Sexuality and its Queer Discontents in Middle English Literature T. Pugh, 2008-02-04 This book exposes the ways in which ostensibly normative sexualities depend upon queerness to shore up their claims of privilege Through readings of such classic texts as The Canterbury Tales and Eger and Grime Tison Pugh explains how sexual normativity can often be claimed only after queerness has been rejected

Ethical Materialities in Art and Moving Images Silke Panse, 2024-12-26 Starting from the premise that after modernism and postmodernism in the Anthropocene an artwork cannot rest upon its separation from the planet this volume develops new ethical practice and thought with respect to art philosophy and moving images Practitioners and theorists examine how the relations between the ethical and the material figure in a context in which a dearth of ethical practice and thought has caused the materialities of the Anthropocene and the climate catastrophe Ethics are generally regarded as constituted through immaterial relations guided by moral imperatives By contrast this volume argues that the singular ethicalities that are manifested in a work cannot be captured by abstract ethics The explorations of the ethical here are not prescriptive but creative Through artistic and philosophical thought and practice the contributions move beyond the division between an active practice of ethics and a contemplative theory of aesthetics They ask what ethicalities and materialities are at play in the relations between the artist the art their worlds and the planet after new materialism and posthumanism Rather than transcending the ethical through the material or the material through the ethical the contributions articulate the singular relations between them and consider the inter and intra active ethical and material relations of art and images in biodiverse environments They suggest that to bring out the ethical dimensions of the material and the material dimension of the ethical without identifying one with the other is a responsibility of art and images

The Ethics of Psychoanalysis, 1959-1960 Jacques Lacan, 1999 *Treasuring the Gaze* Hanneke Grootenboer, 2012 The end of the eighteenth century saw

the start of a new craze in Europe tiny portraits of single eyes that were exchanged by lovers or family members Worn as brooches or pendants these minuscule eyes served the same emotional need as more conventional mementoes such as lockets containing a coil of a loved one's hair The fashion lasted only a few decades and by the early 1800s eye miniatures had faded into oblivion Unearthing these portraits in *Treasuring the Gaze* Hanneke Grootenboer proposes that the rage for eye miniatures and their abrupt disappearance reveals a knot in the unfolding of the history of vision Drawing on Alois Riegl Jean Luc Nancy Marcia Pointon Melanie Klein and others Grootenboer unravels this knot discovering previously unseen patterns of looking and strategies for showing She shows that eye miniatures portray the subject's gaze rather than his or her eye making the recipient of the keepsake an exclusive beholder who is perpetually watched These treasured portraits always return the looks they receive and as such they create a reciprocal mode of viewing that Grootenboer calls intimate vision Recounting stories about eye miniatures including the role one played in the scandalous affair of Mrs Fitzherbert and the Prince of Wales a portrait of the mesmerizing eye of Lord Byron and the loss and longing incorporated in crying eye miniatures Grootenboer shows that intimate vision brings the gaze of another deep into the heart of private experience With a host of fascinating imagery from this eccentric and mostly forgotten yet deeply private keepsake *Treasuring the Gaze* provides new insights into the art of miniature painting and the genre of portraiture

The Question of Sacrifice Dennis King Keenan, 2005-06-14 In this concentrated and detailed look at questions surrounding the act of sacrifice Dennis King Keenan discusses both the role and the meaning of sacrifice in our lives Building on recent philosophical discussions on the gift and transcendence Keenan covers new ground with this exploration of the religious psychological and ethical issues that sacrifice entails According to Keenan sacrifice is paradoxically called to sacrifice itself But what does this necessary yet impossible condition mean for living an ethical life Along the way to an answer Keenan considers the views of Hegel Kierkegaard Nietzsche Heidegger Bataille Lacan Levinas Blanchot Irigaray Derrida Kristeva Nancy and Žižek This thoughtful and provocative work affords a sophisticated philosophical treatment of the question of sacrifice

The Rhetoric of Perspective Hanneke Grootenboer, 2005 Perspective determines how we as viewers perceive painting We can convince ourselves that a painting of a bowl of fruit or a man in a room appears to be real by the way these objects are rendered Likewise the trick of perspective can prevent us from being absorbed in a scene Connecting contemporary critical theory with close readings of seventeenth century Dutch visual culture *The Rhetoric of Perspective* puts forth the claim that painting is a form of thinking and that perspective functions as the language of the image Aided by a stunning full color gallery Hanneke Grootenboer proposes a new theory of perspective based on the phenomenological aspects of non narrative still life trompe l'oeil and anamorphic imagery Drawing on playful and mesmerizing baroque images Grootenboer characterizes what she calls their sophisticated deceit asserting that painting is more about visual representation than about its supposed objects Offering an original theory of perspective's impact on pictorial representation the act of looking and the

understanding of truth in painting Grootenboer shows how these paintings both question the status of representation and explore the limits and credibility of perception An elegant and honourable synthesis Keith Miller Times Literary Supplement

Chaucerian Conflict Marion Turner,2007 This book offers a completely new reading of Chaucer While most critics have seen his work as essentially socially optimistic and congenial Marion Turner argues that Chaucer was profoundly concerned with conflict and social antagonism Chaucer s texts are examined alongside a wide variety of poetry and historical documents from the period

On Farting V. Allen,2010-05-24 This book presents waste as an aesthetic category that introduces an arsy versy world where detritus is precious This aesthetic is applied in the second part to etymology poking through the paternal dungheaps of words and tracing their origins not to Eden but to Babel puns and word play

