plays in contemporary China      *The Sexual History of the Global South* Saskia Wieringa, Horacio Sívori, 2013-04-11 The Sexual History of the Global South explores the gap between sexuality studies and post colonial cultural critique Featuring twelve case studies based on original historical and ethnographic research from countries in Africa Asia and Latin America the book examines the sexual investments underlying the colonial project and the construction of modern nation states Covering issues of heteronormativity post colonial amnesia regarding non normative sexualities women s sexual agency the policing of the boundaries between the public and the private realm sexual citizenship the connections between LGBTQ activism and processes of state formation and the emergence of sexuality studies in the global South this collection is of great geographical historical and topical significance      [Reproductive Realities in Modern China](#) Sarah Mellors Rodriguez, 2023-01-19 Lasting from 1979 to 2015 China s One Child Policy is often remembered as one of the most ambitious social engineering projects to date and considered emblematic of global efforts to regulate population growth during the twentieth century Drawing on a rich combination of archival research and oral history Sarah Mellors Rodriguez analyses how ordinary people particularly women navigated China s shifting fertility policies before and during the One Child Policy era She examines the implementation and reception of these policies and reveals that they were often contradictory and unevenly enforced as men and women challenged reworked and co opted state policies to suit their own needs By situating the One Child Policy within the longer history of birth control and abortion in China *Reproductive Realities in Modern China* exposes important historical continuities such as the enduring reliance on abortion as contraception and the precariousness of state control over reproduction      *Translating Feminism in China* Zhongli Yu, 2015-06-05 This book explores translation of feminism in China through examining several Chinese translations of two typical feminist works *The Second Sex* TSS Beauvoir 1949 1952 and *The Vagina Monologues* TVM Ensler 1998 TSS exposes the cultural construction of woman while TVM reveals the pervasiveness of sexual oppression toward women The female body and female sexuality including lesbian sexuality constitute a challenge to the Chinese translators due to cultural differences and sexuality still being a sensitive topic in China This book investigates from gender and feminist perspectives how TSS and TVM have been translated and received in China with special attention to how the translators meet the challenges Since translation is the gateway to the reception of feminism an examination of the translations should reveal the response to feminism of the translator as the first reader and gatekeeper and how feminism is translated both ideologically and technically in China The translators decisions are discussed within the social historical and political contexts *Translating Feminism in China* discusses among other issues Feminist Translation Practice Theory and Studies Translating the Female Body and Sexuality Translating Lesbianism Censorship Sexuality and Translation This book will be relevant to postgraduate students and researchers of translation studies It will also interest academics interested in feminism gender studies and Chinese literature and culture Zhongli Yu is Assistant Professor of Translation Studies at the University of Nottingham Ningbo China UNNC      **Cultivating Global**

**Citizens** Susan Greenhalgh, 2010-10-15 Current accounts of China's global rise emphasize economics and politics largely neglecting the cultivation of China's people Susan Greenhalgh one of the foremost authorities on China's one child policy places the governance of population squarely at the heart of China's ascent Focusing on the decade since 2000 and especially 2004-09 she argues that the vital politics of population has been central to the globalizing agenda of the reform state By helping transform China's rural masses into modern workers and citizens by working to strengthen technoscience and legitimize the PRC regime and by boosting China's economic development and comprehensive national power the governance of the population has been critically important to the rise of global China After decades of viewing population as a hindrance to modernization China's leaders are now equating it with human capital and redefining it as a positive factor in the nation's transition to a knowledge based economy In encouraging human development the regime is trying to induce people to become self governing self enterprising persons who will advance their own health education and welfare for the benefit of the nation From an object of coercive restriction by the state population is being refigured as a field of self cultivation by China's people themselves

**Rethinking China in the 1950s** Mechthild Leutner, 2007 The articles in this issue deal with various aspects of the on going re evaluation and reconsideration of the far reaching political economic and ideological transformation of China in the 1950s exploring the broader themes in various subfields and from different perspectives There is a special focus on specific developments in the early 1950s on land reform and the significance of this for the political consolidation of the new People's Republic on state violence and mass crimes on the state discourse on housewives and housework on the establishment of Chinese as a foreign language at Peking University from the perspective of an eye witness Two studies deal with developments in the field of historiography the first analyses the discussions of Chinese intellectuals in the late 1950s who were seeking to establish historical legitimacy the second highlights recent debates among historians and intellectuals who have been creating new master narratives and have been involved in pluralistic terms in newly constructing the history of the 1950s especially with regard to the Great Leap Forward and the 1957 Anti Rightist Movement

