Women and Gender in Contemporary Chinese Societies Shanshan Du, Ya-chen Chen, 2013-03-04 Recent attention to historical geographic and class differences in the studies of women and gender in China has expanded our understanding of the diversity and complexity of gendered China Nevertheless the ethnic dimension of this subject matter remains largely overlooked particularly concerning women's conditions and gender status Consequently the patriarchy and its oppression of women among the Han the ethnic majority in China are often inaccurately or erroneously associated with the whole gendered heritage of China epitomized by the infamous traditions of footbinding and female infanticide Such academic and popular predisposition belies the fact that gender systems in China span a wide spectrum ranging from extreme Han patriarchy to Lahu gender egalitarianism The authors contributing to this book have collectively initiated a systematic effort to bridge the gap between understanding the majority Han and ethnic minorities in regard to women and gender in contemporary Chinese societies By achieving a quantitative balance between articles on the Han majority and those on ethnic minorities this book transcends the ghettoization of ethnic minorities in the studies of Chinese women and gender The eleven chapters of this volume are divided into three sections which jointly challenge the traditions and norms of Han patriarchy from various perspectives The first section focuses on gender traditions among ethnic minorities which compete with the norms of Han patriarchy The second section emphasizes the impact of radical social transformation on gender systems and practices among both Han and ethnic minorities The third section underscores socio cultural diversity and complexity in resistance to Han patriarchal norms from a broad perspective This book complements previous scholarship on Chinese women and gender by expanding our investigative lens beyond Han patriarchy and providing images of the multiethnic landscape of China By identifying the Han as an ethnically marked category and by bringing to the forefront the diverse gender systems of ethnic minorities this book encourages an increasing awareness of and sensitivity to the cross cultural diversity of gendered China both in academia and beyond

Chinese Families Upside Down: Intergenerational Dynamics and Neo-Familism in the Early 21st Century, 2021-03-15 Chinese Families Upside Down offers the first systematic account of how intergenerational dependence is redefining the Chinese family The authors make a collective effort to go beyond the conventional model of filial piety to explore the rich nuanced and often unexpected new intergenerational dynamics Supported by ethnographic findings from the latest field research novel interpretations of neo familism address critical issues from fresh perspectives such as the ambivalence in grandparenting the conflicts between individual and family interests the remaking of the moral self in the face of family crises and the decisive influence of the Chinese state on family change The book is an essential read for

scholars and students of China studies in particular and for those who are interested in the present day family and kinship in general

Gender and Sexuality in Modern Chinese History Susan L. Mann, 2011-09-19 Gender and sexuality have been neglected topics in the history of Chinese civilization despite the fact that there is a massive amount of historical evidence on the subject China's late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre modern state How did these and other late imperial legacies shape twentieth century notions of gender and sexuality in modern China Susan Mann answers this by focusing on state policy ideas about the physical body and notions of sexuality and difference in China's recent history from medicine to the theater to the gay bars from law to art and sports More broadly the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern while

development urban studies anthropology and ethnicity **Chopsticks Only Work in Pairs** Shanshan Du, 2002-12-18 The ideal of gender equality seems forever elusive always tantalizingly over the horizon Shanshan Du suggests that by shifting our attention away from the various utopian ideals embedded in mainstream feminism we may be surprised to learn that gender egalitarian societies do exist Based on extensive fieldwork this book explores the Lahu society in Southwest China where practical gender equality has become the byproduct of a potent ideology of gender unity vividly expressed by the proverb chopsticks only work in pairs **The Sage Returns** Kenneth J. Hammond, Jeffrey L. Richey, 2014-12-03 Until its rejection by reformers and revolutionaries in the twentieth century Confucianism had been central to Chinese culture identity and thought for centuries Confucianism was rejected by both Nationalists under Chiang Kai shek and Mao Zedong s Communist Party which characterized it as an ideology of reaction and repression Yet the sage has returned today Chinese people from all walks of life and every level of authority are embracing Confucianism As China turned away from the excesses of the Cultural Revolution and experienced the adoption and challenges of market practices alternatives were sought to the prevailing socialist morality Beginning in the 1980s and continuing through the years ideas images behaviors and attitudes associated with Confucianism have come back into public and private life In this volume scholars from a wide range of disciplines explore the contemporary Confucian revival in China looking at Confucianism and the state intellectual life and popular culture Contributors note how the revival of Confucianism plays out in a variety of ways from China s relationship with the rest of the world to views of capitalism and science to blockbuster movies and teenage fashion
