Sex Fiends, Perverts, and Pedophiles Chrysanthi S. Leon, 2011 From MeganOCOs Law to JessicaOCOs Law almost every state in the nation has passed some law to punish sex offenders This popular tough on crime legislation is often written after highly publicized cases have made the gruesome rounds through the media and usually features harsh sentences lifetime GPS monitoring a dramatic expansion of the civil commitment procedures and severe restrictions on where released sex offenders may live In *Sex Fiends Perverts and Pedophiles* Chrysanthi Leon argues that while the singular notion of the sexual boogeyman has been used to justify these harsh policies not all sex offenders are the same and such OCyone size fits allOCO policies can unfairly punish other offenders of lesser crimes needlessly targeting sometimes ostracizing citizens from their own communities While many recognize that prison is not the right tool for every crime problem Leon compellingly argues that the U S maintains a one size fits all approach to sexual offending which is undermining public safety Leon explains how weOCove reached this pointOCowith a large incarcerated sex offender population many of whom will be released in the coming years with multiple barriers to their success in the community and without much expertise to guide them or to guide those who are charged to help them Leon argues that we cannot blame the public nor even the politicians except indirectly Instead we might blame the institutions we charge with making placement decisions and with the expertsOCoboth those who have chosen to work in the field and those who have caused its marginalization Ultimately Leon shows that when policies intended for the worst offenders take over all of us suffer

Sexual Exploitation and Abuse in UN Peacekeeping Kelly Neudorfer,2014-12-31 While serving in United Nations peacekeeping missions some peacekeepers sexually exploit and abuse the local population a fact which erupted into a scandal published by many media outlets in 2005 and 2006 This book analyzes factors which may increase the risk of such behavior as well as measures the UN has taken which may have decreased the number of incidents Using a mixed methods design the book argues that previous analyses have been largely undertheorized with the exception of gender theories and turns to criminology to look at the phenomenon of so called Sexual Exploitation and Abuse SEA in a new light The three risk factors found to increase the likelihood of SEAs are an environment of sexual violence in the mission s host country the presence of internally displaced persons close to the mission and a lack of supervised or regulated contact with the local population In turn the presence of an office whose purpose is to collect reports and investigate allegations training on preventing SEAs for the incoming

peacekeepers and campaigns to empower the local population on these issues all seem to reduce the risk of sexual exploitation and abuse occurring. By using a statistical analysis followed by case studies of the UN peacekeeping missions in the Democratic Republic of the Congo, Liberia and the Golan Heights, the author demonstrates the importance these factors have in the peacekeepers' behavior on the mission, providing a solid basis upon which future policy recommendations can be made.

The Termination of Criminal Careers Stephen Farrall, 2017-07-05. Recent years have witnessed an increase in the attention given to the later stages of criminal careers. Research upon this topic has charted the main factors associated with the termination of criminal careers, outlined some of the possible reasons behind these relationships, and started to develop theoretical explanations for such relationships. Collected together for the first time are some of the most important contributions to this field of research. The collection focuses upon the initial explorations into this topic, the most commonly observed findings, the cessation of offending by specific offender types, and theoretical matters. An introductory essay by the editor provides a thorough overview of the work in this area and highlights the reasons why the termination of criminal careers will become increasingly important to criminologists and criminal justice policy makers alike.

The texts are organised into three parts. The first contains a number of viewpoints and perspectives that facilitate our broader understanding of cyberspace crime, cybercrimes. The second part addresses each of the major types of cybercrime: trespass, hacking, cracking, thefts, deceptions, obscenities, pornography, violence, and illustrates their associated problems of definition and resolution. The third and final part contains a selection of texts that each deal with the impact of cyberspace crime upon specific criminal justice processes: the police and the trial process.

Violence, Prejudice and Sexuality Stephen Tomsen, 2013-05-13. The binary model of sexuality can be devastating and even fatal for people left outside the category of heterosexuality. Essentialist categories of sexuality and gender are often enforced by harassment and violence, as is clear in the case of violence directed against sexual minorities such as homosexual men. This book investigates why men launch assaults on sexual minorities, why these attacks are so vicious and frequently irrational, the identities of perpetrators and their victims, and why such violence seems to have some acceptance in fields such as law, psychiatry, the media, and popular opinion. Tomsen discusses the theoretical and research literatures on models of understanding human sexuality and gender, and the nature of hate violence and prejudice in contemporary societies, and also

provides an analysis from his own original research to draw out the contradictory nature of both sexual identity and violence and the significance of viewing both fields as linked domains This text makes an important contribution to current and future discussions of the nature of social prejudice and its ties to legal rulings collective beliefs and mainstream culture
