Moscow And The Middle East New Thinking On Regional Conflict:

Moscow and the Middle East Galia Golan,1992 This study analyzes the impact that Soviet foreign policy has had under Gorbachev's new thinking with regard to the Arab Israeli conflict the Palestinian issue and the prospects for superpower cooperation for the achievement of a settlement The question of Soviet arms sales and prospects for regional security are examined in this context The conduct of Soviet policy towards the Gulf states and the application of the new thinking during the Gulf crisis are also examined with particular reference to domestic Soviet politics and their impact on Middle Eastern policy

The Cold War and the Middle East Yezid Sayigh, Avi Shlaim, 1997-05-22 The Cold War has been researched in minute detail and written about at great length but it remains one of the most elusive and enigmatic conflicts of modern times With the ending of the Cold War it is now possible to review the entire post war period to examine the Cold War as history The Middle East occupies a special place in the history of the Cold War It was critical to its birth its life and its demise In the aftermath of the Second World War it became one of the major theatres of the Cold War on account of its strategic importance and its oil resources The key to the international politics of the Middle East during the Cold War era is the relationship between external powers and local powers Most of the existing literature on the subject focuses on the policies of the Great Powers towards the local region The Cold War and the Middle East redresses the balance by concentrating on the policies of the local actors It looks at the politics of the region not just from the outside in but from the inside out The contributors to this volume are leading scholars in the field whose interests combine International Relations and Middle Eastern Studies

The American Bibliography of Slavic and East European Studies Pat Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology

Problems of Communism, 1992 **Russia and the GCC** Diana Galeeva, 2022-12-29 In recent decades Russia has played an increasingly active role in the Middle East as states within the region continue to diversify their relations with major external powers Yet the role of specific Russian regions especially those that share an Islamic identity with the GCC has been overlooked In this book Diana Galeeva examines the relations between the Gulf States and Russia from the Soviet era to the present day Using the Republic of Tatarstan one of Russia's Muslim polities as a case study Galeeva demonstrates the emergence of relations between modern Tatarstan and the GCC States evolving from concerns with economic survival to a rising paradiplomacy reliant on shared Islamic identities Having

conducted fieldwork in the Muslim Republics of Tatarstan Bashkortostan and Dagestan the book includes interviews with high ranking political figures heads of religious organisations and academics Moving beyond solely economic and geopolitical considerations the research in this book sheds light on the increasingly important role that culture and shared Islamic identity play in paradiplomacy efforts International Relations of the Middle East Louise Fawcett,2013-03-21 Leading scholars of Middle East politics and international relations present comprehensive coverage of the international politics of the Middle East a region at the forefront of international attention The Soviet Union and the PLO Roland Dannreuther,2016-07-27 The Soviet Union and the PLO provides a comprehensive account of Soviet PLO relations from the formation of the PLO in 1964 to the disintegration of the Soviet Union in 199 By analysing in detail the complex and often turbulent evolution of the Soviet PLO relationship the book also provides critical insights into Soviet policy making towards the Arab Israeli conflict and the various strategies Moscow adopted to attain its strategic and ideological interests in the region Soviet Jewish Aliyah, 1989-92 Clive A. Jones,2013-10-18 This book provides new insights into a period of fundamental change in Israel and the Middle East It explains how the Israeli government failed to effectively handle the integration of new emigres from the Soviet Union and how it alienated traditional Likud supporters among Oriental Jews in Israel Clive Jones s argument is that by placing its ideological commitment to the retention of the West Bank above other priorities the Likud leadership made itself beholden to the United States for financial assistance which was then denied The resulting fundamental change in the composition and orientation of the Israeli political leadership has had a major influence on the course of the Arab Israeli peace process **Russian National Interests and the Current Crisis in Russia** Henry Trofimenko,2019-05-23 First published in 1999 this book analyses the national interests of Russia as they are indicated by the current policies of the Russian government and formulated in public and not so public discussions in high echelons of government The author not only sums up and critically reviews those interests in general but gives detailed analysis of specific interests of Russia in Europe Asia and the Middle East A large chapter is devoted to the review of converging and diverging interests of the USA and Russia The main value of the book is in its philosophical aspect An outstanding Russian foreign policy expert who for 20 years participated in inner debates on a high level on issues of Soviet foreign policy and was considered by US politicians and scholars to be one of the top experts in Moscow on the US foreign policy and military strategy muses over the fate of Russia and its current foreign policy and domestic predicaments
