Setting Municipal Priorities 1982:

Setting Municipal Priorities, 1986 Charles Brecher, Raymond D. Horton, 1985 **Setting Municipal Priorities**, 1985

Setting Municipal Priorities, 1982 Charles Brecher, Raymond D. Horton, 1981-12-01 **The Future of National Urban Policy** Marshall Kaplan, Franklin J. James, 1990 The Future of National Urban Policy brings together scholars policymakers and journalists to explore the condition of America's cities The authors focus on policies of the previous five presidential administrations to examine the history of urban policy and offer suggestions for its future Individual chapters address a variety of topics including housing employment education the infrastructure of cities and public policy

Women, Men, and the International Division of Labor June C. Nash, Maria P. Fernandez-Kelly, 1984-06-30 The last few decades have witnessed a growing integration of the world system of production on the basis of a new relationship between less developed and highly industrialized countries The effect is a geographical dispersion of the various production stages in the manufacturing process as the large corporations of industrialized First World countries are attracted by low labor costs taxes and relaxed production restrictions available in developing countries This collection of papers focuses on inequalities among different sectors of the labor force particularly those related to gender and how these are affected by the changing international division of labor Political Crisis/fiscal Crisis Martin Shefter, 1992 This study examines the factors that caused New York City's financial crisis in 1975 and demonstrates how these manifestations of newly evolved political alliances and systems continue to undermine the city's financial stability It shows how these problems which are enduring features of the city's political system are not unique to New York but a threat to the financial stability of most major American cities The volume won the American Political Science Association's Award for the Best Book on Urban Policy

Ethnic Minorities and Industrial Change in Europe and North America Malcolm Cross, 1992-10-22 Following World War II racial and ethnic minorities formed a pool of low paid labour upon which the industrial city depended When industrial production shifted overseas the new local technological industries required fewer better skilled workers The consequence for those excluded was disastrous In this book leading authorities compare the situation of minorities in the post industrial cities of Europe and North America **Community Power in a Postreform City** Robert F.

Pecorella, 2019-07-26 This book represents the culmination of several years of research on community politics in New York City Power, Culture and Place John H. Mollenkopf, 1989-02-16 With a population and budget exceeding that of many nations a central position in the world's cultural and corporate networks and enormous concentrations of wealth and poverty New York City intensifies interactions among social forces that elsewhere may be hidden or safely separated The essays in Power Culture and Place represent the first comprehensive program of research on this city in a quarter century Focusing on three historical transformations the mercantile industrial and postindustrial several contributors explore economic growth and change and the social conflicts that accompanied them Other papers suggest how popular culture public space and

street life served as sources of order amidst conflict and disorder Essays on politics and pluralism offer further reflections on how social tensions are harnessed in the framework of political participation By examining the intersection of economics culture and politics in a shared spatial context these multidisciplinary essays not only illuminate the City s fascinating and complex development but also highlight the significance of a sense of place for social research It has been said that cities gave birth to the social sciences exemplifying and propagating dramatic social changes and proving ideal laboratories for the study of social patterns and their evolution As John Mollenkopf and his colleagues argue New York City remains the quintessential case in point

Ed Koch and the Rebuilding of New York City Jonathan M. Soffer,2010 In 1978 Ed Koch assumed control of a city plagued by filth crime bankruptcy and racial tensions By the end of his mayoral run in 1989 and despite the Wall Street crash of 1987 his administration had begun rebuilding neighborhoods and infrastructure Unlike many American cities Koch s New York was growing not shrinking Gentrification brought new businesses to neglected corners and converted low end rental housing to coops and condos Nevertheless not all the changes were positive AIDS crime homelessness and violent racial conflict increased marking a time of great if somewhat uneven transition For better or worse Koch s efforts convinced many New Yorkers to embrace a new political order subsidizing business particularly finance insurance and real estate and privatizing public space Each phase of the city s recovery required a difficult choice between moneyed interests and social services forcing Koch to be both a moderate and a pragmatist as he tried to mitigate growing economic inequality Throughout Koch s rough rhetoric attacking his opponents as crazy wackos and radicals prompted charges of being racially divisive The first book to recast Koch s legacy through personal and mayoral papers authorized interviews and oral histories this volume plots a history of New York City through two rarely studied yet crucial decades the bankruptcy of the 1970s and the recovery and crash of the 1980s
