Chambers, David Patrick, 1901 The Lyric Voice in English Theology Elizabeth S. Dodd, 2023-09-21 In this book Elizabeth S. Dodd traces the contours of a lyric theology through the lens of English lyric tradition. She addresses the dominance of narrative and drama in contemporary theological aesthetics by drawing on recent developments in lyric theory. Informed by the work of critics such as Jonathan Culler, Dodd explores the significance of lyric for theological discourse. Lyric is presented here as a short, musical, expressive, and personal form that is also fragmentary, embodied, socially located, and performative. The main chapters address key moments in English lyric tradition. This selective approach aims to expand the theological gaze beyond the monochromatic features of the traditional canon. It covers Anglo-Saxon hymns, medieval lullaby carols, early modern sonnets, and the prophetic poetry of Romanticism, but also Grime and hip-hop performance poetry, social media poetry, and Geoffrey Hill.
