Franits, 2004-01-01 The appealing genre paintings of great seventeenth century Dutch artists Vermeer Steen de Hooch Dou and others have long enjoyed tremendous popularity This comprehensive book explores the evolution of genre painting throughout the Dutch Golden Age beginning in the early 1600s and continuing through the opening years of the next century Wayne Franits a well known scholar of Dutch genre painting offers a wealth of information about these works as well as about seventeenth century Dutch culture its predilections and its prejudices The author approaches genre paintings from a variety of perspectives examining their reception among contemporary audiences and setting the works in their political cultural and economic contexts The works emerge as distinctly conventional images Franits shows as genre artists continually replicated specific styles motifs and a surprisingly restricted number of themes over the course of several generations Luxuriously illustrated and with a full representation of the major artists and the cities where genre painting flourished this book will delight students scholars and general readers alike      **Seventeenth-century Dutch Drawings**, 1991      **Art in History/History in Art** David Freedberg, Jan de Vries, 1996-07-11 Historians and art historians provide a critique of existing methodologies and an interdisciplinary inquiry into seventeenth century Dutch art and culture      Dutch Drawings of the Seventeenth Century J. **Seventeenth-Century Dutch Drawings** William W. Robinson, 1994-06-01      *Public and Private Spaces* John Loughman, John Michael Montias, 2000 The seventeenth century in the Northern Netherlands was a period that saw the widespread domestication of easel pictures when paintings were acquired in significant numbers by a broad cross section of society as a means of decorating the home This is the first extended study to look at the role and function of paintings and other works of art in Dutch homes of the seventeenth century In what numbers were paintings dispersed throughout the various rooms of the house Were certain subjects regarded as more appropriate than others for display in a particular room In what arrangements were paintings hung on the walls and how did this affect the way in which they were apprehended A wide range of contemporary sources are drawn upon including estate inventories and other archival material published texts on art architecture and social manners and images of the domestic interior In one chapter a close analysis is made of a small number of individual inventories which are fully transcribed in the appendices investigating the motivations that lie behind the display of works of art and their relationship to other furnishings BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Dutch Drawings of the Seventeenth Century in the Metropolitan Museum of Art [1985]**.
