EBOOK: Older People And Community Care Beverly

Hughes,1995-09-16 Older People and Community Care sets social and health care practice with older people firmly in the context of the new community care arrangements and the consequent organizational trends towards a market culture However it also questions the relative lack of attention given by professionals to issues of structural inequality in old age compared for example to race and gender Thus the book tackles a double agenda How can community care practice be suffused with anti ageist values and principles Addressing this question the book sets out the foundation knowledge and values which must underpin the development of anti discriminatory community care practice and examines the implications for practitioners in terms of the essential skills and inherent dilemmas which arise Older People and Community Care is essential reading for all those working with and managing services to older people and who aspire to make empowerment for older people a reality
