**A Critical Wound** Suzanne Stewart, 2007-11-28 This book has been written for the millions of those both young and old who are afflicted with or deal with a loved one who has fallen victim to an eating disorder but continue to hide their pain Written in novel form it is intended to be a fascinating yet frightening story of four individuals as they go through their day to day lives trying to deal with their illness Knowing that what they are doing is wrong but initially afraid to get the help

they so desperately need Eating Disorders are never cured only controlled and so many people have the wrong idea or stereotype of those afflicted They are not bad kids or adults just trying to get attention it is so much more than that Eating Disorders are valid illnesses Whether one is under or overweight it could be due to any number of things Sexual and emotional abuse is among the top five as well as drug and exercise abuse and of course peer pressure The psyche allows us to believe that weight is one thing we can have absolute control over and thus victims pride themselves in acquiring that control Victims and their families must be educated to help identify a problem that is starting or exists and in seeking help before it goes beyond critical to a fatal wound

**Meant for Each Other** Rebecca Winters,1992 Meant For Each Other by Rebecca Winters released on Aug 25 1992 is available now for purchase *The New Teaching Elementary Science* Selma Wassermann,J. W. George Ivany,1996-01-01 This book is designed for teachers to be and practicing teachers who want to teach science with confidence and for those who are fearful of trying It presents an inquiry oriented method instead of a smorgasbord of approaches that capitalizes on children s natural curiosity by emphasizing scientific exploration The book removes the fear of teaching science by encouraging teachers to be scientific inquirers themselves learning side by side with their students The text features a theoretical model of inquiry based teaching Play Debrief Replay that incorporates elements of investigative play with critical thinking skills In the longest chapter 60 fully developed field tested investigative science activities are included to promote experiential learning and concept development Anxieties about teaching science are addressed head on and dealt with sensitively and thoughtfully
