Sexuality, Gender and Schooling Mary Jane Kehily, 2005-06-29 The sexuality of young people arouses controversy and remains a source of concern for parents teachers policy makers and politicians But what young people really think about sexuality and gender and how these issues impact upon their lives is often marginalized or overlooked Based upon extensive ethnographic research with young people and teachers Sexuality

Gender and Schooling offers a telling and insightful account of how young people acquire sexual knowledge and how they enact their understanding of their own gender. It highlights the ways in which young people's constructions of gender and sexuality are formed outside the school curriculum through engagements with various forms of popular culture such as teen magazines and television programmes and through same sex friendship groups. Offering a fresh perspective on a subject of perennial interest and concern, *Sexuality, Gender and Schooling* provides accounts from the inside, some of which may challenge and eclipse current approaches to sexuality education. It has significant implications for policy and practice in Personal Social and Health Education and is also an excellent introduction to key debates and issues in the study of gender and sexuality.

Teaching New Religious Movements David G. Bromley, 2007-05-25 Since its inception around 1970 the study of New Religious Movements (NRMs) has evolved into an established multidisciplinary field. At the same time both the movements and the scholars who study them have been the subjects of intense controversy. In this volume a group of senior NRM scholars who have been instrumental in the development of the field will offer pivotal essays that present the basics of NRM scholarship along with guidance for teachers on classroom use. The book is organized topically around subjects that are both central to the study of NRMs and likely to be useful to non-specialists. Part I contains examinations of the definitional boundaries of the area of study, varying disciplinary perspectives on NRMs, unique methodological/ethical problems encountered in the study of NRMs and the controversies that have confronted scholars studying NRMs and the movements themselves. Part II examines a series of topics central to teaching about NRMs: the larger sociocultural significance of the movements, their distinctive symbolic and organizational features, the interrelated processes of joining and leaving NRMs, the organization of gender roles in NRMs, media and popular culture portrayals of the movements, the occurrence of corruption and abuse within movements and violence by and against NRMs. Part III provides informational resources for teaching about NRMs which are particularly important in a field where knowing the biases of sources is crucial. With its interdisciplinary approach the volume provides comprehensive, accessible information and perspectives on NRMs. It is an invaluable guide for instructors navigating this scholarly minefield.

Teaching Introduction to Women's Studies Carolyn DiPalma, Barbara S. Winkler, 1999-10-30 This edited collection addresses the institutional context and social issues in which teaching the women's studies introductory course is embedded and provides readers with practical classroom strategies to meet the challenges raised. The collection serves as a resource and preparatory text for all teachers of the course including experienced teachers, less experienced teachers, new faculty and graduate student teaching assistants. The collection will also be of interest to educational scholars of feminist and progressive pedagogies and all teachers interested in innovative practices. The contributors discuss the larger political context in which the course has become a central representative of women's studies to a growing, although less feminist identified, population. Increased enrollments and changes in student population are noted as a result in part of the popularity of Introduction to Women's Studies courses in fulfilling GED and

diversity requirements New forms of student resistance in a climate of backlash and changes in course content in response to internal and external challenges are also discussed Evidence is provided for an emerging paradigm in the conceptualization of the introductory course as a result of challenges to racism heterosexism and classism in women s studies voiced by women of color and others in the 1980s and 1990s Sensationalist charges that women s studies teachers including those who teach the Introduction to Women s Studies course are the academic shock troops of a monolithic feminism are challenged and refuted by the collection s contributors who share their struggles to make possible classrooms in which informed dialogue and disagreement are valued Irm-Soc Brym,Lie,2004-03 *Catalogue Number.
