## **Sex In Development Science Sexuality And Morality In Global Perspective:**

Sex in Development Stacy Leigh Pigg, Vincanne Adams, 2005-05-03 Ethnographic studies of the role of sexuality and gender in development discourse and policy      Understanding Global Sexualities Peter Aggleton, Paul Boyce, Henrietta L. Moore, Richard Parker, 2012-07-26 Over the course of the past thirty years there has been an explosion of work on sexuality both conceptually and methodologically From a relatively limited specialist field the study of sexuality has expanded across a wide range of social sciences Yet as the field has grown it has become apparent that a number of leading edge critical issues remain This theory building book explores some of the areas in which there is major and continuing debate for example about the relationship between sexuality and gender about the nature and status of heterosexuality about hetero and homo normativity about the influence and intersection of class race age and other factors in sexual trajectories identities and lifestyles and about how best to understand the new forms of sexuality that are emerging in both rich world and developing world contexts With contributions from leading and new scholars and activists from across the globe this book highlights tensions or flash points in contemporary debate and offers some innovative ways forward in terms of thinking about sexuality both theoretically and with respect to policy and programme development An extended essay by Henrietta Moore introduces the volume and an afterword by Jeffrey Weeks offers pointers for the future The contributors bring together a range of experiences and a variety of disciplinary perspectives in engaging with three key themes of sexual subjectivity and global transformations sexualities in practice and advancing new thinking on sexuality in policy and programmatic contexts It is of interest to students researchers and activists in sexuality sexual health and gender studies especially those working from public health sociological and anthropological perspectives      **Development, Sexual Rights and Global Governance** Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives access to citizenship and struggles for livelihood Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.openaccesspublishing.org>

The Sexual History of the Global South Saskia Wieringa, Horacio Sívori, 2013-04-11 The Sexual History of the Global South explores the gap between sexuality studies and post colonial cultural critique. Featuring twelve case studies based on original historical and ethnographic research from countries in Africa, Asia and Latin America, the book examines the sexual investments underlying the colonial project and the construction of modern nation states. Covering issues of heteronormativity, post colonial amnesia regarding non normative sexualities, women's sexual agency, the policing of the boundaries between the public and the private realm, sexual citizenship, the connections between LGBTQ activism and processes of state formation and the emergence of sexuality studies in the global South, this collection is of great geographical, historical and topical significance.

*Modernizing Sexuality* Anne Esacove, 2016-06-28 Moving beyond the boundaries of HIV scholarship, *Modernizing Sexuality* shows how Western idealizations of normative sexuality and the power of modernity intersect in U.S. HIV prevention policy. In this book, Anne Esacove gathers interview, archival and ethnographic data from the United States and Malawi to reveal failing U.S. prevention efforts. As seen in the promotion of love matches and women's right to say no to sex, modernization embedded within U.S. policy actually limits action against this widespread epidemic and even exacerbates HIV risk among women. Instead, by illuminating the collective solutions and multiple paths of prevention used by Malawians, Esacove's analysis expertly exposes these fundamental flaws and provides direction for potentially more effective strategies. Through this analysis, *Modernizing Sexuality* not only reveals major U.S. health policy flaws but asks important questions about prevention narratives, medicalizing social justice advocacy and feminist and sexuality theories as a guide for HIV prevention policy. Closing with an alternative narrative, Esacove reimagines risk and offers readers innovative prevention strategies to guide future policy endeavors.

Sexuality Reimagined Shailja Tandon, 2023-05-08 The book examines how medical knowledge is produced around bodies that do not fit in the heteronormative framework of the state's rationale and processes. The marginal bodies studied in this research are termed MSM: men who have sex with men, categorized as a high risk group in the backdrop of HIV/AIDS. These Queer bodies entered the registers of epidemiology and governmentality. This classification is the point of departure for the book. The book interrogates and asks how does a sexual subject become a political question? To answer this political trajectory, the book analyses the category of risk in biomedicine. It investigates how the category of risk becomes critical to the Indian state's rationale and policies wherein, through the ambit of health and population, sexuality is managed. Unearthing the sexual politics in South Asia, the book, based on rich empirical evidence derived from the lived experiences of MSM, narrates the construction of sexual subjectivity and masculinity. The process of construction occurs in negotiation with the Indian state, bringing forth the dimension of the Indian state as a medico-legal governmentality regime and how MSM takes on the identity of a medicalized subject.

