Sex Education in the Eighties Lorna Brown, 2012-12-06 The odd reader here in England odd means occasional may be interested in how a book comes about Members of the SIECUS Board of Directors were planning a Festschrift and dinner for Mary Calderone on the occasion of her 75th birthday One planning idea was to have a booklet filled with brief essays from prominent sex educators distributed between the roast beef and the ice cream My reaction was that such souvenirs find their burial place in the same dusty drawer as the program from the high school prom and ticket stubs from South Pacific I suggested a more lasting noticeable monument a proper as the English say book which would draw contributions from both SIECUS and non SIECUS scholars I was too clever to be trapped as editor in a 1974 preface I had written I swore I wouldn't edit another book And so I seduced Lorna Brown into being editor I contacted a few potential contributors suggested a few others convinced Leonard Pace at Plenum Press that this was a worthwhile venture and left the country To my amazement six months after settling in Cambridge England the rough draft of the book arrived along with a reminder from Lorna that during the seduction I had promised to write an Introduction

Cinema and the Second Sex Carrie Tarr, Brigitte Rollet, 2016-10-06 Women's filmmaking in France has been a source of both delight and despair On the one hand the numbers are impressive over 250 feature length films were made by over 100 women directors in France in the 1980s and 1990s On the other hand despite the heritage of French feminism French women directors characteristically disclaim their gender as a significant factor in their filmmaking This incisive study provides an informative critical guide to this major body of work exploring the boundaries between personal films intimate psychological dramas relating to key stages in life and genre films which demonstrate women's ability to appropriate and rework popular genres It analyzes the effects of postfeminism women's desire to enter the mainstream and the impact of a new generation of filmmakers enabling readers to take stock of the wealth and diversity of women's contribution to French cinema during the 1980s and 1990s

Pictures of Girlhood Sarah Hentges, 2015-01-09 Although the coming of age story has been a popular film plot for decades producers have only recently realized the commercial potential of targeting films to adolescent girls Movies like *Clueless* *Legally Blonde* and *Mean Girls* have been

successfully marketed to teenage girls as have several well known independent films Important as both cultural indicators and catalysts these films simultaneously demonstrate pop culture s influence on girls films and the ability of girls films to affect pop culture and perceptions of girlhood This critical survey of film and the modern girl concentrates largely on films of the last two decades addressing key themes for girls within coming of age films the changing but not always improving young feminine paradigm and the ways these films can be powerful determinants of culture The first chapter explores the ways in which girls films construct reinforce challenge and dismantle mainstream conceptualizations of sexuality race and power The second chapter discusses mainstream limitations of coming of age narratives including recycled plots and stars treatments of parental and male authority and adult conceptualizations of adolescence The third chapter describes girls experiences within these narratives through such conventions as attitude teen fashion music and dance unsanctioned rites of passage and race The fourth chapter covers the negotiation of sex and sexuality virginity and sexual empowerment

Seeing Through the Eighties Jane Feuer, 1995-10-26 The 1980s saw the rise of Ronald Reagan and the New Right in American politics the popularity of programs such as thirtysomething and Dynasty on network television and the increasingly widespread use of VCRs cable TV and remote control in American living rooms In *Seeing Through the Eighties* Jane Feuer critically examines this most aesthetically complex and politically significant period in the history of American television in the context of the prevailing conservative ideological climate With wit humor and an undisguised appreciation of TV she demonstrates the richness of this often slighted medium as a source of significance for cultural criticism and delivers a compelling decade defining analysis of our most recent past With a cast of characters including Michael Hope Elliot Nancy Melissa and Gary Alexis Krystle Blake and all the other Carringtons not to mention Maddie and David even Crockett and Tubbs Feuer smoothly blends close readings of well known programs and analysis of television s commercial apparatus with a thorough going theoretical perspective engaged with the work of Baudrillard Fiske and others Her comparative look at Yuppie TV Prime Time Soaps and made for TV movie Trauma Dramas reveals the contradictions and tensions at work in much prime time programming and in the frustrations of the American popular consciousness *Seeing Through the Eighties* also addresses the increased commodification of both the producers and consumers of television as a result of technological innovations and the introduction of new marketing techniques Claiming a close relationship between television and the cultures that create and view it Jane Feuer sees the eighties through television while seeing through television in every sense of the word

Sex In The Head Linda R. Williams, 2016-07-01 In *Sex in the Head* Linda Ruth Williams uses psychoanalysis and recent feminist film theory to analyze a network of ideas which link looking with sexuality and difference in the work of a writer who disavowed yet covertly enjoyed the pleasures and power of vision The book is a departure from the long history of feminist readings of Lawrence in that it discusses his engagement with theories of the gaze and its cultural forms cinema photography painting and the visual

dynamics and metaphors of literary texts as a way of thinking through gender It shows him arguing on the one hand against the evils of cinema and visual sex while relishing through the eyes of women the moving spectacle of those male bodies which populate the pages of his books It also questions what it is about the work of such an adamant cinephobe which has made it so thoroughly adaptable for film and television The Films of the Eighties Robert A.
