, **Narrativized Strategic Choice** John P. DeRosa, 2020-07-23 In February 2019 Donald Trump announced the United States withdrew from the landmark Cold War era Intermediate Range Nuclear Forces Treaty with Russia sparking worldwide concerns over the specter of a new nuclear arms race The rational actor and game theoretic models dominating international relations literature failed to predict or explain this strategic choice Rationalist normative and materialist models of strategic choice saturate the study of international relations Scholars continue to expose the shortfalls in these approaches in explaining or predicting outcomes of strategic interactions In this timely study John P DeRosa advances a new model of strategic choice through a narrative lens This narrative turn reframes the logic to emphasize the propositions of motives perceptions preferences and the reflexive interaction of strategic choices Case studies of American and Russian nuclear arms control treaties from the negotiations of the Intermediate Range Nuclear Forces INF Treaty in 1987 to the crisis of the US withdrawal from the INF Treaty in 2019 support building a theory of narrativized strategic choice

Rapid Development Steve McConnell, 1996-07-02 Corporate and commercial software development teams all want solutions for one important problem how to get their high pressure development schedules under control In RAPID DEVELOPMENT author Steve McConnell addresses that concern head on with overall strategies specific best practices and valuable tips that help shrink and control development schedules and keep projects moving Inside you ll find A rapid development strategy that can be applied to any project and the best practices to make that strategy work Candid discussions of great and not so great rapid

development practices estimation prototyping forced overtime motivation teamwork rapid development languages risk management and many others A list of classic mistakes to avoid for rapid development projects including creeping requirements shortchanged quality and silver bullet syndrome Case studies that vividly illustrate what can go wrong what can go right and how to tell which direction your project is going RAPID DEVELOPMENT is the real world guide to more efficient applications development Chinese City and Regional Planning Systems Li Yu, 2017-03-02 While the Chinese planning system is vitally important to the rapid development which has been taking place over the past three decades this is the first text to provide a comprehensive examination and critical evaluation of this system It sets the current system in historical context and explains the hierarchy of government departments responsible for planning and construction the different types of plans produced and recent urban planning innovations which have been put into practice Illustrated with boxed empirical case studies it shows the problems faced by the planning system in facing the uncertainty in the market economy In all it provides readers with a full understanding of a complex and powerful system which is very distinct from other planning systems around the world As such it is essential reading for all students interested in the current development taking place in China and in addition to planning students with a general interest in planning systems and theory

Planning Support Systems Richard K. Brail, 2001 With planning support software citizen planners can move buildings from block to block tear them down build complete subdivisions run new highways in and around town analyze any number of scenarios and see with their own eyes the consequences of each action This reference offers new possibilities and discusses the most important aspects of computer aided land use planning Planning Major Infrastructure Tim Marshall, 2013 This book analyses the planning and policy world of major infrastructure as it is moving now in Europe and the UK Have some countries managed to generate genuine consensus on how the large changes are progressed What can we learn from the different ways countries manage these challenges to inform better spatial planning and more intelligent political steering Case studies of the key features of policy and planning approaches in France Germany the Netherlands Spain and the UK are at the core of Planning Major Infrastructure This includes the different regimes introduced in England and Wales and Scotland brought in by reforms since 2006 High speed rail renewable energy deployment water management waste treatment all raise critical planning issues The case studies connect to the big issues of principle which haunt this field of public policy how can democratic legitimacy be secured How can ecological and economic transitions be managed What is the appropriate role of the national government in each of these areas as against other levels What part has the EU played and should it be involved in the future These are some of the central themes raised in this innovating exploration of this currently high profile field Rule and Order Dutch Planning Doctrine in the Twentieth Century A. Faludi, A.J. van der Valk, 2013-04-17 This book is about an art in which the Netherlands excels strategic planning Foreign observers will need little convincing of the merits of Dutch planning They will want to know whether routine explanations small country

industrious disciplined people hardened by the perennial fight against the sea hold any water and they will want to know where to look for the bag of tricks of Dutch planners Dutch readers need to be convinced first that planning in the Netherlands is indeed effective before contemplating how this has come about Our message for both is that to the extent that Dutch planners do live in what others are inclined to see as a planners paradise it is a paradise carefully constructed and maintained by the planners themselves This smacks of Bernard Shaw describing a profession as a conspiracy against laity However all knowledge and all technologies are socially constructed meaning that they are the products of people or groups pursuing often conflicting aims and coming to arrangements about what is to pass as true and good So this takes away the odium of Dutch planners having their own agenda Positioning ourselves We are in the business of interpreting Dutch planning and at the same time committed to improving it This makes us part of the situation which we describe This situation is characterized by the existence of two divergent traditions urban design and the social science discipline called planologie

