Services And Circuses Community And The Welfare State:

Services and Circuses Frédéric Lesemann, 1984 Analyses the shift that occurred during Québec's Quiet Revolution where services traditionally provided by the Church or voluntary organisations were taken over by government bureaucracy

The Handbook of Social Studies in Health and Medicine Gary L Albrecht, Ray Fitzpatrick, Susan C Scrimshaw, 2003-04-21 This is the first international and interdisciplinary social science Handbook on health and medicine Five years in the making and building on the insights and advice of an international editorial board the book brings together world class figures to provide an indispensable comprehensive resource book on social science health and medicine Pinpointing the focal issues of research and debate in one volume the material is organized into three sections social and cultural frameworks of analysis the experience of health and illness and health care systems and practices Each section consists of specially commissioned chapters designed to examine the vital conceptual and methodological practice and policy issues Readers receive Challenge of Child Welfare Kenneth L. Levitt, Brian Wharf, 2011-11-01 I think this book in assembling the views of a distinguished group of professionals can have a profound effect on child welfare theory and practice These practitioners critics and academics have much to say I for one am grateful that their views are now conveniently available to all of us in this book from the foreword by Thomas R Berger Chairman the British Columbia Royal Commission on Family and Children's Law The first Canadian text on child welfare this work examines a number of issues which represent the state of the art of child welfare in Canada Among the contributors are practitioners as well as academics from the fields of social work child care law and medicine Important government studies and reports in the 1970s did much to define existing problems in child welfare and to provide directions for their solutions The developments and research reported in this book add to their findings Several main themes emerge in the book one being the lack of standardization of child welfare policy and practice in Canada since each province has its own regulations and policies Other concerns common to many of the authors are the dismantling of social service programmes as a result of the current recession and the need for greater cooperation with the native Indian leadership in regard to the provision of child welfare services to the Indian community Another important theme touched on by several authors concerns children in the care of welfare agencies They discuss how adequate the range and quality of services are and how the effect of these services can be measured The final theme centers on prevention and the early identification of families whose children may be at risk without certain support services The point of view which transcends all the contributions supports an institutional approach where a range of services is available to families to choose from as opposed to the residual approach which regards government services as the last resort While it is the latter view that is prevalent in Canada today the authors argue that this represents a penny wise but pound foolish approach not only to child welfare but also to the broader field of social welfare *Exposing Privatization* Pat Armstrong, Carol Amaratunga, Jocelyne Bernier, 2001-01-01 This book begins with the international context for health care reform and then moves from coast to

coast setting out what is known about the reforms in health care privatization that are underway and about their impact on women

The Corporate Transformation of Health Care J. Warren Salmon, 2021-06-23 This new volume illuminates the growing corporate inroads into the health care system and its probable consequences especially for physicians and other practitioners Its fourteen contributors examine both the delivery and supply functions in the health sector in America Ambulatory care hospitals health maintenance organizations and health promotion activities are each critically dissected A major thrust of the investigations focuses upon implications for the medical profession principally how the increased scrutiny over clinical decision making by corporate purchasers and payors threatens the traditional role and relative autonomy of physicians Varying theoretical perspectives are debated with an additional Canadian perspective offered [Heart Politics](#)

Fran Peavey, Myra Levy, Charles Varon, 1986 Fran Peavey of the internationally touring Atomic Comics tells of her encounters with elderly tenants facing eviction from their residential hotel with alcoholics and street people longing for self respect with ordinary citizens awakening to the threat of nuclear war with Indians dedicated to cleaning up the Ganges River with prostitutes in Bangkok worried about their children's education with civilians caught up in the tragedy of the Middle East conflict Compassionate thought provoking and extremely funny Heart Politics shows us that we can respond to critical issues with humanity and humour

Good Intentions Overruled Elizabeth A. Townsend, 1998-01-01 Townsend illustrates how attempts by occupational therapists to enable empowerment in everyday practice are thwarted by the institutional processes of admission accountability decision making budgeting risk management and discharge

Normal Bad Boys Prue Rains, Eli Teram, 1992 Institutions for juveniles have achieved a degree of professionalism that allows them to mask their selection of particular clients for organizationally convenient rather than clinically appropriate reasons In *Normal Bad Boys* Prue Rains and Eli Teram document the evolution and transformation of client recruitment strategies and explain the dynamics underlying the processing of juveniles In doing so they raise important questions about the policy safeguards that presumably protect young people
