Separate Reality:

Separate Reality Carlos Castaneda, 2013-03-26 One can't exaggerate the significance of what Castaneda has done. The New York Times In this captivating work Carlos Castaneda shares the story of how he returns to don Juan to resume the journey necessary to become a man of knowledge venturing into the world of mystical sensation and perception to see beyond the surface realities of life. As the second volume in the intriguing twelve part series this book invites you to experience a reality beyond the ordinary. Delve into the profound teachings of the wise Yaqui Indian spiritual leader don Juan Matus as anthropologist Carlos Castaneda recounts his incredible apprenticeship. Through the exploration of hallucinogenic substances and ancient wisdom Castaneda challenges conventional perceptions leading readers into a deeply thought provoking journey of self discovery and consciousness exploration. Combining elements of anthropology and mysticism this masterpiece continues to captivate, inspire and influence those seeking deeper understanding and enlightenment. **A**

Separate Reality Selene Rossi, 2016-06-30 A Separate Reality is a novella or short story which I value highly. It is about a woman who suffers from mood disorders, depression or existential emptiness typical in today's society. She experiences periods of so-called normality to periods of depression more or less accentuated in which everything is paralyzed and loses importance. Tired of this she makes a decision, perhaps the only decision taken consciously or impulsively but definitely from within her soul to leave everything and go away for a while. Not even she knows where she will come to terms with herself face to face with herself, dive into her own unconscious in a separate reality in a parallel dimension with little importance. This woman will be helped by herself and a black cat and with the passing events in her life so many things will change. Until one day a ray of sunlight takes her away. **The Dyophysite Christology of Cyril of Alexandria** Hans van Loon, 2009-04-07

The formula of the incarnate nature of the Word of God has often been depicted as a summary of Cyril of Alexandria's ca. 378-444 christology. But no systematic study into his christological works has been published. Besides, there is no consensus regarding the meaning of the key terms and expressions in these works. This book addresses this deficiency by an integral investigation of the archbishop's christological writings during the first two years of the Nestorian controversy and comes to the conclusion that his christology is basically dyophysite. This reappraisal of his christology bears on the understanding of the Council of Chalcedon and on contemporary ecumenical relations, especially those between the Eastern Orthodox and the Oriental Orthodox. **The Exorcism of Anneliese Michel** Felicitas D. Goodman, 2005-11-01

In 1976 a young German girl named Anneliese Michel underwent a series of exorcisms. The rites were administered by two priests of the Catholic Church to free Anneliese of the six demons they believed possessed her. Seemingly as a result of the exorcisms the girl died. Worldwide publicity followed when the girl's parents and the two exorcists were brought to trial and convicted of negligent homicide. Here a noted anthropologist offers her own interpretation of the exorcisms of Anneliese Michel. Drawing on interviews with the two exorcists, the girl's parents and friends, transcripts of the trial and tape recordings made during the

exorcisms as well as studies of religious experience in various cultures Felicitas Goodman has written a fascinating compelling book one that finally tells what happened in this strange case as it delves into the age old mystery of demonic possession Disobliging Reality Frank Juszczyk,2016-01-11 When Frank Juszczyks wife died he grappled with big questions How could his reality persist without her being a part of it And what was it about reality that interrupted their time together He told himself that hed discover the operative dynamic that split them apart and where shed gone In this exploration of quantum physics he seeks to answer questions such as Why does there have to be a here and a not here Is reality taught to us or does it simply exist If we were to reduce or eliminate the persistence of reality what would that be like Are there possible parallel universes that have the same degree of reality as ours and if so what does that say about how our reality is determined in the first place Albert Einstein said that reality is merely an illusion and while the concepts in this book are complicated you dont have to be a physicist to learn how his statement is true or how to deal with it on a personal level Overcome consensus thinking minimize the persistence of an illusory reality and discover freedom of choice with the powerful revelations in Disobliging Reality **Reality Is All The God There Is** Avatar Adi Da Samraj,2008-09-02

