W. Davies, Mark Harrison, S. G. Wheatcroft, 1994 Leading scholars in the field analyse the Soviet economy sector by sector to make available in textbook form the results of the latest research on Soviet industrialisation **Decision-making in the Stalinist Command Economy, 1932-37** E. A. Rees, 1997-04-12 A detailed examination of economic policy making in the USSR during the period of the Second Five Year Plan 1933-1937 The work examines the process by which the plan was formulated and implemented through a series of detailed case studies based on archival material examining the role of the Politburo the Soviet government Gosplan and the main economic commissariats It examines the relationship between the conflicts within the economic commissariats and the unleashing of the Great Purges 1936-38 The work aims towards a new conceptualisation of the Stalinist state **The Electrification of Russia, 1880-1926** Jonathan Coopersmith, 2016-11-01 The Electrification of Russia 1880-1926 is the first full account of the widespread adoption of electricity in Russia from the beginning in the 1880s to its early years as a state technology under Soviet rule Jonathan Coopersmith has mined the archives for both the tsarist and the Soviet periods to examine a crucial element in the modernization of Russia Coopersmith shows how the Communist Party forged an alliance with engineers to harness the socially transformative power of this science based enterprise A centralized plan of electrification triumphed to the benefit of the Communist Party and the detriment of local governments and the electrical engineers Coopersmith's narrative of how this came to be elucidates the deep seated and chronic conflict between the utopianism of Soviet ideology and the reality of Soviet politics and economics **Forging Stalin's Army** Sally W Stoecker, 2018-02-19 This innovative study examines the early years of the Red Army as it developed from a revolutionary partisan force into a modern professional institution under the leadership of Mikhail Tukhachevsky an important and controversial figure in the politics of the Stalin period Sally Stoecker combines her institutional analysis of the formative period of the Soviet military with an astute look at the person and political maneuvers of Marshal Tukhachevsky and his complex relationship with Stalin which eventually led to his spectacular downfall and execution in the Great Terror of the late 1930s This innovative study examines the early years of the Red Army as it developed from a revolutionary partisan force into a modern professional institution under the leadership of Mikhail Tukhachevsky an important and controversial figure in the politics of the Stalin period Sally Stoecker combines her institutional analysis of the formative period of the Soviet military with an astute look at the person and political maneuvers of Marshal Tukhachevsky and his complex relationship with Stalin which eventually led to his spectacular downfall and execution in the Great Terror of the late 1930s Based on newly available archival materials the book will be welcomed not only by military historians but also by Russian

historians for the light it sheds on a vital area of Soviet political history **Women at the Gates** Wendy Z.

Goldman,2002-02-25 The first social history of Soviet women workers in the 1930s **Factory and Community in Stalin's**

Russia Kenneth M. Straus,2010-11-23 Kenneth Straus weaves together many threads in Russian social history to develop a new theory of working class formation in the years of Stalin's First Five Year Plan In so doing he addresses a long standing debate among historians by suggesting new answers to an old question Was there social support for the Stalin regime among the Soviet working class during the 1930s and if so why Straus argues that the keys for interpreting Stalinism lie in occupational specialization on the one hand and community organization on the other He focuses on the daily life of the new Soviet workers in the factory and community arguing that the most significant new trends saw peasants becoming open hearth steel workers housewives becoming auto assembly line workers and machine operatives and youth training en masse rather than occupations categories in the vocational schools in the factories the FZU Tapping archival material only recently available and a wealth of published sources Straus presents Soviet social history within a new analytical framework suggesting that Stalinist forced industrialization and Soviet proletarianization is best understood within a comparative European framework in which the theories of Marx Durkheim and Weber best elucidate both the broad similarities with Western trends and the striking exceptional aspects of the Soviet experience Against the Liberal Order Samuel J.

Hirst,2024-06-26 In the aftermath of the First World War the Western great powers sought to redefine international norms according to their liberal vision They introduced Western led multilateral organizations to regulate cross border flows which became pivotal in the making of an interconnected global order In contrast to this well studied transformation Hirst considers in detail for the first time the responses of the defeated interwar Soviet Union and early Republican Turkey who challenged this new order with a reactive and distinctly state led international politics As Mustafa Kemal Atatürk took up arms in 1920 to overturn the terms of the Paris settlement Vladimir Lenin provided military and economic aid as part of a partnership that both sides described as anti imperialist Over the course of the next two decades the Soviet and Turkish states coordinated joint measures to accelerate development in spheres ranging from aviation to linguistics Most importantly Soviet engineers and architects helped colleagues in Ankara launch a five year plan and build massive state owned factories to produce textiles and replace Western imports Whilst the Kemalists cooperation with the Bolsheviks has often been described as pragmatic this book demonstrates that Moscow and Ankara actually came together in an ideological convergence rooted in anxiety about underdevelopment relative to the West gradually arriving at statist internationalism as an alternative to Western liberal internationalism Drawing on extensive archival research and offering an often ignored and non Western perspective on the history of international relations and diplomacy Against the Liberal Order presents a novel interpretation of the international order of the interwar period that crosses the borders of historical disciplines and contributes to questions of current concern in world politics **A Social History of Soviet Trade** Julie Hessler,2020-10-06

