Spiraling Winds deep in the mountains of Ko olaupoko O ahu old memories stir Hawaiian writer Peter Britos explores the
roots of contemporary Hawai i through the lens of a dystopian future in this edgy time hopping novel From a predicament in
the future the narrative plunges into the past to follow the journey of a Hawaiian immigrant family through multiple
generations spanning the eighteenth nineteenth and twentieth centuries The journey begins when veteran mnemo navigator
Estrella Kuemanu arrives in Waik k ready to take a deep dive a thousand years into the past She has the koko the blood the
genealogical signature to make this dive If the stories and intel are true she must find Bishop Valdez and his sister Nalani
they may hold the key to preventing an apocalyptic prophecy from being fulfilled Estrella has studied the lore whittled the

Kamens, 1997-01-01 Kamens focuses especially on one figure the buried tree which refers to fossilized wood associated in particular with an utamakura site the Natori River and is mentioned in poems that first appear in anthologies in the early tenth century The figure surfaces again at many points in the history of traditional Japanese poetry as do the buried trees themselves in the shallow waters that otherwise conceal them After explaining and discussing the literary history of the concept of utamakura Kamens traces the allusive and intertextual development of the figure of the buried tree and the use of the place name Natorigawa in waka poetry through the late nineteenth century He investigates the relationship between utamakura and the collecting of fetishes and curios associated with utamakura sites by waka connoisseurs **The**

became close political allies so quickly after the end of World War II that it seemed as though the two countries had easily forgotten the war they had fought Here Yoshikuni Igarashi offers a provocative look at how Japanese postwar society struggled to understand its war loss and the resulting national trauma even as forces within the society sought to suppress these memories Igarashi argues that Japan's nationhood survived the war's destruction in part through a popular culture that expressed memories of loss and devastation more readily than political discourse ever could He shows how the desire to represent the past motivated Japan's cultural productions in the first twenty five years of the postwar period Japanese war experiences were often described through narrative devices that downplayed the war's disruptive effects on Japan's history Rather than treat these narratives as obstacles to historical inquiry Igarashi reads them along with counter narratives that attempted to register the original impact of the war He traces the tensions between remembering and forgetting by focusing on the body as the central site for Japan's production of the past This approach leads to fascinating discussions of such diverse topics as the use of the atomic bomb hygiene policies under the U.S. occupation the monstrous body of Godzilla the first Western professional wrestling matches in Japan the transformation of Tokyo and the athletic body for the 1964 Tokyo Olympics and the writer Yukio Mishima's dramatic suicide while providing a fresh critical perspective on the war legacy of
