The Seminar of Jacques Lacan: Freud's papers on technique, 1953-1954 Jacques Lacan, 1988

The Seminar of Jacques Lacan: Freud's papers on technique, 1953-1954 Jacques Lacan, 1988 *The Seminar of Jacques Lacan* Jacques-Alain Miller, 1988 Reading Architecture with Freud and Lacan Lorens Holm, 2022-09-30 Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses

The Ego in Freud's Theory and in the Technique of Psychoanalysis, 1954-1955 Jacques Lacan, 1988

unconscious forms of homosexual desire they offer new perspectives on pleasure perversion fetishism disgust psychosis homophobia AIDS otherness and love Including two previously untranslated essays by Michel Foucault Homosexuality and Psychoanalysis will interest cultural theorists psychoanalysts and anyone concerned with the fate of sexuality in our time Contributors Lauren Berlant Leo Bersani Daniel L. Buccino Arnold I. Davidson Tim Dean Jonathan Dollimore Brad Epps Michel Foucault Lynda Hart Jason B. Jones Christopher Lane H. N. Lukes Catherine Millot Elizabeth A. Povinelli Ellie Ragland Paul Robinson Judith Roof Joanna Ryan Ramon E. Soto Crespo Suzanne Yang **Lacanian Psychoanalysis** Ian Parker, 2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice

Understanding Psychoanalysis Matthew Sharpe, Joanne Faulkner, 2014-12-05 Understanding Psychoanalysis presents a broad introduction to the key concepts and developments in psychoanalysis and its impact on modern thought Charting pivotal moments in the theorization and reception of psychoanalysis the book provides a comprehensive account of the concerns and development of Freud's work as well as his most prominent successors Melanie Klein and Jacques Lacan The work of these leading psychoanalytic theorists has greatly influenced thinking across other disciplines notably feminism film studies poststructuralism social and cultural theory the philosophy of science and the emerging discipline of neuropsychanalysis Analysing this engagement with other disciplines and their key theorists Understanding Psychoanalysis argues for a reconsideration of psychoanalysis as a resource for philosophy science and cultural studies *The Routledge Handbook of Psychoanalysis in the Social Sciences and Humanities* Anthony Elliott, Jeffrey Prager, 2016-04-14 The Routledge Handbook of Psychoanalysis in the Social Sciences and Humanities provides a comprehensive critical overview of the historical theoretical and applied forms of psychoanalytical criticism This path breaking Handbook offers students new ways of understanding the powers and limits of psychoanalysis and of the social cultural and political possibilities of psychoanalytic critique The book offers students and professionals clear and concise chapters on the development of psychoanalysis introducing key theories that have influenced debates over the psyche desire and emotion in the social sciences and humanities There are substantive chapters on classical Freudian theory Kleinian and Bionian theory object relations psychoanalysis Lacanian and post Lacanian approaches feminist psychoanalysis as well as postmodern trends in psychoanalysis There is a strong emphasis on interdisciplinary approaches to psychoanalytic critique with contributions drawing from developments in sociology politics history cultural studies women's studies and architecture *Irrepressible Truth* Adrian Johnston, 2017-09-19 This book offers readers a uniquely detailed engagement with the ideas of legendary French psychoanalyst Jacques Lacan The Freudian Thing is one of Lacan's most important texts wherein he explains the significance and stakes of his return to Freud as a passionate defence of Freud's disturbing epoch making discovery of the unconscious against misrepresentations and criticisms of it However Lacan is characteristically cryptic in The Freudian