In this sweeping study Julie Hessler traces the invention and evolution of socialist trade the progressive constriction of private trade and the development of consumer habits from the 1917 revolution to Stalin's death in 1953 The book places trade and consumption in the context of debilitating economic crises Although Soviet leaders and above all Stalin identified socialism with the modernization of retailing and the elimination of most private transactions these goals conflicted with the economic dynamics that produced shortages and with the government's bureaucratic repressive and socially discriminatory political culture *A Social History of Soviet Trade* explores the relationship of trade official and unofficial to the cyclical pattern of crisis and normalization that resulted from these tensions It also provides a singularly detailed look at private shops during the years of the New Economic Policy and at the remnants of private trade mostly concentrated at the outdoor bazaars in subsequent years Drawing on newly opened archives in Moscow and several provinces this richly documented work offers a new perspective on the social economic and political history of the formative decades of the USSR Stalin Robert H. McNeal, 1988-06-18 *Transforming Peasants* Judith Pallot, 1998-07-15 The essays in this collection explore the social construction of the Russian peasantry in the period between Emancipation and Collectivisation and the impact of these constructions on Tsarist and Bolshevik agrarian policy The international group of authors represent different trends in the historical sociological and geographical investigations of the East European peasantry and draw both upon the insights of cultural studies and recently available archival materials to throw new light on the relationship between peasantry and other classes The Great Urals James R. Harris, 2018-10-18 Political histories of the Soviet Union have portrayed a powerful Kremlin leadership whose will was passively implemented by regional Party officials and institutions Drawing on his research in recently opened archives in Moscow and the Urals a vast territory that is a vital center of the Russian mining and metallurgy industries James R Harris overturns this view He argues here that the regions have for centuries had strong identities and interests and that they cumulatively exerted a significant influence on Soviet policy making and on the evolution of the Soviet system After tracing the development of local interests prior to the Revolution Harris demonstrates that a desperate need for capital investment caused the Urals and other Soviet regions to press Moscow to increase the investment and production targets of the first five year plan He provides conclusive evidence that local leaders established the pace for carrying out such radical policies as breakneck industrialization and the construction of forced labor camps When the production targets could not be met regional officials falsified data and blamed saboteurs for their shortfalls Harris argues that such deception contributed to the personal and suspicious nature of Stalin's rule and to the beginning of his onslaught on the Party apparatus Most of the region's communist leaders were executed during the Great Terror of 1936-38 In his conclusion Harris measures the impact of their interests on the collapse of the communist system and the fate of reform under Gorbachev and Yeltsin **The Economics Of Coercion And Conflict** Mark Harrison, 2014-10-17 The papers brought together in this volume represent a decade of advances in the historical political economy of defence dictatorship

and warfare They address defining events and institutions of the world in the twentieth century economic consequences of repression and violence the outcomes of two world wars and the rise and fall of communism They cross traditional disciplinary boundaries combining a broad sweep with close attention to measurement and narrative detail offering insights into these issues from economics history political science and statistics and demonstrating in action the value of a multi disciplinary approach The author was one of the first economists to leverage the opening of former Soviet archives He has led international projects that reinvented the quantitative economics of the two world wars and contributed significantly to historical Soviet studies In 2012 he shared with Andrei Markevich the Russian National Prize for Applied Economics which was awarded in recognition of their research

Stalin Stephen Kotkin, 2018-11-20 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler's Germany that is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world's largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen Kotkin's Stalin Waiting for Hitler 1929 1941 is the story of how a political system forged an unparalleled personality and vice versa The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism But Stalin did not flinch By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside praise for his stunning anti capitalist success came from all quarters Stalin however never forgave and never forgot with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself Stalin's obsessions drove him to execute nearly a million people including the military leadership diplomatic and intelligence officials and innumerable leading lights in culture While Stalin revived a great power building a formidable industrialized military the Soviet Union was effectively alone and surrounded by perceived enemies The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany But that bargain would not unfold as envisioned The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance Stalin Waiting for Hitler 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin's seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography

The Nature of Stalin's Dictatorship E. A. Rees, 2003-11-14 This is the first attempt to systematically study the nature of the political leadership system under Stalin It focuses both on the formal institutions of power such as the Politburo and on the informal networks of decision making that were a central feature of his

system of rule It draws on a wealth of new archival material to highlight Stalin's relations with his co-leaders and wider elite groups and offers different perspectives on the nature and degree of Stalin's system of personal power The Jews in Poland and Russia Antony Polonsky, 2012-02-09 A comprehensive socio-political, economic and religious history, an important story whose relevance extends beyond the Jewish world or the bounds of east-central Europe **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1973 **Socialism and War** F. A. Hayek, 2012-09-21 This volume of writings by the eminent economist documents his thought on socialism and war during the dark decades of the 1930s and 1940s Throughout the twentieth century socialism and war were intimately connected The unprecedented upheavals wrought by the two world wars and the Great Depression provided both opportunity and impetus for a variety of socialist experiments Socialism and War presents F. A. Hayek's insight into these topics as it evolved over the course of decades Opening with Hayek's arguments against market socialism, the volume continues with his writings on the economics of war, many in response to the proposals made in John Maynard Keynes's famous pamphlet *How to Pay for the War* The last section presents articles that anticipated *The Road to Serfdom* Hayek's classic meditation on the dangers of collectivism An appendix contains a number of topical book reviews written by Hayek during this crucial period and a masterful introduction by the volume editor Bruce Caldwell sets Hayek's work in context Volume ten in *The Collected Works of F. A. Hayek* *Socialism and War* will interest anyone concerned with the ongoing debates about government intervention in the economy
