

A Celebration of Life for

Hannah Erickson-Diehl

will be held

October 5th at 1 PM at the I BAR Ranch
Service followed by food and drink to celebrate her
life between friends and family.

Her Story

It is with deep sadness we announce the untimely passing of
Hannah Erickson-Diehl on 9-26-24 in Gunnison, Colorado.

Hannah was born on April 18th, 1995 in Colorado Springs, Colorado. Life brought her to Gunnison in the fall of 2013 to attend college where she excelled in Track and Field and studied Biology. Her outgoing nature led her to her husband Andrew Diehl. Together, their desire to help their community inspired them both to join the Law Enforcement profession. Hannah enjoyed being an outdoor adventurer, and was a lover of animals, arts and crafts, flowers...especially sunflowers...dinosaurs and exercise. They experienced their greatest joy on September 10th, 2024 with the birth of their first child, a beautiful baby girl, Eleanor Mae. As Andrew & Hannah were preparing for their first nature walk, Hannah collapsed and passed away shortly after. Hannah is survived by her Husband Andrew, baby Daughter Eleanor, Mother, Father, Sister Two Brothers, Nephew and extended family.

Her memory will live on in everyone who knew her and their responsibility to her memory, will be to share their memories of Hannah with Eleanor as she grows, so she may too, know the mother she will forever miss.

A First Responder's procession will be departing from Cross Fit in Gunnison to Hwy 50 and then to the I-BAR Ranch. Please take a few minutes to observe the passing at some point on the route if you are able.

Hannah loved sunflowers. We encourage anyone planning on attending to wear jeans and a YELLOW shirt

Share The Tragedy:

Making an Entrance Juliane Vogel, 2022-10-03 How does the entrance of a character on the tragic stage affect their visibility and presence Beginning with the court culture of the seventeenth century and ending with Nietzsche's Dionysian theater this monograph explores specific modes of entering the stage and the conditions that make them successful or cause them to fail The study argues that tragic entrances ultimately always remain incomplete that the step figures take into visibility invariably remains precarious Through close readings of texts by Racine Goethe and Kleist among others it shows that entrances promise both triumph and tragic exposure though they appear to be expressions of sovereignty they are always simultaneously threatened by failure or annihilation With this analysis the book thus opens up possibilities for a new theory of dramatic form one that begins not with the plot itself but with the stage entrance that structures how characters appear and thus determines how the plot advances By reflecting on acts of entering this book addresses not only scholars of literature theater media and art but anyone concerned with what it means to appear and be present **Sharing**

Responsibility Larry May, 1996-06 Are individuals responsible for the consequences of actions taken by their community What about their community's inaction or its attitudes In this innovative book Larry May departs from the traditional Western view that moral responsibility is limited to the consequences of overt individual action Drawing on the insights of Arendt Jaspers and Sartre he argues that even when individuals are not direct participants they share responsibility for various harms perpetrated by their communities **History of Manistee, Mason and Oceana Counties, Michigan ...**, 1882

The Business of Sharing Alex Stephany, 2015-03-09 Providing a colorful insight into the people at the forefront of the emergent Sharing Economy a movement predicted to already be worth around 26B a year this book gives vital advice to anyone thinking of starting or investing in a collaborative consumption business The first of its kind written by an author on the forefront of this new trend **Sharing** Matthew David, 2017-09-05 Today's economic system premised on the sale of physical goods does not fit the information age in which we live The capitalist order requires the maintenance of an artificial scarcity in goods that have the potential for near infinite and almost free replication The sharing of informational goods through distributed global networks digital libraries file sharing live streaming free software free access publishing the free sharing of scientific knowledge and open source pharmaceuticals not only challenges the dominance of a scarcity based economic system but also enables a more efficient innovative just and free culture In a series of seven explorations of contemporary sharing Matthew David shows that in each case sharing surpasses markets private ownership and intellectual property rights in fostering motivation creativity innovation production distribution and reward In transforming the idea of an information economy into an information society sharing connects struggles against inequality and poverty in developed and developing countries Challenging taken for granted justifications of the status quo Sharing debunks the tragedy of the commons and makes the case for digital network sharing as a viable mode of economic counterpower prefiguring a post