Contemporary renderings of the dharma of the great sages of Advaita Vedanta and Buddhism from the Realized Spiritual Master Avatar Adi Da Samraj Includes transmissions of wisdom teachings of the great sages Gotama Sakyamuni Nagarjuna Shankara and Ribhu Presents classic texts of spiritual realization from the perspective of a Realized Teacher Provides insight into the ultimate realization possible when dualistic consciousness has been transcended In this book Avatar Adi Da Samraj offers his unique renderings of the dharma of the great sages of Advaita Vedanta and Buddhism including Gotama Sakyamuni Nagarjuna Shankara and Ribhu Rather than simply translate their teachings from available source texts Avatar Adi Da himself a Realized Master speaks them as one who has personally realized their truth revealing that the Buddhist Nirvana and the Advaitic Brahman point to the same transcendental condition Avatar Adi Da s transmissions restore to these texts the profound communication intended by the spiritual masters who created them The ego nurtures the illusion of separation an illusion that cannot be removed by the ego s own efforts It is only the spiritual master who makes possible the realization of egoless consciousness The great sages proclaimed a state of spiritual realization that exceeded both worldly dualism and mystical seeking They had awakened to a reality that spoke of abiding in a state of consciousness only Avatar Adi Da brings these remarkable declarations back to life and then concludes with his own unique description of a realization that transcends even these extraordinary utterances the realization of Reality As It Is free of all forms of the ego s search

The Reality of ESP Russell Targ, 2012-12-19 On February 4 1974 members of the Symbionese Liberation Army kidnapped nineteen year old newspaper heiress Patricia Hearst from her Berkeley California apartment Desperate to find her the police called physicist Russell Targ and Pat Price a psychic retired police commissioner As Price turned the pages of the police mug book filled with hundreds of photos suddenly he pointed to one of them and announced That s the ringleader The man was Donald DeFreeze who was indeed subsequently so identified Price also described the type and location of the kidnap car enabling the police to find it within minutes That remarkable event is one reason Targ believes in ESP Another occurred when his group made 120 000 by forecasting for nine weeks in a row the changes in the silver commodity futures market As a scientist Targ demands proof His experience is based on two decades of investigations at the Stanford Research Institute SRI which he cofounded with physicist Harold Puthoff in 1972 This twenty million dollar program launched during the Cold War was supported by the CIA NASA the Defense Intelligence Agency and Army and Air Force Intelligence The experiments they conducted routinely presented results could have happened by chance less than once in a million Targ describes four types of experiments Remote Viewing in which a person describes places and events independent of space and time For example while in California Price drew to scale a Soviet weapons factory at Semipalitinsk with great accuracy later confirmed by Satellite photography In another remote viewing Targ accurately sketched an airport in San Andreas Columbia himself Distant Mental Influence where the thoughts of the experimenter can positively or negatively affect the physiology heart rate skin resistance etc of a distant person Whole field isolation where someone in a state of sensory isolation accurately describes the visual experiences of someone else in another place Precognition and retrocausality showing that the future can affect the past That is the elephant you see on television in the morning can be the cause of your having dreamed about elephants the previous night Final chapters present evidence for survival after death explain how ESP works based on the Buddhist Hindu view of our selves as nonlocal eternal awareness discuss the ethics of exercising psychic abilities and show us how to explore ESP ourselves I am convinced Targ says that most people can learn to move from their ordinary mind to one not obstructed by conventional barriers of space and time Who would not want to try that

Unified Reality Theory Steven Kaufman, 2015-12-04 Unified Reality Theory demonstrates that the source of reality is a universal consciousness and