Intersubjectivity in Psychoanalysis Lewis Kirshner,2017-05-12 In this book Lewis Kirshner explains and illustrates the concept of intersubjectivity and its application to psychoanalysis By drawing on findings from neuroscience infant research cognitive psychology Lacanian theory and philosophy Kirshner argues that the analytic relationship is best understood as a dialogic exchange of signs between two subjects a semiotic process Both subjects bring to the interaction a history and a set of unconscious desires

which inflect their responses In order to work most effectively with patients analysts must attend closely to the actual content of the exchange rather than focusing on imagined contents of the patient's mind The current situation revives a history that is shaped by the analyst's participation Supported by numerous case studies *Intersubjectivity in Psychoanalysis A Model for Theory and Practice* is a valuable resource for psychotherapists and analysts seeking to refine their clinical goals and methods

The Ethical Seduction of the Analytic Situation Viviane Chetrit-Vatine, 2018-05-11 According to Jacques Andre the patient's encounter with the analyst is a scene of seduction the seductive statement being that of the fundamental rule or the invitation to address that which is most intimate or personal to a complete stranger But the practice of psychoanalysis can only unfold if there is a strict respect for ethics The words seduction and ethics which at first sight seem mutually exclusive are thus as the author shows at the heart of the analytic perspective The author takes as her starting point an encounter which is not necessarily consensual between Emmanuel Levinas' thought and his conception of philosophy as ethics ethics understood as responsibility for the other and that of the psychoanalyst Jean Laplanche who posits the first adult other as a seducer of the young psyche from the outset due to the transmission of enigmatic messages compromised by his or her unconscious The analyst's ethical position is re-examined and with it the feminine maternal origins of the human capacity for responsibility for the other

Developments Erica Burman, 2020-07-28 How does developmental psychology connect with what used to be called the developing world What do cultural representations indicate about the contemporary politics of childhood How is concern about child sexual exploitation linked to wider securitization anxieties In other words what is the political economy of childhood and how is this affectively organized This new edition of *Developments Child Image Nation* fully updated is a key conceptual intervention and resource reflecting further on the contexts and frameworks that tie children to national and international agendas A companion volume to Burman's *Deconstructing Developmental Psychology* third edition 2017 this volume helps explain why questions around children and childhood including their safety welfare their interests abilities sexualities and their violence have so preoccupied the late twentieth and twenty first centuries showing how the frames for these concerns have extended beyond their Euro US contexts of origination In this completely revised edition Burman explores changing debates and contexts offering resources for interpreting continuities and shifts in the complex terrain connecting children and development Through reflection on an increasingly globalised marketised world that prolongs previous colonial and gendered dynamics in new and even more insidious ways *Developments* analyses the conceptual paradigms shaping how we think about and work with children and recommends strategies for changing them Drawing in particular on feminist and post-development literatures as well as original and detailed engagement with social theory it illustrates how and why reconceptualising notions of individual and human development including those informing models of children's rights and interests is needed to foster more just and equitable forms of professional practice with children and their families Burman offers an important contribution to a set of urgent debates

engaging theory and method policy and practice across all the disciplines that work with or lay claim to children's interests A persuasive set of arguments about childhood culture and professional practice Developments is an invaluable resource to teachers and students in psychology childhood studies and education as well as researchers in gender studies

Reinterpreting the Borderline Paul Cammell, 2016-08-30 Reinterpreting the Borderline is a timely and comprehensive analysis of Heidegger's philosophy and its relevance to the clinical fields of psychiatry psychotherapy and psychoanalysis Cammell presents the key elements of Heidegger's philosophy and further explores affiliations with other key philosophers influenced by Heidegger By applying these philosophical ideas to developmental models and clinical treatments of borderline personality disorder Cammell develops a system of ideas he terms hermeneutic ontology exploring the fundamentally relational embodied affective temporal and technical aspects of existence that become problematized in the experience of the borderline both for the suffering individual and the concerned clinician Cammell posits that borderline experience extends beyond the suffering individual to the context of the psychotherapy itself something in which the therapist and suffering individual must collaborate to overcome Reinterpreting the Borderline provides a rich and complex study toward simultaneously overcoming the divide between theory and practice philosophy and psychotherapy and finally the borderline between suffering individuals and their concerned clinicians

Inheritance in Psychoanalysis Joel Goldbach, James A. Godley, 2018-02-15 In contrast to the way inheritance is understood in scientific discourse and culture more broadly inheritance in psychoanalysis is a paradox Although it's impossible strictly speaking for the unconscious to be inherited this volume demonstrates how the concept of inheritance can occasion a rich reassessment and reinvention of psychoanalytic theory and practice The collection enacts a critical traversal of inheritance for psychoanalysis from the most basic assumptions of natural or biological inheritance such as innateness heredity evolution and ontogenesis to analysis of the ways cultural traditions can be challenged and transformed and finally to the reinvention of psychoanalytic practice in which the ethics of inheritance is fully realized as the individual's responsibility to transform the social bond Featuring strong interdisciplinary analysis rooted in both psychoanalysis and philosophy this volume further engages science politics and cultural studies and addresses contemporary political challenges such as autism and transgenderism

Shakespeare's Perfume Richard Halpern, 2016-01-29 Starting with St Paul's argument that the Greeks were afflicted with homosexuality to punish their excessive love of statues Richard Halpern uncovers a tradition in which aesthetic experience gives birth to the sexual and thus reverses the Freudian thesis that erotic desire is sublimated into art Rather Halpern argues sodomy was implicated with aesthetic categories from the very start as he traces a connection between sodomy and the unrepresentable that runs from Shakespeare's Sonnets to Oscar Wilde's novella The Portrait of Mr W H Freud's famous essay on Leonardo da Vinci and Jacques Lacan's seminar on the ethics of psychoanalysis Drawing on theology alchemy psychoanalysis philosophy and literary criticism Shakespeare's Perfume explores how the history of aesthetics and the history of sexuality are

fundamentally connected