Opening Strategy Richard Whittington, 2019-03-21 Strategy is becoming more open more transparent and more inclusive Opening Strategy tells the story of how corporate strategists and strategy consultants have worked since the middle of the last century to open up the strategy process First strategic planning then strategic management and now open strategy have all brought more people into the strategy process and provided more strategic information for the benefit of both business and society at large Informed by interviews with corporate strategists and consultants at leading firms such as General Electric and McKinsey Co and drawing on the historical archives of strategy s pioneers this book provides vivid insights into the trials and tribulations of practice change in the strategy profession Above all it stresses the hard work of the little recognized and sometimes eccentric individuals who have been leaders in practice change By building on a wide range of illustrations covering both successes and failures the book draws out general lessons for practice innovation in strategy Those studying the topic will be able to set standard strategy techniques in historical and social context and develop new areas for investigation while practising executives and consultants should gain a sense of how to innovate in strategy and how not to Seminar on the Architect & the Community , 1967 Integrated Infrastructure Systems Mr. Rohit

Evolution of Water Resource Planning and Decision Making Clifford S. Russell, Duane D. Baumann, 2009 This broad review of the development of US water resource policy analysis and practice offers perspectives from several disciplines law economics engineering ecology and political science While the historical context provided goes back to the early 19th century the book concentrates on the past 60 years and features a discussion of the difficulty that has generally been encountered in bringing the disciplines of economics and ecology into collaboration in the water resource context The book explores the

evolution of water related analytical capabilities and institutions and provides illustrations from case studies concluding with recommendations for research institutional change and action Though designed to be a background textbook for interdisciplinary graduate seminars in water resources planning and management it is accessible to interested lay readers and those who have policymaking or implementation responsibility but lack a technical background The book will appeal to students and faculty in water policy economics and engineering and in interdisciplinary programs organized around water resource problems and questions Policy makers and general readers will also appreciate this non technical introduction

The MAC Flyer United States. Air Force. Military Airlift Command,1983 **The MAC Flyer** ,1983 *Meeting Community Needs* Pamela H. MacKellar,2015-12-15 Librarians must know how to provide essential programs and services that make a difference for the people they serve if libraries are going to survive It is no longer realistic for librarians to rely on the idea that people love libraries so they will fund them in this economic climate Librarians must be able to prove that their programs and services are making a difference if they want to compete for funding in their municipalities schools corporations colleges institutions and organizations *Meeting Community Needs A Practical Guide for Librarians* presents a process that librarians of all kinds can use to provide effective programs and services This requires being in close touch with your community whether it is a city town or village college or university public or private school or corporation hospital or business Understanding what information people need how they access it how they use it how it benefits them and how they share it is paramount The process in this book covers community assessment designing programs and services to meet needs implementing and evaluating programs and services and funding options Providing library programs and services for your entire population not just library users is more important than ever Librarians working in libraries of all types must provide programs and services that meet community needs if libraries are to stay relevant and survive in the long run Librarians must be able to measure their success and demonstrate the library s worth with verifiable proof if they are going to be competitive for available funds in the future *Meeting Community Needs* will make you take a serious look at how well your library programs and services are meeting your community s needs and it will show you the way to success Strategic Planning for Regional Development in the UK Harry T. Dimitriou,Robin Thompson,2007-08-07 With contributions from leading academics and practitioners *Strategic Planning for Regional Development in the UK* is the most up to date treatment of a fast changing subject The book discusses The evolution of regional planning in the UK and the strategic thinking involved The spatial implications of regional economic development policies The methods and techniques needed for the implementation of strategic planning for regional development How strategic planning for regional development is currently put into practice in three UK regions with different priorities *Strategic Planning for Regional Development in the UK* is essential reading for students and academics working within strategic and regional planning and provides policy makers and practitioners with a comprehensive and thought provoking introduction to this critically important emerging field

Resilient Urban Regeneration in Informal Settlements in the Tropics Oscar Carracedo García-Villalba, 2020-09-15 This book focuses on the implementation of slum upgrading projects and the last generation of citywide programmes that define the future urban configuration of informal settlements from a citywide perspective in the Earth's tropical region. The book presents a study on regeneration experiences in Asia and Latin America and it identifies important points of connection and similarities between the two cases while also determining that compared to Asia informality in Latin America is in its second generation.

Planning and Budgeting in Poor Countries Naomi Caiden, Aaron B. Wildavsky, 1980-01-01 This substantial treatment of budgeting in poor countries and discussion of the relationship between planning and budgeting covers over eighty nations and three fourths of the world's population. While there are many treatments of planning, the approach of this study is radically different. The authors argue that the requisites of comprehensive economic planning do not exist in poor countries and that in the effort to create them, planners merge into the environment they have set out to change. Caiden and Wildavsky provide a unique and thorough examination of planning and budgeting by governments of poor countries throughout the world and recommend reforms that are workable and realistic for these countries. They analyze the political, economic, and social developments that influence budgeting and planning in developing countries.
