*Selling Sex* Emily van der Meulen, Elya M. Durisin, Victoria Love, 2013-05-01 Despite being dubbed the world's oldest profession prostitution has rarely been viewed as a legitimate form of labour. Instead it is often criminalized, sensationalized and polemicized. In *Selling Sex* Emily van der Meulen, Elya Durisin and Victoria Love present a more nuanced view of the sex industry. They bring together a vast collection of voices including feminists, researchers, advocates and sex workers of every stripe to challenge dominant narratives surrounding sex work. Presenting a variety of perspectives on such diverse topics as social stigma, police violence, labour organizing and human trafficking *Selling Sex* is an eye-opening, challenging and necessary book.

*Sex Work, Health, and Human Rights* Shira M. Goldenberg, Ruth Morgan Thomas, Anna Forbes, Stefan Baral, 2021-04-28 This open access book provides a comprehensive overview of the health inequities and human rights issues faced by sex workers globally across diverse contexts and outlines evidence-based strategies and best practices. Sex workers face severe health and social inequities largely as the result of structural factors including punitive and criminalized legal environments, stigma and social and economic exclusion and marginalization. Although previous work has largely emphasized an elevated burden and gaps in HIV and sexually transmitted infection (STI) services in sex work, less attention has been paid to the broader health and human rights concerns faced by sex workers. This contributed volume addresses this gap. The chapters feature a variety of perspectives including academic, community, implementing partners and government, to synthesize research evidence as well as lessons learned from local level experiences across different regions and are organized under three parts: Burden of health and human rights inequities faced by sex workers globally including infectious diseases (e.g. HIV, STIs), violence, sexual and reproductive health and drug use; Structural determinants of health and human rights including legislation, law enforcement, community engagement, intersectoral collaboration, stigma, barriers to health access, immigration issues and occupational safety and health; Evidence-based services and best practices at various levels ranging from individual and community to policy level interventions to identify best practices and avenues for future research and interventions. *Sex Work, Health and Human Rights* is an essential resource for researchers, policy makers, governments, implementing partners, international organizations and community-based organizations involved in research, policies or programs related to sex work, public health, social justice, gender-based violence, women's health and harm reduction.
