The colors range from light pink to a slightly deeper rose hue, with some areas appearing more saturated than others. The lighting is soft and diffused, creating a romantic and gentle atmosphere.

poetic concept in Kuntaka's Vakroktijivita. He revived the concept from more verbal poetic figure to the lessons of poetry. He not only explains but also explores the multi-dimensional aspects of Vakrokti. But unfortunately no comprehensive study of Vakrokti has been done in a systematic way. This book is an effort in this direction. Presenting the major schools of Sanskrit poetics, the book gives general definition of vakrokti and its multi-dimensional implications. Further taking a close look at the views of different theorists on vakrokti, it exposes in detail Kuntaka's theory of vakrokti and makes its critical analysis in relation to various literary concepts: alankara, svabhavokti, rasavalankara, marga, and rasa. Finally, it deals with the striking similarities between dhvani and vakrokti and brings out the fundamental aspects of practical criticism as shown by Kuntaka.

Daniel Garrison Brinton, 2009-01-01. *Wittgenstein's Secret Diaries* Dinda L. Gorrée, 2020-02-06. Ludwig Wittgenstein's works encompass a huge number of published philosophical manuscripts, notebooks, lectures, remarks, and responses, as well as his unpublished private diaries. The diaries were written mainly in coded script to interpolate his writings on the philosophy of language with autobiographic passages but were previously unknown to the public and impossible to decode without learning the coding system. This book deciphers the cryptography of the diary entries to examine what Wittgenstein's personal idiom reveals about his public and private identities. Employing the semiotic doctrine of Charles S. Peirce, Dinda L. Gorrée argues that the style of writing reflects the variety of Wittgenstein's emotional moods, which were profoundly affected by his medical symptoms. Bringing Peirce's reasoning of abduction together with induction and deduction, the book investigates how the semiosis of the emotional, energetic, and logical interpretations of signs and objects reveal Wittgenstein's psychological states in the coded diaries.
