Campbell, Peter T. Bradley, Joyce Lorimer, 2018-05-11 In 2009 after a public appeal the British Library purchased a manuscript Booke which Captain Narbrough bought in 1666 and into which he subsequently entered his journals of his voyages and correspondence relating to them The Booke contains his own fair copy of the journal of his voyage through the Strait of Magellan and north to Valdivia in the Sweepstakes 1669 1671 This is published here for the first time together with an incomplete and somewhat different copy of the journal held in the Bodleian Library which was made for him by a clerk after he returned to England and which was partially published in 1694 Both versions of the journal together with previously unpublished records made by members of his company as well as reproductions of the charts which Narbrough relied on and those he produced are printed here Narbrough s mission was to carry out a passenger who referred to himself as Don Carlos Enriques and who claimed to have expert knowledge of Peru and Chile and contacts with disaffected colonists and indigenous peoples Don Carlos s written proposals to King Charles II and his ministers only recently discovered are here translated from Spanish and give a clear sense of the character if not the real identity of an adventurer who gave the authorities in England Chile and Peru totally different and changing stories about his status and the purpose of the voyage Narbrough s conduct of the voyage has been criticized by later authors who have focussed on his inability recover four of his ship s company from detention in Valdivia and the lack of tangible results in the form of trade or contacts with indigenous groups The more complete story provided here shows that Narbrough carried out his ambiguous orders to the letter His chart of the Strait of Magellan remained the principal chart of the area for the next century King Charles II and James Duke of York both recognized his abilities He was rapidly re employed in naval service subsequently knighted and rose to become a Commissioner of the Navy and Commander in Chief in the Mediterranean **The Nautical Magazine and Naval Chronicle for 1862** Various, 2013-03-28 The 1862 Nautical Magazine reports on the Slave Trade Treaty trans Canadian transport submarine telegraph projects and a scientific balloon ascent **Notes on the Natural History of the Strait of Magellan and West Coast of Patagonia, made during the voyage of H.M.S. M. S. "Nassau" in the years 1866, 67, & 69 by Robert O. Cunningham* Robert O. Cunningham,1871 The Nautical Magazine and Naval Chronicle ,1862 The First Voyage Round the World by Magellan Henry Edward John Stanley,1874 Ferdinand Magellan Facts On File, Incorporated,2009 **The First Voyage Round the World by Magellan** Antonio Pigafetta, Though Magellan s enterprise was the greatest ever undertaken by any navigator yet he has been deprived of his due fame by the jealousy which has always existed between the two nations inhabiting the Peninsula the Spaniards would not brook being commanded by a Portuguese and the Portuguese have not yet forgiven Magellan for having abandoned them to serve Castile But Magellan really had no choice for if the western passage which he expected to discover was to be sought for it could only be under the auspices of Spain within whose demarcation those waters lay It would seem that D Manuel had only himself to blame for the loss of Magellan s services and as M Amoretti well observes D Manuel ought to have been well aware of the value of those services since Charles V knew it and showed his appreciation of them It is difficult to believe that the injury of which Magellan complained and which led him to seek other service was merely as Osorio says the refusal of promotion in palace rank and which he had well deserved especially since the motive ascribed by Osorio to the king s refusal namely the necessity of avoiding a bad precedent was not alone a sufficient affront to account for Magellan s sacrificing all his hopes and property in his own country had he not also felt that the king was condemning him to inaction obscurity and uselessness Barros indeed says that The favours of princes given for services are a retributive justice which must be observed equally with all with regard to the quality of each man and that if a man s portion be denied him though he endures it ill yet he will have patience but if he see the advancement of those who have profited more by artifice and friends than by their own merits he loses all patience indignation hatred and despair arise and he will commit faults injurious to himself and others And what outraged Magellan more than the refusal of the half ducat a month was that some men who were with him at Azamor said that his lameness was feigned to support his petition The king moreover refused to receive Magellan and showed his ill will against him It is therefore highly probable that before Magellan took the step of leaving Portugal D Manuel prompted by his niggardly disposition had refused to entertain Magellan s desire for employment at sea or his projects of discovery from which no immediate profit was to be expected This is apparent from the statement of Barros Decad iii lib v cap viii that letters of Magellan to Francisco Serrano were found after the death of the

latter in Maluco in which Magellan said that he should soon see him and if it were not by way of Portugal it would be by way of Castile and that Serrano should therefore wait for him there Further on Barros says that recourse to Castile appears from these letters to have been in Magellan s mind some time before the occurrence of the king s dismissal of his business and that this was shown by his always associating with pilots and occupying himself with sea charts **The Frontier** ,1929

The Frontier and Midland Harold Guy Merriam,1929 **The First Voyage Round the World, by Magellan** Lord Stanley of Alderley,2017-05-15 The text is translated from the Accounts of Pigafetta and other Contemporary Writers Accompanied by Original Documents with Notes and an Introduction It includes the log book of Francisco Alvo or Alvaro Pigafetta s treatise on navigation and his account of the voyage Gaspar Correa s account other anonymous narratives and documents relating to the cost and other aspects of the expedition This is a new print on demand hardback edition of the volume first published in 1874