Thing The combination of his writing style and vast range of references renders much of his thinking inaccessible to all but a narrow circle of scholarly specialists Johnston's *Irrepressible Truth* opens up the universe of Lacanian psychoanalysis to much wider audiences by furnishing a sentence by sentence interpretive unpacking of this pivotal 1955 essay In so doing Johnston reveals the precision rigor and soundness of Lacan's teachings *Understanding Lacan's Objet a* Juan Pablo Lucchelli, 2025-08-01 *Understanding Lacan's Objet a* proposes that we modify the accepted approach to Lacan's ideas and strive to make Lacanian concepts accessible Juan Pablo Lucchelli gradually introduces conceptual tools following the emergence of this object of objects step by step The book makes clear the impact of the social in the genesis of objet a as a concept with the inevitable sharing of the subject's being with others at its core Lucchelli demonstrates that there can be no true autonomy of the individual without recognizing the dependence on the other thus like Winnicott's transitional object Lacan's objet a is what connects us to others despite the individualistic pretensions that emerge from the ego This book will be essential reading both for Lacanian analysts in practice and in training who wish to deepen their knowledge of the concept of the objet a and for students of psychoanalysis philosophy and psychology *Biopolitics and Structure in Legal Education* Luca Siliquini-Cinelli, Thomas Giddens, 2023-06-30 Taking up the study of legal education in distinctly biopolitical terms this book provides a critical and political analysis of structure in the law school Legal education concerns the complex pathways by which an individual becomes a lawyer making the journey from lay person to expert from student to practitioner To pose the idea of a biopolitics of legal education is not only to recognise the tensions surrounding this journey but also to recognise that legal education is a key site in which the subject engages and is engaged by a particular structure and here the particular structure of the law school This book explores that structure by addressing the characteristics of the biopolitical orders engaged in legal education including understanding the lawyer as a commodity unpicking the force relations in legal education examining the ways codes of conduct in higher education impact academic freedom as well as putting the distinctly Western structures of legal learning within a wider context Assembling original field defining essays by both leading international scholars and emerging researchers it constitutes an indispensable resource in legal education research and scholarship that will appeal to legal academics everywhere **Culture and Politics on the Couch** Thomas Svolos, 2024-09-04 In this book Thomas Svolos tests the claim that a practicing psychoanalyst is afforded a unique perspective on issues of politics social and cultural affairs trained as they are to look out for that which is not readily transparent to a patient This might be something opaque something bizarre even something that is part of the experience of the patient that they are not conscious of what Sigmund Freud and Jacques Lacan called at different points in their work desire libido or jouissance It argues that by taking account in one way or another of desire libido and jouissance we might find another dimension to political social and cultural matters a dimension that is present but generally opaque to those who deal with them In a series of original texts and edited dialogues brought together for the first time this lively and accessible

work offers novel insights on topics ranging from race climate change and partisan politics to science fiction and Bruce Springsteen It will appeal to students scholars and those with a general interest in psychoanalysis politics cultural studies and critical theory

A Clinical Introduction to Freud: Techniques for Everyday Practice Bruce Fink, 2017-03-21

Freud's central theories explained in the context of modern therapy Often overlooked because he is so easy to mock ridicule or just plain misunderstand Freud introduced many techniques for clinical practice that are still widely employed today Yet surprisingly there has never been a clinical introduction to Freud's work that might be of use to students and professionals in their everyday lives and careers Until now Bruce Fink who is his generation's most respected translator of Lacan's work and a profound interpreter of Freud's has written the definitive clinical introduction to Freud This book presents Freud in an eminently usable way providing readers with a plethora of examples from everyday life and clinical practice illustrating the insightfulness and continued applicability of Freud's ideas The overriding focus is on techniques Freud developed for going directly toward the unconscious illustrating how we can employ them today and perhaps even improve on them Fink also lays out many of Freud's fundamental concepts such as repression isolation displacement anxiety affect free association repetition obsession and wish fulfillment and situates them in highly applicable clinical contexts The emphasis throughout is on the myriad techniques developed by Freud that clinicians of all backgrounds and orientations can draw upon to put in their therapy toolbox whether or not they identify as Freudians With references ranging from Star Trek and the Moody Blues to hard drives and unicorns Bruce Fink's elegant writing brings Freud into sharp focus for clinicians of all backgrounds To readers who ask with an open mind Does this approach allow me to see anything that I had not seen before in my clinical work this book will offer many new insights

What's That Smell? Simon Hajdini, 2024-03-05

How our sense of smell engages with philosophy psychoanalysis and political economy and how it can help enrich our understanding of the nature of truth language economy and sexuality Why is it that in Indo European languages at least we have no language to describe smells leaving us and famously Juliet no choice but to call the scent of a rose simply sweet In *What's That Smell* a groundbreaking exploration of the intersection between philosophy psychoanalysis and the oft neglected sense of smell Simon Hajdini sets out to answer this complex question Through new readings of traditional and modern philosophical texts Hajdini places smell at the very center of a philosophical critique of the traditional notion of truth challenging the idea that smell is the antiphilosophical sense par excellence Through fresh engagements with fundamental philosophical issues original analyses of modern literature and film and the novel use of scientific research into smell within a humanities context Hajdini situates problems of olfaction at the very point of inception of cultural life He proposes that ontology civilization and capitalist economy alike can be said to amount to shit management And only by following the philosophically most deplorable of the senses the book argues can we better understand the central philosophical psychoanalytical and political issues of truth sex and exploitation