Chiang, Ari Larissa Heinrich, 2013-11-26 The Sinophone framework emphasises the diversity of Chinese speaking communities and cultures and seeks to move beyond a binary model of China and the West Indeed this strikingly resembles attempts within the queer studies movement to challenge the dimorphisms of sex and gender Bringing together two areas of study that tend to be marginalised within their home disciplines *Queer Sinophone Cultures* innovatively advances both Sinophone studies and queer studies It not only examines film and literature from Mainland China but expands its scope to encompass the underrepresented Sinophone world at large in this case Taiwan Hong Kong Malaysia Singapore and beyond Further where queer studies in the U S Europe and Australia often ignore non Western cultural phenomena this book focuses squarely on Sinophone queerness providing fresh critical analyses of a range of topics from works by the famous director Tsai Ming Liang to the history of same sex soft core pornography made by the renowned Shaw Brothers Studios By instigating a dialogue between Sinophone studies and queer studies this book will have broad appeal to students and scholars of modern and contemporary China studies particularly to those interested in film literature media and performance It will also be of great interest to those interested in queer studies more broadly *Embodying Middle Class Gender Aspirations* Kailing Xie, 2021-04-25 This book takes a feminist approach to analyse the lives of well educated urban Chinese women who were raised to embody the ideals of a modern Chinese nation and are largely the beneficiaries of the policy changes of the post Mao era It explores young women s gendered attitudes to and experiences of marriage reproductive choices careers and aspirations for a good life It sheds light on what keeps mainstream Chinese middle class women conforming to the current gender regime It illuminates the contradictory effects of neoliberal techniques deployed by a familial authoritarian regime on these women s striving for success in urban China and argues that paradoxically women s

individualistic determination to succeed has often led them onto the path of conformity by pursuing exemplary norms which fit into the party state's agenda

Too Hot to Handle Jonathan Zimmerman, 2015-02-22 The first comprehensive history of sex education around the world Too Hot to Handle is the first truly international history of sex education As Jonathan Zimmerman shows the controversial subject began in the West and spread steadily around the world over the past century As people crossed borders however they joined hands to block sex education from most of their classrooms Examining key players who supported and opposed the sex education movement Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling In the early 1900s the United States pioneered sex education to protect citizens from venereal disease But the American approach came under fire after World War II from European countries which valued individual rights and pleasures over social goals and outcomes In the so called Third World sex education developed in response to the deadly crisis of HIV AIDS By the early 2000s nearly every country in the world addressed sex in its official school curriculum Still Zimmerman demonstrates that sex education never won a sustained foothold parents and religious leaders rejected the subject as an intrusion on their authority while teachers and principals worried that it would undermine their own tenuous powers Despite the overall liberalization of sexual attitudes opposition to sex education increased as the century unfolded Into the present it remains a subject without a home Too Hot to Handle presents the stormy development and dilemmas of school based sex education in the modern world

Chinese Translation Studies in the 21st Century Roberto Valdeon, 2018-11-09 Chinese Translation Studies in the 21st Century which presents a selection of some of the best articles published in the journal Perspectives in a five year period 2012 2017 highlights the vitality of Translation Studies as a profession and as a field of enquiry in China As the country has gradually opened up to the West translation academic programmes have burgeoned to cater for the needs of Chinese corporations and political institutions The book is divided into four sections in which authors explore theoretical and conceptual issues such as the connection between translation and adaptation multimodality and the nature of norms audiovisual translation including studies on news translation and the translation of children's movies bibliographies and bibliometrics to assess for example

