representational behavior Congressional Communication in the Digital Age contributes to the scholarship on representation theory and its application to the contemporary Congress It is valuable reading for students and researchers interested in American politics political communication and legislative politics

problems with government but some ways of doing these jobs give rise to institutional corruption The author moves the discussion beyond bribery extortion and simple personal gain to delve into implicit understandings ambiguous favors and political advantage Thompson examines many major ethics cases of recent years Among them the case of David Durenberger accused of supplementing his income through book promotions the case of the Keating Five accused of using undue influence with the Federal Home Loan Bank Board on behalf of Lincoln Savings and Loan owner Charles Keating and the case of House Speaker James Wright accused of several offenses Thompson shows why neither the electoral process nor the judicial process is sufficient and argues for stronger ethics committees and the creation of a new quasi independent body to take over some of the enforcement process He offers more than a dozen recommendations for changes in the procedures and practices of ethics in Congress The book features a listi