**South Asia in the World: An Introduction** Susan S. Wadley, 2014-12-18

This first book in the new Foundations in Global Studies series offers a fresh comprehensive multidisciplinary introduction to South Asia. The variations in social, cultural, economic and political life in this diverse and complex region are explored within the context of the globalising forces affecting all regions of the world. In a simple strategy that all books in the series employ, the volume begins with foundational material including chapters on history, language and in the case of South Asia, religion moves to a discussion of globalisation and then focuses the investigation more specifically through the use of case studies. The cases expose the student to various disciplinary lenses that are important in understanding the region and are meant to bring the region to life through subjects of high interest and significance to today's readers. Resource boxes, an important feature of the book, are included to maintain currency and add utility. They offer links that point readers to a rich archive of additional material, connections to timely data reports on recent events, official sites, local and country-based media, visual material and so forth. A website developed by Syracuse University's South Asia Center will feature additional graphic narrative and case study material to complement the book.

**Cosmopolitan Sexuality** Ahonaa Roy, 2023-02-16

*Cosmopolitan Sexuality* articulates the ethnographic and anthropological studies of varied embodied projects in Indian metropolises. With particular reference to the city of Bombay, it draws evidences of gendered representations, their desires, appeal and aspirations to be and to express their sense of self. It attempts to establish arguments to a deconstructive notion of any fixation of identity categories and build a robust and complex understanding of sexual experiences, love, emotions and interpersonal relationships, an unusual way of local as well as global patterns that are culturally scathed in the contemporary new India. The book is relevant to contemporary embodiment studies, the invasive means of desiring corporeal reconstruction on one hand and dress ornamentation and makeup on the other. Transgressive politics are discursively and materially constructed to their everydayness and their unique ways of re-representation. Health is viewed in new dynamics of shared knowledges and communicative practices that has enabled building fresh arguments around community and public health with new visions of the anthropologies of empowerment.

**Equality in Asia-Pacific** Phil C. W. Chan,2014-02-04 In 1948 the United Nations General Assembly proclaimed the Universal Declaration of Human Rights stating every human being s right of equality in dignity and right However notwithstanding recognition by the international community of its importance and codification in numerous national and sub national constitutions and legislation reinforced by various multilateral and regional human rights treaties the right of equality continues to be unable to take complete firm hold in all regions and countries Evidence as presented by the insightful papers in this collection published initially as a Special Double Issue of The International Journal of Human Rights dedicated to exploring the place of equality in Asia Pacific societies suggests that although progress is being made the right of equality has not yet fully materialized both in law and in reality in the world s most populous region Many factors particularly entrenched cultural heritage and practices the lingering effects of colonialism and newly found independence and above all pervasive ignorance and prejudices continue to impede the recognition development and protection of equality in this region Of course equality a normative right and entitlement by virtue of our humanity has neither been fully achieved in societies outside the region Such neo colonial thinking in fact perpetuates and assists in the subjugation of the right of equality in the Asia Pacific Region as a matter of relevance and concern only to Western countries Accordingly we hope that our discussions will also be able to shed light and generate reflections on realities outside the region as interlinked with our aim The Editor s book fee has been donated to the UNICEF Tsunami Fund This book was previously published as a special issue of The International Journal of Human Rights

**African Sexualities** Sylvia Tamale,2011-06-23 A groundbreaking book accessible but scholarly by African activists It uses research life stories and artistic expression including essays case studies poetry news clips songs fiction memoirs letters interviews short film scripts and photographs to examine dominant and deviant sexualities and investigate the intersections between sex power masculinities and femininities It also opens a space particularly for young people to think about African sexualities in different ways