the international visibility of Chinese scholars and interpreting analyzing pauses in simultaneous interpreting and sign language among other aspects The book brings together well established authors and younger scholars from universities in mainland China Hong Kong Macao and Taiwan The chapters in this book were originally published in various issues of Perspectives Studies in Translatology Migrants In Chinese Megacities: Producing Transient Urban Spaces In The Pearl River Delta Bettina Gransow,2025-07-23 This book starts from the assumption that there is no single path of migrant integration or incorporation into the megacity It then asks what kinds of migrant pathways into the Chinese megacity might be discovered by studying migrants own agency Based on over one hundred qualitative interviews conducted in the Pearl River Delta the micro studies in this volume show how different high risk migrant groups voluntary and involuntary blue collar and white collar internal and international connect to the megacity through their everyday routines and practices constituting and appropriating transient urban spaces It also examines the responsiveness of the Chinese government s migration policies from the perspective of these different migrant groups The study brings aspects of migration sociology and risk sociology into dialogue with each other and with urban China studies Linked to ideas of the global risk society and planetary urbanisation the study provides an empirical and theoretical building block beyond China s national development Its findings are expected to contribute to current debates on restricting or promoting migration to Chinese megacities

*Rebel Men* Pamela Hunt,2022-05-10 Masculinity fast changing and regularly declared to be in the throes of crisis is attracting more popular and scholarly debate in China than ever before At the same time Chinese literature since 1989 has been characterized as brimming with countercultural attitude This book probes the link between literary rebellion and manhood in China showing how as male writers critique the outcomes of decades of market reform they also ask the same question how best to be a man in the new postsocialist order In this first full length discussion of masculinity in post 1989 Chinese literature Pamela Hunt offers a detailed analysis of four contemporary authors in particular Zhu Wen Feng Tang Xu Zechen and Han Han In a series of insightful readings she explores how all four writers show the same preoccupation with the figure of the man on the edges of society Drawing on longstanding Chinese and global models of maverick as well as marginal masculinity and responding to a desire to retain a measure of masculine authority their characters all engage in forms of transgression that still rely heavily on heteronormative and patriarchal values *Rebel Men* argues that masculinity so often overlooked in literary analysis of contemporary China continues to be renegotiated debated and agonized over and is ultimately reconstructed as more powerful than before An exceptionally lucid elegant study of masculinity in mainland Chinese fiction of the 1990s and 2000s Both historically and theoretically informed *Rebel Men* Masculinity and Attitude in Postsocialist Chinese Literature offers a major new perspective on post 1989 Chinese counterculture Julia Lovell Birkbeck University of London Sissi's World Maura E. Hametz,Heidi Schlipphacke,2018-07-12 Sissi s World offers a transdisciplinary approach to the study of the Habsburg Empress Elisabeth of Austria It investigates the myths legends and

representations across literature art film and other media of one of the most popular revered and misunderstood female figures in European cultural history Sissi's World explores the cultural foundations for the endurance of the Sissi legends and the continuing fascination with the beautiful empress a Bavarian duchess born in 1837 the longest serving Austrian empress and the queen of Hungary who died in 1898 at the hands of a crazed anarchist Despite the continuing fascination with the beloved Sissi the Habsburg empress her impact and legacy have received scant attention from scholars This collection will go beyond the popular biographical accounts recountings of her mythic beauty and scattered studies of her well known eccentricities to offer transdisciplinary cultural perspectives across art film fashion history literature and media Sex, Culture, and Modernity in China Frank Dikötter, 1995-01-01 With the disintegration of Confucian cosmology after the fall of the imperial system in China medical science was introduced as an epistemological foundation for social order The construction of sexuality as a dangerous drive which was thought to form the very core of the individual led to the emergence of a wide range of identities like the menstruating girl the hysterical housewife the masturbating adolescent and the syphilitic husband The naturalization of desire also introduced a tension between the sexual responsibilities of the individual and the coercive intervention of civil society in the name of the collective health of future generations Although new categories of analysis such as population race sex woman and youth were introduced to early Republican China from abroad their reception and adaptation were founded on cultural reorientations which may have taken place as long before as the 17th and 18th centuries Instead of describing the rise of normative naturalism as a derivative discourse from the West this book recognizes that the roots of modernizing representations may have had to be sought in a rich and diverse past in China itself The author's analysis is based on medical and lay texts such as handbooks marriage guides and introductions to physiology and sexual hygiene The epilogue demonstrates how the sexual identities invented early this century are still in place in China today
