Modern China's Search For A Political Form:

Modern China's Search for a Political Form Royal Institute of International Affairs. Working Group on China and the World, 1969 **Lin Yutang and China's Search for Modern Rebirth** Suoqiao Qian, 2017-10-20 This book provides a comprehensive examination of the socio cultural and political context of modern China in terms of its interaction with America and the West focusing on the influence of the well known Chinese writer and intellectual Lin Yutang 1895-1976. Offering a unique study of the life and works of Lin Yutang it highlights his intellectual legacy in modern China and considers how his cross cultural life and ideas embodied the modern Chinese cultural experience. It notably focuses on Lin's reputation as an outspoken critic of the infringement of human rights during the rise of the Communist regime in China but also on his rediscovery of Chinese cultural resources. At a time when China's cultural contributions are increasingly relevant worldwide this book contributes to ongoing critical reflections of Chinese modernity particularly in terms of its intellectual legacies but also to a renewed understanding of the cross cultural interactions between China and America and a re-opening the dialogue and search for a new cultural understanding.

Modern China's Search for a Political Form Royal Institute of International Affairs. Working Group on China and the World, 1969 **Image, Perception, and the Making of U.S.-China Relations** Hongshan Li, 1998-06-25 *Image Perception and the Making of U.S. China Relations* examines major events in the history of the relationship between the U.S. and China to show the development and effects of national images and perceptions. These essays expose the effects of ideology as represented through foreign policy and the actions of leaders as well as the role of the media and governments in shaping public opinion and attitudes. They show the evolution of the influential forces from the nineteenth century through the twentieth century. In each country a small group of people has always controlled these forces by manipulating the power of the media and governments. The nature of this situation changed national perceptions as power often moved from one small group to another. As a result of manipulating the images and perceptions of each country these biased and untrue views have inevitably led to conflict between the two countries.
