Seven Climbs Charles Sherwood, 2020-05-07 Even the most casual reader among you will by now have worked out that the whole thing is little more than a delightful ruse for having a very good time Experienced climber Charles Sherwood is on a quest to find the best climb on each continent He eschews the traditional Seven Summits where height alone is the determining factor and instead considers mountaineering challenge natural beauty and historical context aiming to capture the diverse character of each continent and the sheer variety of climbing in all its forms The author's ambitious odyssey takes him to the Alps the Himalaya Yosemite the Andes Kenya New Zealand and South Georgia His goal is neither to seek glory nor to complete a box ticking exercise but simply to enjoy himself in the company of his fellow climbers including Mark Seaton Andy Kirkpatrick and Stephen Venables and to appreciate the splendour of his surroundings On classic routes like the North Face of the Eiger and the Nose on El Capitan it is hard not to be swept away by Sherwood's unfaltering enthusiasm Also featuring fascinating historical detail about each route *Seven Climbs* is a compelling account of Sherwood's efforts to answer a much debated question which are the world's greatest climbs
