Play For Power A:

The Play of Power Margaret Rich Greer, 2017-03-14 Pedro Calderon de la Barca 1600 1681 one of the great dramatists of Spain's Golden Age wrote a series of mythological spectacle plays for the Habsburg courts Written when court spectacles were an instrument of monarchical absolutism these later works by Calderon have often been dismissed by critics as servile flattery of the royalty or mere displays of dazzling showmanship Margaret Rich Greer argues however that many of the playwright's court dramas not only explore human life and social organization but also possess artistic unity and thematic complexity that make them landmarks in European dramatic history Analyzing seven of these plays she demonstrates Calderon's mastery in the integration of music dance elaborate scenery and stage machinery to enhance rather than overpower his poetic text Greer shows that by envisioning each drama in the physical setting of its performance and in the political context of its time readers can appreciate a complex relationship of texts intertwined with the flattering image of the splendor of royal power are a discourse relevant to common spectators and another one that is subtly critical of the policies of the king and the court Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press

These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Power at Play Niels Åkerstrøm Andersen, 2009-04-17 More and more adults participate as employees in games at work and in public and voluntary organizations Power at play covers the intricate linkages between pedagogy play and power It shows how power today suspends itself through play and analyzes organized play as a symptom of more radical changes of the exercise of power in work and society

England Marcus Harnes, Victoria Bladen, 2015-02-28 For the people of early modern England the dividing line between the natural and supernatural worlds was both negotiable and porous particularly when it came to issues of authority Without a precise separation between science and magic the realm of the supernatural was a contested one that could be used both to bolster and challenge various forms of authority and the exercise of power in early modern England In order to better understand these issues this volume addresses a range of questions regarding the ways in which ideas beliefs and constructions of the supernatural threatened and conflicted with authority as well as how the power of the supernatural could be used by authorities monarchical religious legal or familial to reinforce established social norms Drawing upon a range of historical literary and dramatic texts the collection reveals intersecting early modern anxieties in relation to the

supernatural issues of control and the exercise of power at different levels of society from the upper echelons of power at court to local and domestic spaces and in a range of publication contexts manuscript sources printed prose texts and the early modern stage Divided into three sections Magic at Court Performance Text and Language and Witchcraft the Devil and the Body the volume offers a broad cultural approach to the subject that reflects current research by a range of early modern scholars from the disciplines of history and literature By bringing scholars into an interdisciplinary dialogue the case studies presented here generate fresh insights within and between disciplines and different methodologies and approaches which are mutually illuminating
