alongside changes in landscape representation across a variety of media including paintings photographs prints porcelain and maps Through this broad and diverse set of images by artists such as Paul C zanne Gustave Courbet Th odore Rousseau and Eug ne Viollet le Duc as well as lesser known figures Kelly Presutti contends that representational problems were also political problems which often required drastic solutions on the part of the state In the nineteenth century France s forests were replanted its wetlands were drained its coasts were secured and its mountains restored Landscapes and their inhabitants however could resist being co opted as emblems of a greater ideal The book therefore addresses the tension between a place and its representation a matter of heightened urgency in a moment when we are once again struggling to both see and manage our environment