Forster, 2018-08-16 Johann Gottfried Herder 1744 1803 is a towering figure in modern thought but one who has hitherto been severely underappreciated Michael Forster seeks to rectify that situation He considers Herder's philosophy in the round and argues that it is both far more impressive in quality and far more influential in modern thought than has previously been realized After an introduction on Herder's intellectual biography philosophical style and general program in philosophy there are chapters on his philosophy of language his hermeneutics his theory of translation his contribution of the philosophical foundations for both linguistics and cultural anthropology his philosophy of mind his aesthetics his moral philosophy his philosophy of history his political philosophy his philosophy of religion and his intellectual influence Forster argues that Herder contributed vitally important ideas in all of these areas that in many of them his ideas were seminal for major subsequent philosophers including Friedrich Schlegel Schleiermacher Wilhelm von Humboldt Hegel and Nietzsche that they indeed founded whole new disciplines such as linguistics anthropology and comparative literature and that moreover they were in many cases even better than what these subsequent thinkers and disciplines went on to make of them The Sentimental Education of the Novel Margaret Cohen, 2018-06-05 The nineteenth century French novel has long been seen as the heroic production of great men who confronted in their works the social consequences of the French Revolution And it is true that French realism especially as developed by Balzac and Stendhal was one of the most influential novelistic forms ever invented Margaret Cohen however challenges the traditional account of the genesis of realism by returning Balzac and Stendhal to the forgotten novelistic contexts of their time Reconstructing a key formative period for the novel she shows how realist codes emerged in a hostile take over of a prestigious contemporary sentimental practice of the novel which was almost completely dominated by women writers Cohen draws on impressive archival research resurrecting scores of forgotten nineteenth century novels to demonstrate that the codes most closely identified with realism were actually the invention of sentimentality a powerful aesthetic of emerging liberal democratic society although Balzac and Stendhal trivialized sentimental works by associating them with frivolous women writers and readers Attention to these gendered struggles over genre explains why women were not pioneers of realism in France during the nineteenth century a situation that contrasts with England where women writers played a formative role in inventing the modern realist novel Cohen argues that to understand how literary codes respond to material factors it is imperative to see how such factors take shape within the literary field as well as within society as a whole The book also proposes that attention to literature as a social institution will help critics resolve the current vital question of how to practice literary history in the wake of poststructuralism **Rhapsody** Hal Duncan, 2014 Acclaimed author and critic Hal Duncan turns his analytic eye towards the development and current state of speculative fiction in American and English writing in the pages of Rhapsody Duncan's trademark wry humor and suffer no fools approach to critiquing the genre will make this book more than a resource for students of the field anyone who enjoys reading tales of the

Committee on Ways and Means, 1971 *A Stage for Debate* Martin Wagner, 2023-05-26 *A Stage for Debate* presents a detailed analysis of the repertoire of the leading German language stage of the nineteenth century Vienna's Burgtheater. The book explores the extent to which the Burgtheater repertoire contributed to important political and cultural debates on individual liberty, the role of women in society and the understanding of national and regional identity. The relevance of the Burgtheater as a forum for political debate is assessed not by the degree to which the performed plays transgressed established norms but by the range of positions that were voiced on a given topic. Martin Wagner investigates the roughly 1 000 plays from across Europe that were introduced to the Burgtheater's repertoire between 1814 and 1867 by combining a general overview with detailed interpretations of especially successful plays. Wagner reveals that the Burgtheater was significantly more involved in contemporary debates than the stereotype of this stage as an artistically refined but apolitical institution suggests. Drawing from theatre studies and German and Austrian studies more broadly, *A Stage for Debate* revises the history of one of Europe's leading theatres. **Spectrum Sharing** Constantinos B. Governing Agrobiodiversity Regine Andersen,2016-04-22 Plant genetic diversity is crucial to the breeding of food crops and is therefore a central precondition for food security Diverse genetic resources provide the genetic traits required to deal with crop pests and diseases as well as changing climate conditions Plant genetic diversity is also essential for traditional small scale farming and is therefore an indispensable factor in the fight against poverty However the diversity of domesticated plant varieties is disappearing at an alarming rate while interest in the commercial use of genetic resources has increased in line with bio technologies followed by demands for intellectual property rights This important book contributes to our understanding of how international regimes affect the management of plant genetic resources for food and agriculture in developing countries It identifies entry points to shape a better governance of agrobiodiversity and provides the first comprehensive analysis of how the international agreements pertaining to crop genetic resources affect the management of these vital resources for food security and poverty eradication in developing countries

Transforming Themes Paul J Leslie,2021-07-08 Transforming Themes challenges the dominant view of psychotherapy

as a structured reductionist process Instead it views psychotherapy as an alive unrehearsed interaction that embraces healing when it is focused on the role of therapeutic themes These themes are the entrenched frames of references or contexts from which clients perceive their lives In any interaction each participant has a unique worldview When clients come to therapy they bring their problems in the form of a theme the woman who can t forgive or the child who is a terror Any potential statement or action performed within this theme merely strengthens the problem Only when the theme of the therapy session has shifted can clients gain access to inner resources to shift perspectives and begin inner transformation Effective therapy results from moving clients into more flexible empowering themes These changes occur as a result of the dynamic interaction between therapist and client which embraces improvisation creativity and novelty rather than adherence to specific theories or techniques Using historical and modern research and colourful case studies this work will help professionals understand how to easily adapt and apply creative and resourceful therapy interventions no matter what therapeutic orientation they endorse This book will enable therapists counsellors psychologists and social workers to gain access to creative effective methods which help their clients heal while increasing effectiveness and enjoyment in clinical work