that we are in no way separable from that source and so in no way truly separable from each other or any other aspect of reality I recommend this book to anyone interested in understanding the nature of reality and their place in it Deepak Chopra Unified Reality Theory describes how all reality evolves from an absolute existence It also demonstrates that this absolute existence must have consciousness as an attribute that is intrinsic to its being Thus Unified Reality Theory shows that consciousness rather than being a product of the evolution of physical reality is itself the source of what we experience as physical reality and that physical reality is itself but one aspect of an evolving universal consciousness Unified Reality Theory shows that most fundamentally this absolute consciousness existence evolves into reality by means of a single process self relation That is consciousness existence becomes reality by forming relationships with itself analogous in a very limited way to what happens to a rubber band that is twisted upon itself i e it remains whole while differentiating into other forms Thus Unified Reality Theory demonstrates that reality is a state of existential self relation The idea that the universe consists of existence which has formed relationships with itself isn't new Taoists have understood this idea for at least a couple of thousand years What's new here is the presentation of this idea in the form of a detailed and defined structural model that correlates with the behavior of physical reality as described by science in general and physics in particular Ultimately Unified Reality Theory uses science and logic to make the case that God exists as a pervasive and absolute consciousness that transcends the realities of space and time and that we as well as everything else are that

Sipper, 2022-04-04 As one begins to explore the many complexities of quantum computing nanotechnology and AI it becomes clear that there is an underlying reality within cyberspace that is comprised of other realities and that these realities all have their own biomes ecosystems and microbiomes built on information energy and human creative reality and potential It is clear that there has not been much research on this especially the piece dealing with the cyber microbiome which looks at the part of the iceberg that is under the surface and makes up most of cyberspace much like how our human microbiome is many orders of magnitude larger than our human cells The microbiome is extremely important from the perspective of how to treat diseases in humans especially bacterial infections The same is true for how to treat diseases in the cyber meta reality Thus knowing all we can about the cyber meta reality biome and microbiome is absolutely necessary in ensuring this world s growth care and flourishing

Reflecting Psychoanalysis Jurgen Reeder, 2018-05-08 At the heart of this book is an ethical question With what legitimacy do I assume the right to interpret my fellow being This question is raised in the context of a critique of a particular hermeneutic interpretation of psychoanalysis namely psychoanalysis as an objectifying discipline in which the other the analysand is regarded quintessentially as a representation or exterior object to be understood The author embraces the fundamental intersubjectivity of psychoanalytic experience Intersubjectivity is viewed as the human encounter within the psychoanalytic setting where there occurs a mutual influencing or acting upon rather than an encounter guided by an essentially objectivating scientific knowledge Truth in this conception is not a cumulatively acquired possession but an always emerging process coiled within an interpretative dialectic occurring between human beings This is a thoughtful nuanced clearly articulated and challenging book that engages directly with the perceived crisis of psychoanalysis

The Nature and Purpose of Reality Gary O Nickolaus, 2020-10-04 This book attempts to interpret the nature of reality as it is concurrently described by quantum physics but its concern is that which cannot be described with physics or mathematics it is about the first fraction of a second after the big bang when all physics and mathematics breaks down a big bang that was not a onetime occurrence but is rather an ongoing activity it is about the Planck length and Planck time where no measurements can be taken no observations can be made and deductive reasoning and subconscious awareness is our only means of understanding It is about the dual nature of reality described in Quantum Physics and interpreted by Theology It attempts to define how the finite and infinite combine to complete the purpose of the

Absolute Reality of the Singularity It attempts to describe the nature of reality as a mosaic in which all the concepts fit together to form an Absolute Reality that has meaning and that has purpose where God is not an abstract principle or a separate being but is rather an integral part of the nature of Physics which is the nature of God It attempts to explain the concepts that have been demonstrated by scientific experimentation in a way to match these observations with that which we have previously assigned to theology and God All incorporated as the nature of existence and as such integral parts of Quantum Physics and Theology Physics is the study of the nature of our spacetime however Quantum Physics describes limits beyond which our science and math have no meaning The physics of spacetime is related to the physics of the finite While our physics can only describe with certainty the nature of spacetime extrapolations can be made as to the nature of the quantum wave as it exists in the infinite Singularity God cannot be separated from the physics for He is the Physics He is the nature and purpose of reality The dual nature of the universe demonstrated in quantum physics describes spacetime as a projection of the quantum probability wave With the actualization of the probability wave into spacetime all that we know is created How is this spacetime created How does the creation of spacetime form the attributes of this universe These are the questions Quantum Physics attempts to answer but more importantly what is the purpose of spacetime and what is the function of conscious beings within that purpose That question has been regulated to philosophy and theology but the answers are demonstrated in physics
